## INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and City Council City of Elkton, Kentucky

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Elkton, Kentucky as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Elkton, Kentucky's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Elkton, Kentucky, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the pension and OPEB schedules on pages 3-13 and 49-54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2021, on our consideration of the City of Elkton, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Elkton, Kentucky's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Elkton, Kentucky's internal control over financial reporting and compliance.

# Thurman Campbell Group, PLC

Hopkinsville, Kentucky January 25, 2021

As management of the *City of Elkton, Kentucky*, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit.

## FINANCIAL HIGHLIGHTS

- As of June 30, 2020, the City's assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources for a total net position of \$8,046,595.
- Fund balance, a measure of current financial resources, increased in the governmental funds by \$285,654 to a June 30, 2020 balance of \$2,398,377. Of this amount, \$2,021,647 is unassigned.
- The City's business-type activities (water, sewer and waste management) net position as of June 30, 2020 totaled \$4,708,722, an increase of \$42,016 from the prior year.
- The City's general fund balance as of June 30, 2020 was \$2,074,569, an increase of \$292,251 over the prior year. Of the total fund balance, \$2,021,647 is unassigned. The unassigned general fund balance represents 126.4% of total general fund revenues.
- Total capital assets of the City, net of depreciation, (land, buildings and improvements, park and land improvements, equipment, vehicles, plants and lines, construction in progress) totaled \$8,764,766.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information and reporting in addition to the basic financial statements themselves.

#### Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the city is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) as opposed to other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The *governmental activities* of the City include general government, public safety, public works, community

development and culture and recreation. The business-type activities of the city include water, sewer and solid waste.

#### Fund financial statements:

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

*Governmental funds - Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains several individual funds in addition to the general fund to make up the governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the other governmental funds.

The City adopts an annual appropriated budget for its general and special revenue funds. Budgetary comparison statements or schedules have been provided herein to demonstrate compliance with those budgets.

**Proprietary funds** - The City maintains three proprietary fund. Proprietary funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses proprietary funds to account for water, sewer and solid waste management.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information on the individual enterprise funds.

*Notes to the financial statements* - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

## **Statement of Net Position**

Net position may serve over time as a useful indicator of a government's financial position. In the case of the City, governmental activities had a net position of \$3,337,872, while business-type activities had a net position of \$4,708,722, for total city wide net position of \$8,046,595 as of June 30, 2020.

T otal liabilities	1,819,563	1,576,566	3,871,832	2,592,227	5,691,395	4,168,793	
DEFERRED INFLOWS OF RESOURCES							
Deferred inflows related to pensions/OPEB	157,737	178,528	107,034	99,179	264,771	277,707	
Total deferred inflows of resources	157,737	178,528	107,034	99,179	264,771	277,707	
NET POSITION							
Invested in capital assets (net of related debt)	2,259,465	2,358,471	4,207,390	3,913,196	6,466,855	6,271,667	
Restricted assets	258,109	249,926	1,048,338	1,015,926	1,306,447	1,265,852	
Unrestricted assets	820,299	731,243	(547,006)	(269,891)	273,293	461,352	
Total net assets	\$ 3,337,872	\$ 3,339,640	\$ 4,708,722	\$ 4,659,231	\$ 8,046,595	\$ 7,998,871	

In the City as a whole, the largest portion of net position, \$6,466,855 or 80.4%, reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens and these assets are not available for future spending.

The net position of governmental activity funds was \$3,337,872 with \$2,259,465 or 67.7% being invested in capital assets and \$820,299 or 24.6% unrestricted. The unrestricted net position of governmental funds includes fund balances of the General Fund and various special revenue funds and may be used to meet the City's ongoing obligations to citizens and creditors.

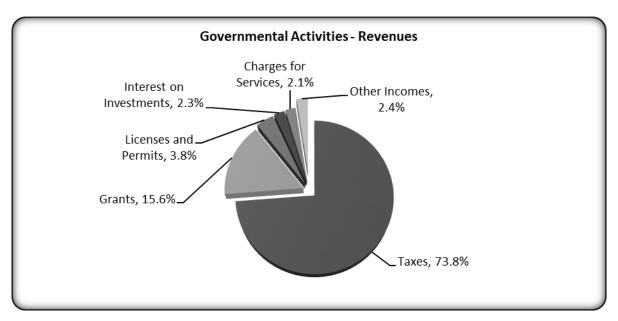

The net position of the City's business-type activities was \$4,708,722. Of the net position, \$4,207,390 or 89.4% were invested in capital assets.

#### **Governmental Activities**

Revenues for the City's governmental activities totaled \$1,807,522. Taxes, which primarily include property taxes and payroll taxes, totaled \$1,333,409 which is 73.8% of total revenue. Capital and Operating Grants and Contributions totaled \$282,477 and accounted for about 15.6% of total revenues. Licenses and permits, which primarily include occupational (business) license fees, accounted for \$68,290 or 3.8% of the total. Interest on Investments accounted for about 2.3% of revenues, totaling \$40,860. Charges for services totaled \$38,793, or 2.1% of revenues. All other incomes totaled \$43,693, or about 2.4% of revenues.

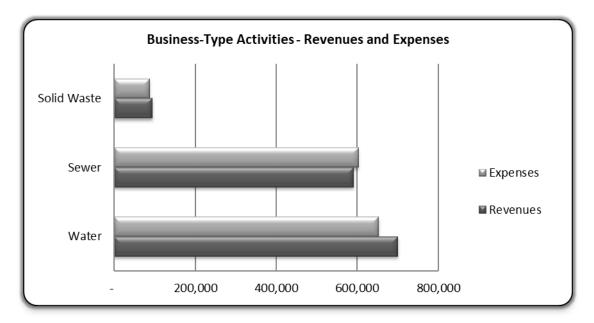

Total expenses of the City's governmental activities were \$1,799,448. The largest expenditure at 45.9% of total expenses, or \$825,844, was for Public Safety, which includes police and fire protection. The second largest category of expense is General Government, which totaled \$442,276 or 24.6% of expenses. Public Works was third and totaled \$415,616, or 23.1%. Culture and Recreation expenses totaled \$113,687, or 6.3% of the total. Finally, all other expenses totaled \$2,025, or 0.1% of total expenditures.

#### **Business-type** Activities

Revenues for business-type activities totaled \$1,384,725 for the fiscal year ended June 30, 2020. Of this total, revenue from Charges for Services totaled \$1,234,118. Expenses for business-type activities totaled \$1,342,708. Water department expenses accounted for \$652,384 of total expenditures, or 48.6%. Sewer department expenses accounted for 44.9% of total expenses, or \$603,173. Finally, the solid waste department accounted for 6.5% of total business-type activities expenditures with \$87,151 in expenses.

## FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds** - The general government functions are contained in the General, Special Revenue and Permanent Funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The City's governmental funds for the year ended June 30, 2020 reflect a combined ending fund balance of \$2,398,377, an increase of \$285,654 from the prior year. Of the total fund balance, \$2,021,647 is unassigned and is available for spending at the City's discretion. The remainder \$376,730 is restricted or committed for prepaid expenses, mortgage receivables, and cemetery maintenance.

#### General Fund Highlights

The General Fund is the chief operating fund of the City. At the end of the fiscal year, the total fund balance in the General Fund was \$2,074,569 which is an increase of \$292,251 from the prior year. Of the total General Fund balance, 96.7% (\$2,021,647) is *unassigned fund balance*. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total general fund revenues. Unassigned fund balance represented 126.4% of total general fund revenues.

Gen	eral Fund - R	levenues	by Source				
	FY 2020		FY 2019		Increase/(	(Decrease)	
		Percent		Percent		Percent	
	Amount	of Total	Amount	of Total	Amount	of Change	
Revenues by Source							
Taxes	\$1,296,582	81.1%	\$1,142,933	75.8%	\$ 153,649	13.44%	
Licenses and Permits	68,290	4.3%	93,569	6.2%	(25,279)	-27.02%	
Intergovernmental Revenues	92,043	5.8%	164,545	10.9%	(72,502)	-44.06%	
Charges for Services	43,826	2.7%	44,742	3.0%	(916)	-2.05%	
Interest Income	35,105	2.2%	45,161	3.0%	(10,056)	-22.27%	
Other Income	41,658	2.6%	10,332	0.7%	31,326	303.19%	
Total Revenues	\$1,577,504	98.7%	\$1,501,282	99.6%	\$ 76,222	5.08%	
Total Other Financing (uses)	21,575	1.3%	5,778	0.4%	15,797	273.40%	
Total Revenues and Other Financing (uses)	\$1,599,079	100.0%	\$1,507,060	100.0%	\$ 92,019	6.11%	

The following provides an explanation of revenues by source with change from the prior year:

- The General Fund saw about a 6% increase in total revenues and other financing sources over last year. The increase is mainly due to a \$153,649 increase in taxes received over the previous year. There was a large increase in payroll tax revenue because the city collected approximately \$111,338 in payroll taxes that were due in FY2018 and FY2019 but collected in this fiscal year.
- The largest total decrease in revenue came from Intergovernmental Revenues, which decreased by 44%, or \$72,502, over last year. This decrease is because the city received less grant revenue than the previous year.

The following provides an explanation of expenditures by function with change from the prior year:

	General Fund	l - Expenditur	es by Functior	1			
	FY 20	)20	FY 20	)19	Increase/(I	Decrease)	
		Percent		Percent		Percent	
	Amount	ofTotal	Amount	ofTotal	Amount	of Change	
Expenditures by Function							
General Government	\$ 358,983	27.5%	\$ 355,666	25.7%	\$ 3,317	0.93%	
Public Works	162,225	12.4%	238,275	17.2%	(76,050)	-31.92%	
Public Safety	563,963	43.2%	592,904	42.8%	(28,941)	-4.88%	
Culture and Recreation	118,717	9.1%	123,059	8.9%	(4,342)	-3.53%	
Capital Outlay	102,940	7.9%	56,591	4.1%	46,349	81.90%	
Debt Service	-	0.0%	19,269	1.4%	(19,269)	0.00%	
Total Expenditures	\$ 1,306,828	100.0%	\$ 1,385,764	100.0%	\$ (78,936)	-5.70%	

• Overall, General Fund expenditures decreased by about 6%, a total decrease of \$78,936 over last year.

- The largest total decrease in expenditures was in the area of Public Works with a decrease in expenditures of \$76,050, or 32% less than last year. In the previous fiscal year, the city completed one large project to resurface South Streets Avenue and Airport Road.
- The largest total increase in expenditures was in Capital Outlay, with a \$46,349 increase in expenditures, or about 82% over last year. The increase was due to the purchase of three used police vehicles and equipment, which replaced four surplused police vehicles.

**Proprietary funds**- The City's proprietary funds provide the same type of information found in the government wide financial statements, but in more detail. As noted earlier, the City maintains three proprietary funds. *Proprietary funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses proprietary funds to account for water, sewer and solid waste management.

The following table shows actual revenues, expenses and change in net position from operations for the fiscal year as well as comparison from prior year:

			Proprietary	Funds					
Statement of Revenues, Expenses and Changes in Fund Net Position

- The *water* fund accounts for the operation and maintenance of the water distribution system for City customers and a few County customers. The funds operating revenue increased by \$39,570 over last year. The water fund also saw an increase in operating expenditures by \$18,989. Operating revenues were expected to increase, due to a 6% water rate increase that went into effect in July 2018. Operating expenses increased mainly due to annual increases in employee expenses and overall general increases in the cost of doing business. Therefore, net position of the water fund as of June 30, 2020 increased by \$47,422 to a total of \$794,529.
- The *sewer* fund accounts for the operation and maintenance of the sanitary sewer system and wastewater treatment facilities in the City. The funds operating revenue saw an increase of \$43,918 over the previous year, while operating expenses increased by \$2,556. Operating revenue was expected to increase due to a 10% sewer rate increase that went into effect in July 2018. As of June 30, 2020, the sewer fund saw a net decrease of \$12,508 for a net position of \$3,866,969.
- The *solid waste* fund accounts for contractual payments to Waste Management, Inc. for residential solid waste collection and disposal and the annual spring cleanup expenses. The fund had a net increase of \$7,102.

Currently, the City bids residential solid waste collection and passes the expense along directly to customers. The net position as of June 30, 2020 for the solid waste fund is \$47,224.

## **GENERAL FUND BUDGETARY HIGHLIGHTS**

Over the course of the year, the City Council revises the General Fund's budget in order to make adjustments in revenues and expenditures that were not anticipated when the budget was first adopted. In all, the original revenue and other financing sources budget increased in the final budget by about 2.2%, or \$34,440. While the total expenditure budget decreased by \$94,250 or approximately 6.1%. These changes can be briefly summarized as follows:

• Although there were several minor changes throughout the budget, the main modifications to the general fund budget revenues were due to the receipt of more Occupational Tax income than expected due to collections on delinquent accounts for previous fiscal years. As for expenses, there was about \$80,000 less in expenses in Culture and Recreation due to the completion of a park grant project sooner than expected in the previous fiscal year rather than in FY2020.

For the year, general fund actual revenues and other financing sources came in about \$19,144 or about 1.2% more than expected. Actual expenditures were \$135,672 less than expected, or about 9.4% below budgetary estimates. The main reason for the less than expected expenditures is reduction in employee expenses due to layoff of several city employees due to COVID-19 virus pandemic.

It should be noted that due to the COVID-19 pandemic in 2020, the Internal Revenue Service postponed the original filing deadline and tax payment due date for 2019 from April 15, 2020 to July 15, 2020. Therefore, the city delayed its deadline to file Occupation License on gross receipts in conjunction with the IRS deadline. As a result, the city received about \$30,000 less than expected revenues in Licenses and Permits for FYE June 30, 2020. This is expected to show as additional revenue in next fiscal year due to the postponed filing deadline. The city also estimated a less than normal increase in Occupational Tax on gross payroll due to the ordered closure of local restaurants and businesses issued by Emergency Orders of the Governor of Kentucky due to the pandemic.

## CAPITAL ASSETS

The City's capital assets (net of accumulated depreciation) for governmental activities as of June 30, 2020 totaled \$2,259,465. For business-type activities, total capital assets amount to \$6,505,301. The City's total net capital assets as of June 30, 2020 totaled \$8,764,766.

City of Elkton Capital Assets									
As of June 30, 2020									
	Governmental Activities	Business-Type Activities	Totals

Construction in Progress	-	1,375,766	1,375,766						
Total	\$ 2,259,465	\$ 6,505,301	\$ 8,764,766						

## **DEBT ADMINISTRATION**

At the end of the fiscal year, the City had a total outstanding debt of \$2,297,910. The General Fund and other Governmental Activities had no outstanding debt as of June 30, 2020. The total outstanding debt for Business Type Activities totaled \$2,297,910 as of June 30, 2020.

- The largest portion of long-term debt in the amount of \$1,049,613 is payable from the Sewer Fund for a 1% interest loan the City received from the Kentucky Infrastructure Authority (KIA) in 2018 for the Wastewater System Rehabilitation & Improvements Project, which was initially awarded as a \$500,000 loan for planning purposes. In 2019, the city was awarded additional construction loan funds as a result of the planning project. The city is currently in the process of completing Phase I of a total of III phases of the construction project, which will make upgrades and repairs to the sewer plant and distribution lines studied during the Planning Loan Project. The total construction project is estimated to cost \$3,434,451, bringing the total project cost to \$3,934,451. However, the city will also receive \$1,000,000 in debt forgiveness on these two KIA projects; therefore, total debt once the planning and construction projects are complete will be around \$2,934,451.
- The sewer system also has a 0% interest loan the City received from the Kentucky Infrastructure Authority (KIA) in 2006 to pay off the 1990 Series Sewer Revenue Bonds with outstanding debt as of June 30, 2020 of \$444,399.
- The sewer system also has an outstanding debt in the amount of \$298,500 from the 2007 Sewer System Revenue Bonds that were issued for construction of the Wastewater Treatment Plant Upgrade and Sewer System Improvements Project.
- The sewer system also received a 1% interest loan in March 2011 through KIA for several sewer main extensions in the city with an outstanding debt of \$78,581.
- The Water Fund also has a low interest loan through KIA with a remaining balance of \$44,007 for the purchase of new radio read water meters that was completed in July 2010.
- In June 2014, the city received a low interest loan through KIA to separate the water distribution system from intersecting lines with the Todd County Water District and to replace an old water line on Goebel Avenue with a total balance of \$254,719.
- In 2018, the Water Fund received another 1% interest loan from KIA for the Water Rehabilitation & Upgrade Project. The outstanding debt for this project as of June 30, 2020 was \$83,685.
- The water and sewer systems entered into a note payable through Elkton Bank and Trust Company in 2018 for the purchase of a new 2019 Ford truck with an outstanding balance of \$13,329 as of June 30, 2020.
- Finally, the Sewer Fund entered into a note payable through Elkton Bank and Trust Company in November 2019 for the purchase of new Sewer Jetter equipment with an outstanding balance of \$31,077 as of June 30, 2020.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

When creating the budget, the primary objective was to maintain or improve upon current levels of city services and maintain adequate employee benefits while at the same time attempting to keep charges for services and tax rates low.

An ongoing issue the city has been dealing with for many years is water loss, or the difference of the water being purchased by the city and not being billed to customer possibly due to water leaks in the system or billing errors. For the year ended June 30, 2020, the water loss averaged about 32%, an increase of about 12% over last year. The average water loss for similar systems is approximately 15-20%, so finding and maintaining low water loss levels can save the water fund several thousand dollars. If the city could reduce water loss by half (down to about 15%), it would save the water fund about \$40,000 annually. The city has budgeted to replace all water meters in the city in next year. Recent water meter testing showed that many of the city's water meters were beginning to fail and not registering water usage accurately. Installing new meters will not only help decrease water loss, but both the water and sewer departments should see an increase in revenue due to more efficient billing. Also, maintenance issues on water tanks and aging water lines will be a large expense that needs to be addressed in the near future.

Ongoing maintenance of the sewer system continues to increase at a fast rate due to an aging system and new regulations and requirements. In 2018, the City was awarded a KIA Planning Loan to study inflow and infiltration into the sewer system and to prepare system planning reports required by the state. After the planning study was completed, the city was awarded a 1% interest KIA loan for Wastewater System Rehabilitation & Improvements Project. Once the planning and construction projects are complete, the total debt will be about \$2,934,451. As part of the loan agreement, KIA has required that sewer rates be increased to meet new debt service requirements, with the first principal payment expected to be in June 2022.

Increases in contribution rates to the Kentucky Retirement System will continue to be an issue for many years. To help with the increasing costs, the Kentucky Legislature did pass a bill that caps employer contribution rate increases at up to 12% per year over the prior fiscal year for the period starting July 1, 2018 through June 30, 2028.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the City's finances for all of its citizens, taxpayers, customers, investors and creditors. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the City of Elkton, PO Box 578, 71 Public Square, Elkton, KY 42220.

Net change in fund balance - total governmental funds	\$ 285,654
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital assets purchased	102,940
Depreciation expense	(200,924)
Gain or (loss) on sale of fixed assets	(1,020)
Revenues in the statement of activities that do not provide current financial	
resources are not reported as revenues in the governmental funds.	13,014
Net pension expense is an actuarial calculation and does not require the use of	
current financial resources and is excluded as an expenditure in the governmental funds.	
Contributions for OPEB recorded as deferred outflows	20,226
Contributions for pensions recorded as deferred outflows	89,716
OPEB expense recorded in the governmental fund	(52,620)
Pension expense recorded in the governmental fund	 (248,912)
Change in net position of governmental activities	\$ 8,073

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Elkton have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The government's most significant accounting policies are described below.

## A. <u>Reporting Entity</u>

**Form of government** - The City of Elkton, Kentucky is incorporated under provisions of the Commonwealth of Kentucky. The City operates under a council - mayor form of government and provides the following services as authorized by its charter: public safety (police and fire), public works (streets and highways and cemetery), health and welfare, culture and recreation, public improvements, water, sewer and sanitation, planning and zoning and general administrative services. All are responsible to the Citizens of Elkton, Kentucky and are therefore included within the reporting entity.

**Principles determining scope of reporting entity** - The criteria used in determining what accounting entities, agencies, commissions, boards and authorities are part of the City of Elkton's operations include how the budget is adopted, whether debt is secured by general obligation of the city, the City's duty to cover any deficits that may occur, and supervision over the accounting functions. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the government's reporting entity:

Excluded from the reporting entity:

Elkton City Tree Board Elkton Airport Board Elkton Planning and Zoning Commission Elkton Board of Adjustments

These units have no assets, liabilities and fund equity at June 30, 2020, and had no material financial activities for the year then ended.

The accounts of the Todd County Emergency Services Center are excluded from the accompanying financial statements because the Center is an autonomous agency, operated as a joint venture supported by the city and county. The City contributed \$7,936 for the year ended June 30, 2020. There was not an amount due at the end of the fiscal year.

The accounts of the Elkton - Todd County Industrial Foundation, Inc. have been excluded from these financial statements because the City is not financially accountable over this agency and the agency is fiscally independent of the City of Elkton. The City contributed \$33,993 for the year ended June 30, 2020. There was not an amount due at the end of the fiscal year.

The accounts of the Elkton - Todd County Park and Recreation Commission are excluded from the accompanying financial statements because the Commission is a jointly operated venture of the City and County. Both the City and County contribute to the Commission, however neither has a fiscal liability for the Commissions' operations. The City contributed \$86,552 for the year ended June 30, 2020. There was not an amount due at the end of the fiscal year.

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### B. Basis of Presentation

**Government-wide Financial Statements** – The statements of net position and activities display information about the City as a whole. These statements include the financial activities of the overall government. The effect of interfund activity has been eliminated from the government-wide financial statements. These statements distinguish between the City's governmental and business type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements** – The fund financial statements provide information about the City's funds. Separate statements for each fund category, governmental and proprietary, are presented. The emphasis of fund financial statements is on major governmental and proprietary funds, each displayed in a separate column. All remaining governmental and proprietary funds are aggregated and reported as nonmajor funds. The City of Elkton reports the General, Water and Sewer funds as major funds.

#### **Fund Accounting**

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

#### **Governmental Funds**

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the City's major governmental fund:

General Fund – The general fund accounts for all financial resources except those that are required to be accounted for in another fund. The general fund balance is available to the City for any purpose, provided it is expended or transferred in accordance with the charter of the City.

#### **Proprietary Funds**

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided to outside parties (enterprise funds). The following are the City's major proprietary funds:

Water – This fund is used to account for the provision of water and related services.

Sewer – This fund is used to account for the collection of wastewater and related treatment services.

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### **Measurement Focus**

#### Government-wide and Proprietary Financial Statements

The government-wide and proprietary financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the Statement of Net Position.

#### Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balance reports on the sources (i.e., revenues and other financial sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

This approach differs from the manner in which government-wide statements are presented; therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (i.e. revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the City finances and meets the cash flow needs of the proprietary funds.

#### C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide and proprietary funds financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting.

#### Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, franchise taxes, occupational licenses, grants, entitlements, and donations. The City considers property taxes as available if they are collected within sixty days after year-end. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue, and charges for services. Fines, permits and other revenues are not susceptible to accrual because generally they are not measurable until received by the City.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the utility fund are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for utility funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Operating revenues of the proprietary funds are recorded on a cyclical billing basis. The utility records unbilled receivables for services provided but not billed at the end of a fiscal period. The receivable is estimated based on the number of days of service unbilled through the end of the period.

#### Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

#### Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than on expenses. Expenditures are generally recognized in the accounting period in which the related liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### D. Deposits and Investments

For purposes of financial statement presentation, all highly liquid investments (including restricted cash and investment assets) with original maturities of less than 90 days when purchased by the City are considered to be cash equivalents. Currently the City only holds certificates of deposit as investments which are recorded at cost. The City does not have an official deposit and investment policy, but adheres to the provisions of KRS 66.480.

Kentucky Revised Statutes (KRS 66.480) authorize Kentucky municipalities to invest in:

- (a) Obligations of the U. S. Treasury, agencies and instrumentalities. Such investments may be accomplished through repurchase agreements reached with national or state banks chartered in Kentucky.
- (b) Obligations and contracts for future delivery or purchase of obligations backed by the full faith and credit of the United States or a United States government agency, including but not limited to: 1) United States Treasury; 2) Export-Import Bank of the United States; 3) Farmers Home Administration; 4) Government National Mortgage Corporation; and 5) Merchant Marine Bonds.
- (c) Obligations of any corporation of the United States government.

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (d) Certificates of deposit issued by or other interest-bearing accounts of any bank or savings and loan institution which are insured by the Federal Deposit Insurance Corporation or similar entity or which are collateralized, to the extent uninsured, by any obligations, including surety bonds, permitted by KRS 41.240(4).
- (e) Uncollateralized certificates of deposit issued by any bank or savings and loan institution rated in one of the three highest categories by a nationally recognized rating agency.
- (f) Banker's acceptances for banks rated in one of the three highest categories by a nationally recognized rating agency.
- (g) Commercial paper rated in the highest category by a nationally recognized rating agency.
- (h) Bonds or certificates of indebtedness of the state of Kentucky and of its agencies and instrumentalities.
- (i) Securities issued by a state of local government, or any instrumentality of agency thereof, in the United States, and rated in one of the three highest categories by a nationally recognized rating agency.
- (j) Shares of mutual funds, each of which shall have the following characteristics:
  - 1. The mutual fund shall be an open-ended diversified investment company registered under the Federal Investment Company Act of 1940, as amended.
  - 2. The management company of the investment company shall have been in operation for at least five years.
  - 3. All of the securities in the mutual fund shall be eligible investments pursuant to this section.

As security for deposits of the City, banks doing business with the City are required to pledge securities in an amount to exceed uninsured funds on deposit by the City.

#### E. <u>Prepaid items</u>

Payments made to vendors for services that will benefit periods beyond June 30, 2020 are recorded as prepaid items.

#### F. Inventories

Inventories are recorded as expenditures at the time of purchase. Such inventories are not material in total to the government-wide and fund financial statements, and therefore are not reported.

#### G. Capital Assets

General capital assets are long-lived assets of the City as a whole. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value by the City.

The City maintains a capitalization policy of \$250. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. The City capitalizes interest cost incurred as part of the cost of constructing capital assets, when material. All reported assets are depreciated except for land. Improvements are depreciated over the remaining estimated useful lives of the related capital assets.

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

The City was not required to capitalize infrastructure assets used in general government operations including roads, bridges, sidewalks, drainage systems, and lighting systems, acquired prior to July 1, 2003. Infrastructure assets acquired since July 1, 2003 will be recorded at cost, and classified as "Infrastructure". As allowed by accounting principles generally accepted in the United States, the City has elected not to record infrastructure values retroactively. For the year ended June 30, 2020 there were no infrastructure asset additions.

Depreciation of all exhaustible capital assets is charged as an allocated expense against operations in the government-wide financial statements and in the proprietary fund financial statements. Accumulated depreciation is reported on the government-wide Statement of Net Position and each proprietary fund's Statement of Net Position. Depreciation is computed using the straight-line method over the following estimated useful lives:

Assets	Estimated Lives
Buildings & Utility Plant	30 years
Equipment	7-10 years
Vehicles	5 years

Governmental activities capital assets and related depreciation expenses are only reported in the Governmental Activities columns on the government-wide financial statements. Because their measurement focus is on "current financial resources," capital assets and related depreciation expenses are not recorded in the governmental fund-type fund financial statements. Instead, in the governmental fund-type fund financial statements, capital asset acquisitions are reported as capital outlay expenditures.

Capital assets reported in both governmental and proprietary funds are carried at cost and depreciation is calculated using the straight line method.

#### H. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due to/Due from other funds". These amounts are eliminated in the governmental activities column of the statement of net position.

#### I. <u>Compensated Absences</u>

The City accrues vacation leave benefits as earned by its employees if the leave is attributable to past service and it is probable that the City will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement. The City accrued these benefits for those employees who currently are eligible to receive termination payments, as well as other employees who are expected to become eligible in the future. These benefits are measured using the pay rates in effect at June 30, 2020. The entire compensated absence liability is reported on the government-wide financial statements and proprietary fund financial statements as an accrued liability. The City considers the amount to be a current liability.

## **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### J. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the fund. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term loans are recognized as a liability on the fund financial statements when due.

#### K. <u>Net Position</u>

Equity is classified as net position and displayed in three components:

- *Net investment in capital assets* Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- *Restricted net position* Consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- Unrestricted net position All other net position that does not meet the definition of "restricted" or "net investment in capital assets".

## L. Fund Balances:

Governmental funds classify fund balances in the following five components:

- *Nonspendable* amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- *Restricted* amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- *Committed* amounts that can be used only for specific purposes determined by a formal action of City Council. City Council is the highest level of decision-making authority for the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by City Council.
- Assigned amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the City's adopted policy, only City Council may assign amounts for specific purposes.
- Unassigned all other spendable amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless City Council has provided otherwise in its commitment or assignment actions.

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

	Nons	spendable	R	estricted	Co	ommitted	U	nassigned	Total
General	\$	5,290	\$	47,632	\$	-	\$	2,021,647	\$ 2,074,569
Other Funds		-		210,477		113,331		-	 323,808
Total	\$	5,290	\$	258,109	\$	113,331	\$	2,021,647	\$ 2,398,377

As of June 30, 2020, fund balance components balances are as follows:

## N. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

## O. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### P. Stewardship, Compliance and Accountability

As provided by Ordinance, the City submits an annual budget to govern City revenues and expenditures. KRS 91A.030 calls for submission of the annual budget 30 days prior to the beginning of the fiscal year.

The budget is adopted by ordinance and may be amended by ordinance. The executive authority has the power to transfer surplus funds to supplement departments as needed.

The annual budget is prepared, to the extent practical, on a basis consistent with generally accepted accounting principles and, with exception to minor adjustments, is presented in comparison with actual figures.

#### Q. Accounts Receivable

The city grants credit to its customers, all of whom are residents or businesses located in Elkton and Todd County. An allowance for doubtful accounts has been established.

#### R. Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

## **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### S. Deferred Outflows and Inflows of Resources

In addition to liabilities, assets and net position, the statement of net position/balance sheet will sometimes report a separate section for deferred outflows and inflows of resources. This separate financial statement element, deferred outflows and inflows of resources, represents an acquisition of net position or fund balance that applies to a future period and so will not be recognized as an expenditure or revenue, respectively until that time. The Statement of Net Position reports deferred outflows and inflows related to pension and OPEB requirements and the Balance Sheet-Governmental Fund reports a deferred inflow related to unavailable property tax revenue.

#### T. <u>New Pronouncements</u>

Effective for the fiscal year ended June 30, 2020, the City adopted the following Governmental Accounting Standards Board (GASB) Statements:

GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance, was issued in May 2020. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. The objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018 and later.

GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period, was issued in June 2018. The objectives of this Statement are to: (1) enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simply accounting for interest costs incurred before the end of a construction period.

#### U. <u>Future Pronouncements</u>

The Governmental Accounting Standards Board (GASB) has issued statements the will become effective in subsequent fiscal years. Below is a listing of future GASB statements:

• GASB Statement No. 87, Leases: The provisions of this Statement are effective for fiscal years beginning after June 15, 2021. This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

The City is evaluating the impact that will result from adopting the above GASB statements and is currently unable to disclose the impact of the adoption of these standards upon the financial position and results of operations.

### NOTE 2 – CASH AND INVESTMENTS

The City adopted Governmental Accounting Standards Board (GASB) Statement No. 40 effective July 1, 2005. GASB 40 is designed to inform financial statement users about deposit and investment risks that could affect a government's ability to provide services and meet its obligations as they become due.

There are risks inherent in all deposits and investments, and GASB believes that the disclosures required by this Statement provide users of governmental financial statements with information to assess common risks inherent in deposit and investment transactions. Deposit and investment resources often represent significant assets of the governmental fund. These resources are necessary for the delivery of governmental services and programs. GASB 40, as it applies to the City, includes disclosure of the following:

• Risks related to custodial credit risk of bank deposits;

*Custodial Credit Risk – Deposits.* Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. As of June 30, 2020, the carrying amount of City's deposits (including certificates of deposit) was \$4,088,306 and the bank balance of \$4,121,373 was collateralized as follows:

Insured by the FDIC	\$ 250,000
Uninsured and collateralized with securities	
held by the pledging financial institution's	
agent but not in the name of the City.	3,582,857
Uninsured and uncollateralized	 288,516
Total	\$ 4,121,373

Restricted Cash – Cemetery Perpetual Care Fund cash and investments (certificates of deposit) are classified as restricted. Other assets are classified as restricted when their use is restricted by third-party covenants.

#### **NOTE 3 – RECEIVABLES**

#### A. Property Taxes

On July 1 of each year, the City levies a tax on the tangible property owned by its residents based on the assessment values of the property on January 1. The taxes are due and payable on December 31, with a two percent discount available until November 30. If payment is not received prior to December 31, a ten percent penalty is imposed and liens are filed on the property on May 1 of the subsequent year. The City's tax rates for the year ended June 30, 2020 are as follows:

Real property - \$0.2490 Personal property - \$0.1497 Motor Vehicles and Watercraft - \$0.3030

Property tax receivables are shown net of an allowance for uncollectible amounts. The City determines this allowance based on historical collection data and review of individual accounts at year end. Property tax receivable as of June 30, 2020 is \$24,519 with an allowance of \$5,449 for a net receivable of \$24,217.

### NOTE 3 – RECEIVABLES (continued)

#### B. Mortgages Receivable

During prior years, the City participated in the Department of Housing and Urban Development community development block grant program. The objective of the program is the development of viable urban communities by providing decent housing and a suitable living environment and expanded economic opportunities, principally for persons of low to moderate income. In order to meet the objectives of the grant, provisions are made for various types of financial assistance for housing rehabilitation programs. The City provided financial assistance to eligible applicants in the form of deferred payment loans.

The City utilized three types of deferred payment loans, (a) low interest mortgage loans, (b) equity secured mortgages and (c) forgivable deferred mortgages.

**Mortgage loans** - Mortgage loans totaling \$16,159 have been granted through June 30, 2020. The loans are for varying terms based on the low to moderate income person's ability to repay the loan. The loans carry an interest rate of zero percent. The outstanding balance at June 30, 2020 was \$12,060 for loans made with funds from a grant for the Main Street project and \$4,100 for loans made with funds from a grant project for the Marion Street area.

#### C. <u>Utility Receivable</u>

The City maintains a utility fund for the billing and collecting of water, sewer and solid waste revenues. The City bills on a monthly basis for residential and industrial customers. For the year ended June 30, 2020, the balance of the receivable account is \$159,710 which consists of billings for June service billed in July. The City maintains a high level of collectability and therefore does not maintain an allowance against this amount.

#### **NOTE 4 – INTERFUND ACTIVITIES**

Individual fund activities at June 30, 2020 were as follows:

	Interfund Receivable		Interfund Payable		Interfund Transfers in		Interfund Transfers out	
General fund	\$	31,342	\$ (6,111)	\$	(28,852)	\$	14,400	
KLEFPF		-	(2,704)		-		-	
ABC		4,840	(23,846)				23,846	
RLF		1,098	-		-		992	
Perpetual Care		-	(4,014)		-		4,014	
Water fund		173	(53,886)		(7,200)		-	
Sewer		45,246	(389)		(7,200)		-	
Solid Waste		8,251	-		-		-	
Total	\$	90,950	\$ (90,950)	\$	(43,252)	\$	43,252	

Transfers are used to (a) move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### **NOTE 5 – CONTINGENCIES**

The City receives Federal and State Grants for specific purposes that are subject to review and audit by Federal and State agencies. Such audits could result in a request for reimbursement for expenditures disallowed under the terms and conditions of the appropriate agency. It is the opinion of City management that such disallowances, if any, will not be material.

#### NOTE 6 – RISK MANAGEMENT

It is the policy of the City to purchase commercial insurance for the risks of losses to which it is exposed. Those risks include general liability, property and casualty, worker's compensation and employee health and accident. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

#### **NOTE 7 - CLAIMS AND JUDGEMENTS**

The City is party to a pending suit as of June 30, 2020. While the outcome of this suit cannot be predicted, due to the insurance coverage maintained by the City, the City management and the City's legal representative feel that any settlement or judgment not covered by insurance would not have a material adverse effect on the financial condition of the City.

#### **NOTE 8 – OTHER MATTERS**

The City has, over several years, appropriated funds to civic and charitable organizations which, while being made for civic purposes and public welfare, may not be in accordance with Section 179 of the Kentucky Constitution. It is in the opinion of the City management that these funds would not have a material adverse effect on the financial condition of the City.

#### **NOTE 9 – LEASES**

During March 2002, the City leased the unused Todd County Courthouse building from Todd County. The lease period is for 25 years at an annual lease amount of \$1. The lease is renewable for an additional 25 years at the end of the initial term.

#### NOTE 10 – COMPENSATED ABSENCES AND SICK PAY

In accordance with the City of Elkton's policy on vacation pay, the City has accrued a current liability for pay, which has been earned but not taken by employees as of June 30, 2020. The City is currently liable for compensated absences of the following:

June	e 30, 2020
\$	7,634
	6,469
	1,913
\$	16,016
	\$

The City of Elkton allows employees after 90 days of employment to accumulate unused sick leave to a maximum of 21 days. Upon termination, employees are not compensated for unused sick leave.

# NOTE 11 – CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 was as follows:

Government Activities	Balance 06/30/2019	Additions	Retirements/ Reclass	Balance 06/30/2020
Capital Assets Not Being				
Depreciated:

#### NOTE 12 – PENSION PLAN

#### **General Information About the Pension Plan**

*Plan description*- Employees with membership in the Kentucky Retirement Systems (KRS) of the County Employee Retirement System are provided with pensions through the County Employee Retirement System (CERS), a cost sharing multiple-employer pension plan administered by the KRS. The KRS was created by state statute under Kentucky Revised Statute Chapter 61. The KRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the KRS. The Kentucky Department of Revenue, an agency in the legislative branch of state government, administers the plans of the KRS. The KRS. The KRS issues a publically available financial report that can be obtained at <u>www.kyret.ky.gov</u>.

*Benefits provided*- Kentucky Revised Statue Section 61.645 establishes the benefit terms and can be amended only by the Kentucky General Assembly. There are currently three benefit Tiers. Tier 1 members are those participating in the plan before 9/1/2008, Tier 2 are those that began participation 9/1/2008 through 12/31/2013 and Tier 3 are those members that began participation on or after 1/1/14.

*Non-Hazardous-* Tier 1 members are eligible to retire with an unreduced benefit at age 65 with four years of service credit or after 27 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation, which must contain at least 48 months. Reduced benefits for early retirement are available at age 55 and vested or 25 years of service credit. Members vest with five years of service credit. Service related disability benefits are provided after five years of service. Tier 2 members are eligible to retire based on the rule of 87: the member must be at least age 57 and age + earned service must equal 87 years at retirement or at age 65 with five years of service credit. Benefits are determined by a formula using the member's highest five consecutive year average compensation, which must be 60 months. Reduced benefits for early retirement are available at age 60 with 10 years of service. Tier 3 members are also eligible to retire based on the rule of 87. Benefits are determined by a life annuity calculated in accordance with actuarial assumptions and methods adopted by the board based on a members accumulated account balance. Tier 3 members are not eligible for reduced retirement benefits.

*Hazardous*- Tier 1 members are eligible to retire with an unreduced benefit at age 55 with five years of service credit or after 20 years of service credit regardless of age. Benefits are determined by a formula using the member's highest three consecutive year average compensation, which must have at least 24 months. Reduced benefits for early retirement are available at age 50 with 15 years of service credit. Tier 2 members are eligible to retire at any age with 25 years of service or at age 60 with 5 years of service credit. Benefits are determined by a formula using the member's highest three consecutive year average compensation, which must be 36 months. Reduced benefits for early retirement are available at age 50 with 15 years of service. Tier 3 members are also eligible to retire at any age with 25 year of service or at age 60 with 5 years of service. Tier 3 members are not eligible for reduced retirement benefits.

*Contributions-* Contributions for employees are established in the statutes governing the KRS and may only be changed by the Kentucky General Assembly. Non-Hazardous employees contribute 5% and Hazardous employees contribute 8% of salary if they were plan members prior to September 1, 2008. Non-Hazardous and Hazardous employees that entered the plan after September 1, 2008, are required to contribute 6% and 9%, respectively, of their annual creditable compensation. The additional 1% is deposited to an account created for the payment of health insurance benefits under 26 USC Section 401(h) in the Pension Fund. The City makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2020, total employer contributions for the City were \$165,144 based on a rate of 24.06% for Non-Hazardous and 39.58% for Hazardous members through covered payroll. The contribution rate of 24.06% for Non-Hazardous comprised of contributions of \$137,698 of which 19.30% or \$110,456 was allocated for pension and 4.76% or \$27,242 was allocated for insurance. The contribution rate of 39.58% for Hazardous comprised contributions at 9.52% or \$6,601 was allocated for insurance.

#### NOTE 12 – PENSION PLAN (Continued)

# Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

*Pension liability-* At June 30, 2020, the City reported a liability of \$2,138,761 for its proportionate share of net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions to the pension plan during the year ended June 30, 2019, relative to the contributions of all members for the year ended June 30, 2019. At the June 30, 2019 measurement date, the City's proportion was 0.02102%.

Pension expense- For the year ended June 30, 2020; the City recognized a pension expense of \$411,660.

*Deferred outflows of resources and deferred inflows of resources*- For the year ended June 30, 2020; the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

				Net	Deferred
Γ	Deferred	D	eferred	O	utflows /
Οι	Outflows of		Inflows of		Deferred
R	esources	Resources		Inflows)	
\$	63,589	\$	6,799	\$	56,790
	214,273		-		214,273
	39,036		72,471		(33,435)
	99,792		12,701		87,091
	158,545		-		158,545
\$	575,235	\$	91,971	\$	483,264
	Ou R	Resources   \$ 63,589   214,273   39,036   99,792   158,545	Outflows of Resources Inf   \$ 63,589 \$   \$ 14,273 \$   39,036 \$   99,792 158,545	Outflows of Resources Inflows of Resources   \$ 63,589 \$ 6,799   214,273 -   39,036 72,471   99,792 12,701   158,545 -	Deferred Outflows of Resources Deferred Inflows of Resources Or (E Resources   \$ 63,589 \$ 6,799 \$   \$ 214,273 - -   39,036 72,471 -   99,792 12,701 -   158,545 - -

The amount shown for "Contributions subsequent to the measurement date" will be recognized as a reduction (increase) to net pension liability (asset) in the following measurement period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	
2021	\$ 205,036
2022	90,612
2023	26,753
2024	2,318
2025	 -
	\$ 324,719

In the table shown above, positive amounts will increase pension expense while negative amounts will decrease pension expense.

#### NOTE 12 – PENSION PLAN (Continued)

Actuarial assumptions- The total pension liability as of June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30%
Payroll growth rate	2.00%
Salary increases	3.30% to 10.30% non-hazardous and 3.55% to 19.05% hazardous
Investment rate of return	6.25% per annum

The mortality table used for active members was a Pub-2010 General Mortality table, for the Non-Hazardous System, and the Pub-2010 Public Safety Mortality table for the Hazardous System, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. The mortality table used for healthy retired members was a system-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019. The mortality table used for the disabled members was PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

The long-term expected rate of return was determined by using a building-block method in which bestestimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the table below:

		Long-term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Growth	62.50%	
US Equity	18.75%	4.30%
Non US Equity	18.75%	4.80%
Private Equity	10.00%	6.65%
Speciatly Credit/High Yield	15.00%	2.60%
Liquidity	14.50%	
Core Bonds	13.50%	1.35%
Cash	1.00%	20.00%
Diversifying Strategies	23.00%	
Real Estate	5.00%	4.85%
Opportunistic	10.00%	5.00%
Real Return	15.00%	4.10%
	100.00%	

#### NOTE 12 – PENSION PLAN (Continued)

*Discount rate-* The projection of cash flows used to determine the discount rate of 6.25% for CERS nonhazardous and CERS hazardous assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 25 years (closed) amortization period of the unfunded actuarial accrued liability. The discount rate determination does not use a municipal bond rate. The target asset allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the CAFR.

Sensitivity of the proportionate share of net pension liability (asset) to changes in the discount rate- The following presents the net pension liability of the City, calculated using the discount rate of percent, as well as what the system's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25%) or 1-percentage-point higher (7.25%) than the current rate for non-hazardous:

	1% Decrease		Current rate		1% Increase	
City of Elkton's net pension liability	(5.25%)		(6.25%)		(7.25%)

*Pension plan fiduciary net position-* Detailed information about the pension plan's fiduciary net position is available in a separately issued CERS financial report and can be found at <u>www.kyret.ky.gov</u>. The plans fiduciary net position has been determined on the same basis used by the pension plans. The aforementioned report discloses the plans basis of accounting, policies and valuation methods of the plan's assets.

### NOTE 13 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (OPEB)

#### General Information about the Plan

Plan description. Employees of the City are provided hospital and medical insurance through the Kentucky Retirement Systems' Insurance Fund (Insurance Fund), a cost-sharing multiple-employer defined benefit OPEB plan. The KRS was created by state statute under Kentucky Revised Statue Section 61.645. The KRS Board of Trustees is responsible for the proper operation and administration of the KRS. The KRS issues a publicly available financial report that can obtained by writing to Kentucky Retirement System, Perimeter Park West, 1260 Louisville Road, Frankfort, Kentucky 40601, or by telephone at (502) 564-4646.

Benefits provided. The Insurance Fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. The Insurance Fund pays the same proportion of hospital and medical insurance premiums for the spouse and dependents of retired hazardous members killed in the line of duty. As a result of House Bill 290 (2004 Kentucky General Assembly), medical insurance benefits are calculated differently for members who began participating on, or after, July 1, 2003. Once members reach a minimum vesting period of 10 years, non-hazardous employees whose participation began on, or after, July 1, 2003, earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Hazardous employees whose participation began on, or after, July 1, 2003 earn \$15 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Upon death of a hazardous employee, the employee's spouse receives \$10 per month for insurance benefits for each year of the deceased employee's earned hazardous service. This dollar amount is subject to adjustment annually, which is currently 1.5%, based upon Kentucky Revised Statutes.

#### NOTE 13 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (OPEB) (Continued)

*Contributions*- Contributions for employees are established in the statutes governing the KRS and may only be changed by the Kentucky General Assembly. Non-Hazardous employees contribute 5% and Hazardous employees contribute 8% of salary if they were plan members prior to September 1, 2008. Non-Hazardous and Hazardous employees that entered the plan after September 1, 2008, are required to contribute 6% and 9%, respectively, of their annual creditable compensation. The additional 1% is deposited to an account created for the payment of health insurance benefits under 26 USC Section 401(h) in the Pension Fund. The City makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2020, total employer contributions for the City were \$165,144 based on a rate of 24.06% for Non-Hazardous and 39.58% for Hazardous members through covered payroll. The contribution rate of 24.06% for Non-Hazardous comprised of contributions of \$137,698 of which 19.30% or \$110,456 was allocated for pension and 4.76% or \$27,242 was allocated for insurance. The contribution rate of 39.58% for Hazardous comprised contributions at 9.52% or \$6,601 was allocated for insurance.

The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgment, the welfare of the Commonwealth so demands.

#### **Net OPEB Liability**

At June 30, 2020, the City reported a net OPEB liability of \$526,552. The City's net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The City's proportion of the collective net OPEB liability and OPEB expense was determined using the employers' actual contributions for Fiscal Year 2019. This method is expected to be reflective of the employers' long-term contribution effort. At June 30, 2019, the City's proportion was .02102%.

Actuarial assumptions. The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.30%
Payroll growth rate	2.00% for CERS non-hazardous and hazardous
Salary increases	3.30% to 10.30% non-hazardous, 3.55% to 19.05% hazardous
Investment rate of return	6.25%
Healthcare cost trend rates (Pre-65)	Initially at 7.00% at January 1, 2020, and gradually decreasing to
	ultimate trend rate of 4.05% over a period of 12 years.
Healthcare cost trend rates (Post-65)	Initially at 5.00% at January 1, 2020, and gradually decreasing to
	an ultimate trend rate of 4.05% over a period of 10 years.

The mortality table used for active members is PUB-2010 General Mortality Table, for non-hazardous and PUB-2010 Public Safety Mortality table for hazardous, projected with the ultimate rates from the MP-2014 improvement scale using base year 2010. For health retired members and beneficiaries, the mortality table used is system-specific based on mortality experience from 2013-2018, projected with ultimate rates from MP-2014 mortality improvement scale using base year 2010. For disabled members, the PUB-2010 Disabled Mortality table was used, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using base year 2010.

The long-term expected rate of return was determined by using a building-block method in which bestestimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

#### NOTE 13 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (OPEB) (Continued)

8		Long-term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Growth	62.50%	
US Equity	18.75%	4.30%
Non US Equity	18.75%	4.80%
Private Equity	10.00%	6.65%
Speciatly Credit/High Yield	15.00%	2.60%
Liquidity	14.50%	
Core Bonds	13.50%	1.35%
Cash	1.00%	20.00%
Diversifying Strategies	23.00%	
Real Estate	5.00%	4.85%
Opportunistic	10.00%	5.00%
Real Return	15.00%	4.10%
	100.00%	

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

*Discount rate*. The projection of cash flows used to determine the discount rate of 5.68% for CERS nonhazardous and 5.69% CERS hazardous assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 25 years (closed) amortization period of the unfunded actuarial accrued liability. The discount rate determination used and expected rate of return of 6.25% and a municipal bond rate of 3.13%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2019. However, the cost associated with the implicit employers' subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The target asset allocation and best estimate of arithmetic nominal rates of return for each major asset class are summarized in the CAFR.

#### Changes in the Net OPEB Liability

Sensitivity of the City's proportionate share of the collective net OPEB liability to changes in the discount rate. The following presents the City's proportionate share of the collective net OPEB liability as well as what the City's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease		Cu	rrent rate	1%	Increase				
City of Elkton's net OPEB liability	(4.69)		(5.69)		(	(6.69)				
Hazardous	\$	197,893	\$	141,839	\$	96,338				
	1% Decrease		Current rate		1% Increase					
City of Elkton's net OPEB liability	(4.68)		(4.68)		(4.68)		(4.68) (5.68)		(	6368)
Non-Hazardous	515,358		384,713		277,071					

#### NOTE 13 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (OPEB) (Continued)

Sensitivity of the City's proportionate share of the collective net OPEB liability to changes in the healthcare cost trend rates. The following presents the City's proportionate share of the collective net OPEB liability, as well as what the City's proportionate share of the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current health care cost trend rates:

	Current Healthcare								
City of Elkton's net OPEB liability	1% Decrease		Tre	end Rates	1%	6 Increase			
Hazardous	\$	98,693	\$	141,839	\$	194,473			
Non-Hazardous		286,113		384,713		504,278			
Total	\$	384,806	\$	526,552	\$	698,751			

*OPEB plan fiduciary net position-* Detailed information about the OPEB plan's fiduciary net positon is available in a separately issued CERS financial report and can be found at <u>www.kyret.ky.gov</u>. The plans fiduciary net position has been determined on the same basis used by the OPEB plans. The aforementioned report discloses the plans basis of accounting, policies and valuation methods of the plan's assets.

#### **OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources**

For the year ended June 30, 2020, the City recognized OPEB expense of \$82,758. At June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred		D	<b>e</b> ferred	
	Ou	tflows of	Inflows of		
	Resources		R	esources	
Differences between expected and actual experience	\$	-	\$	142,464	
Change in assumptions		156,703		1,030	
Net difference between projected and actual earnings					
on plan investments		3,503		28,745	
Changes in proportion and differences between					
employer contributions and proportionate share of					
contributions		45,630		561	
Contributions subsequent to the measurement date		33,843		-	
	\$	239,679	\$	172,800	

The amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB are recognized in OPEB expense as follows:

Year Ended June 30	
2021	\$ 16,355
2022	8,810
2023	9,709
2024	2,597
2025	(3,521)
Thereafter	 (914)
	\$ 33,036

# **Default provisions:**

Kentucky Infrastructure Authority loans include a provision that in the event of default, the full amount of the note can be declared due immediately.

#### NOTE 14 – LONG-TERM OBLIGATIONS (continued)

Revenue bonds include a provision that in the event of default rates owners of the current bonds, through any court with jurisdiction, may adjust rates sufficient enough to provide for payment of the operating expenses, principal and interest of the bonds in accordance with the laws of the Commonwealth of Kentucky.

Elkton Bank & Trust loans include a provision that in the event of default, the full amount of the note can be declared due immediately.

#### Kentucky Infrastructure Authority Loan

In December 2006, the city received a thirty year, 1% interest loan from the Kentucky Infrastructure Authority, in the amount of \$808,000 to retire the existing sewer bonds. There is no discount or premium associated with this loan and the effective interest rate is the stated rate. Annual principal payments of \$26,933 will be required through December 2037. The loan requires the city to maintain a "Maintenance and Replacement Reserve" account. The account is to be funded on or before each payment date an amount equal to 10% of each loan payment until the amount on deposit is equal to 5% of the original principal amount of the loan or \$40,400. Amounts in the "Maintenance and Replacement Reserve" account may be used for extraordinary maintenance expenses or for the costs of replacing worn or obsolete portions of the sewer system. As of June 30, 2020, the reserve account was funded in compliance with the loan.

#### <u>City of Elkton Sewer System Revenue Bonds – Series 2007</u>

During 2007, the City adopted a resolution to issue \$360,000 principal "City of Elkton Sewer System Revenue Bonds as follows: Series A \$225,000 and Series B \$135,000 for the purpose of financing the cost of construction of extensions, additions and improvements to the existing sewer system. The bond covenant requires that rates for all utility services must be reasonable; the City must be audited annually and must maintain adequate employee bonding and property insurance. The net revenues of the City must be equal to 120% of average annual debt service requirements for principal and interest on all Outstanding Bonds payable from the revenues of the Utility, plus the anticipated debt service requirements of any Parity Bonds then proposed to be issued.

The City is required to transfer into the Sinking Fund an amount equal to one sixth of the next succeeding sixmonth interest payment and one twelfth of the next succeeding principal maturing on the next succeeding principal payment date. In addition, the City is required to transfer to the Depreciation Fund \$160 per month until \$19,200 has accumulated. As of June 30, 2020 the depreciation fund balance was funded in compliance with the bond.

Series 2007 Bonds maturing before January 1, 2018 shall not be subject to prepayment. Principal maturities falling due on and after January 2, 2018, shall be subject to prepayment by the City on any date falling on and after January 1, 2016, at par plus accrued interest, without any penalty.

Interest, at 4.125%, is to be paid each January 1 and July 1. The bonds are to mature in annual installments in accordance with the schedule presented above as business-type activities.

### NOTE 14 – LONG-TERM OBLIGATIONS (continued)

#### Kentucky Infrastructure Authority Loan

On December 1, 2009 the City adopted a resolution to receive federal funding through Kentucky Infrastructure Authority (KIA). The resolution called for funding in the amount of \$174,800 for the purpose of financing the cost of meter replacement. The balance of \$174,800 had a 54.1% forgiveness rate to create a liability of the City of \$80,233. The loan carries a 1% interest rate with principal and interest payments made on June 1 and December 1 each year. The loan calls for \$900 to be placed in a "Replacement and Maintenance" account on or before the December 1 payment until the balance reaches \$9,000. The "R&M" account as of June 30, 2020 was funded in compliance with the loan.

#### Kentucky Infrastructure Authority Loan

In June 2011, the City entered into an assistance agreement with Kentucky Infrastructure Authority in the amount of \$136,761. The purpose of the agreement was to assist the city with the cost of the sewer line extension project completed in August 2011. The terms of the loan are 1% interest rate with a 20-year payout. There is no discount or premium associated with this loan and the effective interest rate is the stated rate. The loan requires the city to establish a "Maintenance and Reserve" account and deposit an amount equal to 10% of loan payments until the balance in the account is 5% of the original loan amount or \$6,838. The "M&R" account as of June 30, 2020 was funded in compliance with the loan.

#### Kentucky Infrastructure Authority Loan

In October 2013, the City entered into an assistance agreement with Kentucky Infrastructure Authority in the amount of \$346,243. The purpose of the agreement was to assist the city with the cost of the Elkton, Todd County Water District Separation Project, to be completed in 2014. The terms of the loan are 1.75% interest rate with a 20-year payout. The loan requires the city to establish a "Maintenance and Reserve" account and deposit an amount of \$17,600. The "M&R" account as of June 30, 2020 was funded in compliance with the loan.

#### Kentucky Infrastructure Authority Loan

In November 2019, the City entered into an assistance agreement with Kentucky Infrastructure Authority in the amount of up to \$3,934,451, with current draws totaling \$1,049,613. The purpose of the agreement was to assist the City with the cost of the Elkton, Todd County Sewer District in the construction phase of the sewer plant rehabilitation project. The terms of the loan are 0.50% interest rate. For the construction phase of the project, the loan will be interest only payments and the principal will be rolled into the new KIA loan when complete. The loan will carry a \$1,000,000 forgiveness portion when complete.

#### Note Payable - Elkton Bank and Trust

The Elkton, Todd County Water and Sewer Districts purchased a new Ford F150 on November 16, 2018 and issued a note payable in the amount of \$26,672. This note is due in 3 annual installments including 4.50% interest through November 2022 and is secured by the vehicle.

#### NOTE 14 – LONG-TERM OBLIGATIONS (continued)

#### Kentucky Infrastructure Authority Loan

On November 21, 2019, the City adopted a resolution to receive federal funding through Kentucky Infrastructure Authority (KIA). The resolution called for funding in the amount of \$170, 000 for the purpose of financing the cost of meter replacement. The balance of \$170,000 had a 50.00% forgiveness rate to create a liability of the City of \$85,000. The loan carries a .50% interest rate with principal and interest payments made on June 1 and December 1 each year. The loan calls for \$400 to be placed in a "Replacement and Maintenance" account on or before the December 1 payment until the balance reaches \$8,000. The "R&M" account as of June 30, 2020 was funded in compliance with the loan.

#### Note Payable - Elkton Bank and Trust

The Elkton, Todd County Water and Sewer Districts purchased a new sewer jetter on November 27, 2019 and issued a note payable in the amount of \$47,675. This note is due in 3 annual installments of \$16,610 including 4.50% interest through November 2021 and is secured by the vehicle.

#### NOTE 15 – PRIOR PERIOD ADJUSTMENT

The net position was restated to reflect the change in proportionate share of the net OPEB liability related to the County Employee Retirement System pension plan. The net position of the governmental activities was decreased by \$9,841. The net positions of the business-type activities were increased as follows: water fund \$3,886 and sewer fund \$3,587. This change is reflected in beginning net position balance.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and City Council City of Elkton, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Elkton, Kentucky, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Elkton, Kentucky's basic financial statements and have issued our report thereon dated January 25, 2021.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Elkton, Kentucky's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Elkton, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Elkton, Kentucky's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and responses as item 2020-1, that we consider to be a material weakness.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Elkton, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, which is described in the accompanying schedule of findings and responses as 2020-2.

## City of Elkton, Kentucky's Response to Findings

City of Elkton, Kentucky's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. City of Elkton, Kentucky's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### CITY OF ELKTON, KENTUCKY SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2020

#### A. SUMMARY OF AUDITOR'S RESULTS

- 1. The auditor's report expresses an unmodified opinion on the financial statements of City of Elkton, Kentucky.
- 2. One material weakness relating to the audit of the financial statements is reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards.
- 3. No instances of noncompliance material to the financial statements of the City of Elkton, Kentucky were disclosed during the audit.

#### **B. FINDINGS – FINANCIAL STATEMENTS AUDIT**

2020-1 Internal Control over Financial Reporting:

Condition: Certain transactions were not properly recorded in the general ledger on a timely basis.

Criteria: Accounting department staff record all transactions required by generally accepted accounting principles on a timely basis.

Effect: The lack of timely recording of all transactions resulted in several audit adjustments necessary to present the financial statements in accordance with generally accepted accounting principles.

Recommendation: The City should implement internal controls necessary to insure financial statements are presented in accordance with generally accepted accounting principles.

Response: The City will review internal controls over financial reporting to determine if cost-effective procedures can be implemented to correct this deficiency.

2020-2 Compliance:

Condition: The City held deposits in excess of FDIC coverage and pledged collateral with financial institutions.

Criteria: To protect public monies from potential loss, state statutes require deposits with financial institutions that are beyond FDIC coverage to be collateralized with pledged securities.

Effect: Cash deposits exceeding FDIC coverage and pledged collateral are at risk of being lost in the event of bank failure. No loss of public monies resulted from these uninsured and uncollateralized deposits.

Recommendation: The City should comply with state statutes to ensure public monies are protected. Deposits in excess of FDIC coverage should be fully collateralized with pledged securities and the City should review deposits for uninsured and uncollateralized amounts on a regular basis.

Response: The City will review coverage and work with financial institutions to comply with state statutes.
