INDEPENDENT AUDITOR'S REPORT

To the Mayor and Council City of Ft. Thomas, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Ft. Thomas, Kentucky, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the City of Ft. Thomas, Kentucky, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 5-10 and 35-39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Ft. Thomas, Kentucky's basic financial statements. The combining and individual budget and actual nonmajor fund financial statements are presented for purposed of additional analysis and are not a required part of the basic financial statements.

The combining and individual budget and actual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subject to the auditing procedures applied in the audit of the basic financial statements and certain addit9iinal procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combing and individual budget and actual nonmajor fund financial statements are fairly stated in all material respect in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 6, 2015, on our consideration of the City of Ft. Thomas, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Ft. Thomas, Kentucky's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

As management of the City of Ft. Thomas, Kentucky, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Ft. Thomas, Kentucky for the year ended June 30, 2014.

Financial Highlights

The assets of the City exceeded its liabilities at the close of the most recent year by \$22,108,169 (net position).

As of the close of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$12,091,745. This total represents an increase of \$598,614 in comparison to the prior fiscal year. The increase was primarily attributable to actual revenues exceeding the budget projections.

At the end of the current fiscal year, total fund balance for the general fund was \$10,172,612, a \$392,204 increase over the prior fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The basic financial statements encompass three components: 1) government-wide financial statements 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, the increases and decreases in net assets are one indicator of whether the City's financial position is improving or deteriorating. Other nonfinancial factors such as changes in the City's property tax base and the condition of the City's infrastructure will also assist in assessing the overall financial health of the City.

The statement of activities presents how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. As a result, revenues and expenses are reported in this statement for some items that will only result in cash flows for future fiscal periods (e.g. uncollected revenue and earned by unused vacation leave.)

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes, license fees and intergovernmental activities which are considered governmental activities from those functions that are intended to cover all or a significant portion of their costs through user fees and charges which are considered business-type activities. The governmental activities include most of the City's basic services. These include but are not limited to police, fire, street maintenance, parks and recreation, and general administration.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. Some funds are required to be established by State law. However, the City Council establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for grant funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances left at yearend that are available for spending. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs.

Because the focus of governmental funds is narrower that that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Ft. Thomas maintains individual governmental funds. (Information is presented separately in the governmental balance sheet and in the statement of revenues, expenditures and changes in fund balances for the general fund, public works/KDOT, central business district and Tower Park funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City of Ft. Thomas' own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Ft. Thomas, assets exceeded liabilities by \$22,108,169 at the close of the most recent year.

The largest portion of the City's net position reflects its investment in capital assets (e.g. land, buildings, machinery and equipment), less any related debt to finance those assets that is still outstanding. The City uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resource needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

For the years ended June 30, 2014 and 2013, net position changed as follows:

| | | Governmental Activities | | | | | | |
|--|---------------|-------------------------|----|------------|--|--|--|--|
| | | 2014 | | 2013 | | | | |
| Current and other assets | \$ | 12,827,232 | \$ | 11,970,451 | | | | |
| Capital assets, net | 100 | 16,837,499 | | 16,822,803 | | | | |
| Total assets | | 29,664,731 | | 28,793,254 | | | | |
| Deferred outflows of resources | 2 | 237,246 | | 252,276 | | | | |
| Other liabilities | 1 | 775,865 | | 982,196 | | | | |
| Long-term liabilities (as restated for 2013) | 200400 | 7,017,943 | | 7,023,579 | | | | |
| Total liabilities | | 7,793,808 | | 8,005,775 | | | | |
| Net assets: | | 1621 - 521 - 5 | | | | | | |
| Invested in capital assets, net of debt | | 10,174,344 | | 9,741,512 | | | | |
| Restricted | | 1,847,433 | | 1,482,950 | | | | |
| Unrestricted (as restated for 2013) | | 10,086,392 | | 9,815,293 | | | | |
| Total net position (as restated for 2013) | \$ _ | 22,108,169 | \$ | 21,039,755 | | | | |
| | | | - | 1.55 | | | | |

Net position of the City increased by \$1,068,414 during the current fiscal year.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At the end of the current fiscal year, the City's government funds reported combined ending fund balances of \$12,091,745, an increase of \$598,614 in comparison with fiscal year FY 2012-13.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the balance of the general fund was \$10,172,612, which represents an increase of \$392,204 over fiscal year 2012-2013. Key factors in this change are as follows:

Significant activity in funds other than the City's General Fund includes Special Revenue (Public Works/KDOT Fund and Central Business District Fund), Capital Projects (Tower Park Fund) and Other Governmental Funds (Waste Fee and Debt Service). These funds account for the majority of non-operating activity including, but not limited to, capital infrastructure projects, special projects, debt repayment and activity that must be segregated from the General Fund. The Public Works/KDOT Special Revenue Fund included total expenditures of \$328,275, primarily representing infrastructure reinvestment such as street resurfacing, curb repair and The Capital Projects/Tower Park Fund represents activity from sidewalk rehabilitation. revenues restricted by City ordinance, earmarked primarily for recreation projects as authorized by Council. In FY 2014, this fund incurred total expenditures of \$8,086, utilizing corresponding revenue and carry over funds from prior fiscal years. Significant activity under the Central Business District Fund included operating and capital expenditures associated with efforts to enhance business districts within the city and renovation of various City parks. The primary source of revenue in this fund includes a portion of the city's occupational license fee (.25%), which totaled approximately \$481,000. Significant expenditures in this fund include capital construction activity involving infrastructure improvements, as well as Renaissance Board events.

Activity within the Debt Service Fund included total expenditures of \$729,592 representing repayment of borrowed funds associated with the CBD revitalization, a gateway park, Towne Center revitalization, general obligation bonds and park improvements.

The following schedules present a summary of general, special revenue, debt service and capital projects revenues and expenditures for the fiscal year ended June 30, 2014, and the amount and percentage of increases and decreases in relation to the prior year.

| | | | Percent | | | Percent |
|-----------------------|----|------------|---------|-----|------------|---------|
| | | FYE 2014 | of | | FYE 2013 | of |
| Revenues | | Amount | Total | | Amount | Total |
| Taxes | \$ | 4,969,271 | 39.18% | \$ | 4,807,831 | 39.12% |
| Licenses and permits | | 5,088,930 | 40.12% | | 4,847,488 | 39.44% |
| Intergovernmental | | 703,853 | 5.55% | | 710,863 | 5.79% |
| Charges for services | | 1,524,699 | 12.02% | | 1,440,236 | 11.72% |
| Fines and forfeitures | | 60,698 | 0.48% | | 83,237 | 0.68% |
| Interest | | 19,002 | 0.15% | | 25,256 | 0.21% |
| Special assessments | | 105,479 | 0.83% | | 99,102 | 0.81% |
| Miscellaneous | | 211,080 | 1.67% | | 273,810 | 2.23% |
| Total revenues | \$ | 12,683,012 | 100.00% | \$_ | 12,287,823 | 100.00% |

The increase in Taxes is primarily due to the increase in property taxes. Both Fines and forfeitures and Interest saw small decreases, mostly from decreases in interest collected and a low rate of return on City bank accounts.

The increase in licenses and permits is the result of an increase in revenue from occupational net profits fees and payroll taxes. Revenue from this source is difficult to predict, and as such, can fluctuate widely from year to year.

| | | Percent | | | | | | | | |
|--------------------|------------------|---------|----|------------|---------|--|--|--|--|--|
| | FYE 2014 | of | | FYE 2013 | of | | | | | |
| Expenditures | Amount | Total | | Amount | Total | | | | | |
| General government | \$ 1,155,774 | 9.59% | \$ | 1,115,114 | 9.62% | | | | | |
| Police | 3,022,121 | 25.07% | | 2,910,360 | 25.12% | | | | | |
| Fire | 2,640,556 | 21.91% | | 2,707,463 | 23.38% | | | | | |
| General services | 2,794,851 | 23.19% | | 2,773,754 | 23.95% | | | | | |
| Recreation | 612,574 | 5.08% | | 631,095 | 5.45% | | | | | |
| Capital outlay | 1,098,257 | 9.11% | | 582,404 | 5.03% | | | | | |
| Debt service | 729,726 | 6.05% | | 862,493 | 7.45% | | | | | |
| Total revenues | \$ 12,053,859 | 100.00% | \$ | 11,582,683 | 100.00% | | | | | |

Fire Department expenditures decreased due to fewer large grant expenditures compared to previous fiscal years. Capital expenditures increased due to a large expense in the CBD Fund stemming from the Midway CBD Revitalization Project.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the City Council revised the budget one time. The budget amendment was to change revenues and expenditures to more closely reflect the anticipated actual revenues and expenditures for the year.

The Fiscal year 2013-2014 budget relied on the anticipation of moderate increases in property and payroll taxes and licenses and fees. Actual revenue categories were more than budgeted

amounts by \$401,419. In addition, actual expenditures were under budgeted appropriations, by \$96,859 for a combined increase in fund balance over the budget.

DEBT AND CAPITAL ASSET ADMINISTRATION

Debt

At year-end, the City had \$6,663,155 in outstanding bonds and capital leases compared to \$7,081,291 last year.

| na nggugga palastoonna | | Governme Activitie | |

| (backed by city) | | 6,663,155 | 7,081,291 |
| Totals | \$ | 6,663,155 | 7,081,291 |

In 2013-14, the City adopted Government Accountant Standards Board Statement No. 67 – Financial Reporting for Pension Plans, which requires the recognition of Net Pension Liability. The Net Pension Liability at June 30, 2014 (based on the July 1, 2013 actuarial report) was \$71,595.

Capital Assets

At the end of June 30, 2014, the City had \$31,237,674 invested in capital assets including police and fire equipment, buildings, park facilities, roads and sidewalks. This represents a net increase of \$1,056,179. The major increases were infrastructure improvements, vehicles and equipment.

| TOTALS | \$ | 31,237,674 | \$ | 30,181,495 |

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

In summary, the fiscal year 2014 budget proved adequate to continue the delivery of high quality public services in a manner consistent with previous levels. This audit report affirms strong overall financial performance for the City during this fiscal period with minimal growth in major revenue sources and continued aggressive control and management of operating expenditures. The current fiscal year 2015 operating budget is customarily tight in terms of revenue forecasts and expenditure projections, which provides limited flexibility to address

unanticipated needs and activities that may occur. However, the city's conservative fiscal practice of maintaining adequate reserves (both restricted and unrestricted) that would be available to address emergencies has been improved upon during the last year. Limited discretionary funds are appropriated to reflect clear policy initiatives approved by council including central business district (CBD) revitalization, infrastructure reinvestment and retention of a first-rate municipal workforce.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Administrator's Office at 130 N. Ft. Thomas, Ft. Thomas, Kentucky.

| CITY OF FT. THOMAS, KENTUCKY RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITUR CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO TH STATEMENT OF ACTIVITIES | 8 | ID |
|---|----|--------------------------|
| For the Year Ended June 30, 2014 | | 1014 |
| Net change in fund balances-total governmental funds | \$ | 598,614 |
| Amounts reported for <i>governmental activities</i> in the statement of activities are different because: | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense: | | |
| Capital asset purchases capitalized Depreciation expense | | 1,098,257 (1,083,561) |
| The effect of disposition of capital assets is a decrease to net assets | | - |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | | (8,405) |
| Government funds report the effect of issuance costs, premiums, discounts and similar items when the debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. | | (15,030) |

NOTE A-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the City of Ft. Thomas, Kentucky, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies of the City are described below.

Financial Reporting Entity

The City of Ft. Thomas is a municipality governed by a mayor and six-member council. As required by U.S. generally accepted accounting principles, these financial statements present the government and its component unit entities for which the government is considered to be financially accountable.

Blended Component Units

Blended components units, although legally separate entities, are, in substance, part of government's operations and so data from these units are combined with data of the primary government. Each blended component unit of the City has a June 30 year end. The component units discussed below are included in the City's reporting entity because of the significance of their operational and/or financial relationship with the City.

Included within the reporting entity:

City of Fort Thomas Police and Firemen's Pension Fund

All public safety employees who retired prior to February 1, 1988 participate in the Police and Firemen's Pension Fund. The fund functions for the benefit of the retirees and is governed by a five member board of trustees, the mayor, a member of the legislative body, the finance director and two public safety retirees. The City is obligated to fund all costs based upon actuarial valuations.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Amounts paid to acquire capital assets are capitalized as assets in the government-wide finan-

cial statements, rather than reported as an expenditure. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure. The beginning net position has been restated to reflect GASB 67, financial reporting for pension plans.

Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related of the cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The government reports the following funds of the financial reporting entity:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specific purposes.

The capital project funds are used to account for financial resources to be used for the acquisition and construction of major capital facilities.

The debt service fund accounts for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the City.

The fiduciary fund is used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds in the City. These funds are not presented in the government-wide financial statements.

Assets, liabilities and net assets or equity

Cash and Cash Equivalents

Cash and cash equivalents including amounts in demand deposits as well as short-term investments with an initial maturity date within three months of the date acquired by the City.

The City is authorized by state statute to invest in:

- 1. Obligations of the United States and of its agencies and instrumentalities;
- 2. Certificates of deposit
- 3. Bankers' acceptances
- 4. Commercial paper.
- 5. Bonds of this state or local governments.
- 6. Mutual funds.

Property Tax Receivable

Property taxes are levied as of July 1 on property values assessed on January 1. The taxes are billed on approximately October 1 and are due and payable on October 31. On November 1, the bill becomes delinquent and penalties and interest may be assessed by the City. A lien may be placed on the property on November 1. Property tax rates for the year ended June 30, 2014 were \$.372 per \$100 valuation for real and personal property. The assessed value of property on which 2013 was based was \$1,141,433,796.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from/to other funds" on the balance sheet. Short-term interfund loans are classified as "interfund receivables/payables".

Capital Assets

Capital assets are reported in the governmental activities column of the government-wide statement of net position.

The accounting and reporting treatment applied to capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the City as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized (recorded and accounted for) in the government-wide financial statements. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for capital assets are historical costs, or where historical cost is not available, estimated historical cost based on replacement cost. Prior to July 1, 2000, governmental funds infrastructure assets were not capitalized. These assets (back to July 1, 1980) have been valued at estimated historical cost.

Capital assets used in operations are depreciated over their estimated useful lives using the straight-line method in the government-wide financial statements. Depreciation is charged as an expense against operations and accumulated depreciation is reported on the respective bal-

ance sheet. The range of lives used for depreciation purposes for each fixed asset class are as follows:

| Buildings | 40 years |
|-----------------------------|-------------|
| Building Improvements | 10-20 years |
| Public Domain Infrastruture | 20-30 years |
| Vehicles | 5 years |
| Office Equipment | 3-5 years |

Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused sick pay benefits. There is a liability for unpaid accumulated sick leave since the government does have a policy to pay amounts when employees separate from service with the government. There is also a liability for vacation pay that has been approved for carryover by the City's Administrative Officer. The total liability for these types of compensated absences is reported in the government-wide financial statements.

Long-Term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as revenue and payment of principal and interest reported as expenditures. The accounting for the proprietary fund is the same in the fund statements as it is in the government-wide statements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report as a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/Expenditure) until then. The government only has one item that qualifies for reporting in the government-wide statement of net position, a deferred charge on debt. This amount is deferred and amortized over the life of the debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government only has one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds

balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Fund Balance Policies

Net assets is the difference between assets and liabilities. Net assets invested in capital assets, net of related debt are capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, construction or improvement of those assets.

In the fund financial statements, government funds report components of fund balance for amounts that are nonspendable, restricted, committed, assigned or unassigned:

Nonspendable fund balances arise when resources cannot be spent because of their form and because resources must be maintained intact.

Restricted fund balances arise when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Committed fund balances are those that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, which, for the City is the Council, The Council must approve the establishment (and modification or rescinding) of a fund balance commitment.

Assigned fund balances are those that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned fund balance is the residual classification for the general fund. The classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the general fund.

Restricted, committed and assigned amounts can only be used when expenditures for the amounts set aside for that specific purpose are incurred. Otherwise, the unassigned fund balance amount will be used.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, governmental funds are classified as follows:

Governmental funds – by character Current-further classified by function Debt service Capital outlay

In the fund financial statements governmental funds report expenditures of financial resources.

Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/ expenses in the fund that is reimbursed.

Restricted Revenues

When there are restricted and unrestricted revenues in a program, the City's policy is that the restricted revenues are expended first.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenditures. Actual results could differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through February 6, 2015, which is the date the financial statements were available for review.

NOTE B-STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- A. In accordance with City ordinance, by May 31, the Mayor submits to the Council, a proposed operating budget on the modified accrual basis of accounting for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
- B. A public meeting is conducted to obtain citizen comment.
- C. By July 1, the budget is legally enacted through passage of an ordinance.
- D. The Mayor is required by Kentucky Revised Statutes to present a quarterly report to the Council explaining any variance from the approved budget.
- E. Appropriations continue in effect until a new budget is adopted.
- F. The Council may authorize supplemental appropriations during the year.

Expenditures may not legally exceed budgeted appropriations at the function level. Any revisions to the budget that would alter total revenues and expenditures of any fund must be approved by the Council; however, with proper approval by the Council, budgetary transfers between departments can be made. The Council adopted one supplementary appropriation ordinances. All appropriations lapse at fiscal year end.

NOTE C-DEPOSITS AND INVESTMENTS

Custodial credit risk – *deposits.* For deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned. The City maintains deposits with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC). As allowed by law, the depository bank should pledge securities along with FDIC insurance at least equal to the amount on deposit at all times. As of June 30, 2014, the City's deposits are entirely insured and/or collateralized with securities held by the financial institutions on the District's behalf and the FDIC insurance, as required by state legal requirements.

As of June 30, 2014, the City had the following investments:

| Fair Value |
|---------------|
| \$ 41,893 |
| 193,557 |
| 5,406 |
| \$ 240,856 |
| |

Custodial credit risk – investments – For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City had custodial credit risk at June 30, 2014 of \$240,856. The related securities totaling this amount are uninsured, unregistered and held by a bank trust department.

The City has an investment policy for public funds. The above funds are funds the City holds in trust, which are subject to policy mandated by Kentucky statute which allows trust funds to be invested in securities which would be regarded by a prudent businessman as a safe investment.

NOTE D-CAPITAL ASSETS AND DEPRECIATION

Capital assets activity for the year ended June 30, 2014 was as follows:

| | _ | Balance June 30, 2013 | | Additions | | Retirements/ | | Balance June 30, 2014 |
|-----------------------------|-----|-----------------------------|----|-----------|----|--------------|--------|-----------------------------|

NOTE E-LONG-TERM DEBT

Capital Lease Obligations

The capital lease obligations are payable from general revenues of the City.

Long-term debt outstanding at June 30, 2014 for the capital leases, consisted of the following:

Capital Lease Payable-Real Estate

The City entered into a capital lease agreement on June 29, 2001 with Bank of Kentucky to finance the purchase of certain real estate. The lease payable is for a period of twenty years at a rate of 4.80%. Annual debt service payment requirements to maturity are as follows:

| Year Ending June 30, | | Amount |
|-------------------------|----|----------|
| 2015 | \$ | 15,820 |
| 2016 | | 15,820 |
| 2017 | | 15,820 |
| 2018 | | 15,820 |
| 2019 | | 15,820 |
| Thereafter | _ | 31,655 |
| Subtotal | | 110,755 |
| Less: interest | _ | (22,112) |
| TOTAL | \$ | 88,643 |
| | | (V) (U) |

Capital Lease Payable-Acquisition and Installation of Street Improvements

The City entered into a \$765,000 capital lease agreement on August 5, 2004 with the Kentucky League of Cities Funding Trust to finance portions of the central business district redevelopment. The lease payable is for a period of ten years and was refinanced March, 2006 to a fixed interest rate of 3.97%. Annual debt service payment requirements to maturity are as follows:

| Year Ending June 30, | | Amount |
|-------------------------|-------|--------|
| 2015 | _ s _ | 64,596 |
| Subtotal | | 64,596 |
| Less: interest | | (272) |
| TOTAL | \$ | 64,324 |

Capital Lease Payable - Towne Center

The City entered into a \$750,000 capital lease agreement on January 8, 2007 with the Kentucky League of Cities Funding Trust to finance the capital construction of the Towne Center development. The lease payable is for a period of ten years with a total interest and fee cost of from 0.91% to 2.45%.

Annual debt service payment requirements to maturity are as follows:

| Year Ending June 30 | | Amount |
|------------------------|----|----------|
| 2015 | \$ | 93,763 |
| 2016 | | 93,763 |
| 2017 | | 62,508 |
| Subtotal | 2 | 250,034 |
| Less: interest | | (17,824) |
| Total | \$ | 232,210 |

Capital Lease Payable – City Building Renovations

The City entered into a \$820,000 capital lease agreement on June 8, 2009 with the Kentucky League of Cities Funding Trust to finance the capital construction of renovations to the City's government building. The lease payable is for a period of ten years with a total interest and fee cost of 0.91% to 2.45%.

Annual debt service payment requirements to maturity are as follows:

| Year Ending | | |
|----------------|----|----------|
| June 30 | _ | Amount |
| 2015 | \$ | 96,680 |
| 2016 | | 96,680 |
| 2017 | | 96,680 |
| 2018 | | 96,680 |
| 2019 | _ | 88,625 |
| Subtotal | | 475,345 |
| Less: interest | _ | (37,367) |
| Total | \$ | 437,978 |
| | | |

Capital Lease Payable – Midway Streetscape

The City entered into a \$2,290,000 capital lease agreement on August 25, 2010 with the Kentucky Bond Corporation to finance the Midway Streetscape project. The lease payable is for a period of twenty years with interest rates from 1.00% to 4.00%.

Annual debt service requirements to maturity are as follows:

| Year Ending | | |
|----------------|------|-----------|
| June 30, | | Amount |
| 2015 | \$ | 227,200 |
| 2016 | | 158,263 |
| 2017 | | 155,513 |
| 2018 | | 162,488 |
| 2019 | | 158,888 |
| 2020-2024 | | 779,188 |
| 2025-2029 | | 298,338 |
| 2030-2034 | | 36,937 |
| Subtotal | 1 | ,976,815 |
| Less: interest | | (396,815) |
| Total | \$ 1 | ,580,000 |
| | | |

Capital Lease Payable - Parks

The City entered into a \$4,260,000 capital lease agreement on April 14, 2011 with the Kentucky Bond Corporation to finance the Parks rehabilitation project. The lease payable is for a period of twenty-five years with interest rates from 3.00% to 5.75%.

Annual debt service requirements to maturity are as follows:

| Year Ending | |
|----------------|-----------------|
| June 30 | Amount |
| 2015 | \$ 233,825 |
| 2016 | 298,825 |
| 2017 | 301,713 |
| 2018 | 294,437 |
| 2019 | 297,325 |
| 2020-2024 | 1,512,200 |
| 2025-2029 | 1,985,875 |
| 2030-2034 | 2,248,413 |
| 2035-2036 | 911,800 |
| Subtotal | 8,084,413 |
| Less: interest | (3,824,413) |
| Total | \$ 4,260,000 |
| | |

Due

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2014, was as follows:

| Governmental activities: | | June 30, 2013 | | Additions | | Retirements | | June 30, 2014 | | Within One Year |

NOTE F-CLAIMS AND JUDGMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims including amounts already collected, may constitute a liability of the applicable funds. The amounts, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

NOTE G-EMPLOYEE RETIREMENT SYSTEM

County Employees Retirement System (CERS)

City employees who work at least 100 hours per month participate in the County Employees Retirement System (CERS). Under the provisions of Kentucky Revised Statute 61.645, the Board of Trustees of Kentucky Retirement Systems administers the CERS.

The plan issues separate financial statements which may be obtained by request from Kentucky Retirement Systems, 1260 Louisville Road, Frankfort, Kentucky 40601.

Plan Description - CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in positions of each county and school board, and any additional eligible local agencies electing to participate in the System. The plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost-of-living (COLA) adjustments are provided at the discretion of the state legislature.

Non-hazardous Contributions - For the year ended June 30, 2014, plan members were required to contribute 5% of their annual creditable compensation. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 61.565(3), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. For the year ended June 30, 2014, participating employers contributed 18.89% of each employee's creditable compensation. The actuarially determined rate set by the Board for the year ended June 30, 2014 was 18.89% of creditable compensation. Administrative costs of Kentucky Retirement System are financed through employer contributions and investment earnings. New employees, after August 31, 2008 pay an additional 1% contribution.

Hazardous Contributions - For the year ended June 30, 2014, plan members were required to contribute 8% of their annual creditable compensation. The state was required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 61.565(3), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last preceding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the Board. For the year ended June 30, 2014, participating employers contributed 35.70% of each employee's creditable compensation. The actuarially determined rate set by the Board for the year ended June 30, 2014 was 35.70% of creditable compensation. Administrative costs of KRS are financed through employer contributions and investment earnings. New employees after August 31, 2008 pay an additional 1% contribution for health insurance.

The required contribution and the actual percentage contributed for the City the current and previous two years are as follows:

| | | Required | Percentage |
|------|----|--------------|-------------|
| Year | _ | Contribution | Contributed |
| 2014 | \$ | 1,171,637 | 100% |
| 2013 | \$ | 1,532,340 | 100% |
| 2012 | \$ | 1,427,979 | 100% |

Medical Insurance Plan

The CERS provides post retirement healthcare benefits to eligible members and dependents, under cost sharing multiple employer defined benefit plans. Medical benefits are offered to members who have retired for service or disability. The post-retirement healthcare is financed through member and employer contributions.

Deferred Compensation Plans

There is a deferred compensation plan available to full-time, non-hazardous, non-union employees of the City. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable financial emergency. The City matches the employee contribution up to a maximum of 3% of gross wages, which was \$29,673 for the year ended June 30, 2014. The deferred compensation plan is administered by the Kentucky Deferred Compensation Authority.

NOTE H-EMPLOYEE RETIREMENT PLAN

The City of Ft. Thomas maintains a single employer, defined benefit pension plan: Police and Firemen's Pension Plan. A separate, audited post-employment benefit plan report prepared in accordance with U.S. generally accepted accounting principles is not available for this plan.

Summary of Significant Accounting Policies

Basis of Accounting. The plan financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Police and Firemen's Pension Plan

Plan Description. The Police and Fireman's Pension Plan is a single-employer defined benefit pension plan that covers substantially all safety employees who were receiving benefits prior to February 1, 1988. The plan is administered by the Board of Trustees, which consists of: the Mayor, the City Manager, the Finance Director, and a former employee who is a member of the Fund appointed by the Mayor (currently unoccupied).

Benefits Provided. The plan provides retirement and death benefits to plan members and their beneficiaries. Plan members who retired with 20 years of service at age 50 were eligible to receive a monthly benefit.

Death benefits consist of a lump sum of \$100.

Contributions. As of June 30, 2014, there are 5 retirees and beneficiaries currently receiving benefits. The City is required to contribute at an actuarially determined rate. Contribution requirements of the City are established and may be amended by City ordinance. Administrative costs are financed through investment earnings. The plan is closed to new entrants and doesn't have any active plan members.

Investment Policy. The plan's policy in regard to the allocation of invested assets is established and may be amended by the Board of Trustees by a majority vote of its members. It is the policy of the Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes.

Concentrations. The Employees' Pension Plan investments concentration as of June 30, 2014:

| Investment | Concentration | | |
|------------------------|---------------|--|--|
| Cash and money markets | 3% | | |
| Bond mutual funds | 17% | | |
| Equity mutual funds | 78% | | |
| Other assets | 2% | | |
| | 100% | | |

Rate of Return. For the year ended June 30, 2014, the annual money-weighted rate of return on the plan investments, net of pension plan investment expense was 14.64%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability. The Employees' Pension net pension liability was measured as of June 30, 2013, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The components of the net pension liability of the City at June 30, 2013 were as follows:

| Total pension liability | \$ | 286,758 |
|---|------|-----------|
| Pension Plan fiduciary net position | | (215,163) |
| City's net pension liability | \$ _ | 71,595 |
| Employees' Pension Plan net position as | | |
| a percentage of total pension liability | | 75.0% |

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2013, using the following actuarial assumptions, applied to all periods included in the measurement:
CITY OF FT. THOMAS, KENTUCKY NOTES TO FINANCIAL STATEMENTS June 30, 2014

Investment rate of return 5.0%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2013 Mortality Table M/F.

Discount rate. The discount rate used to measure the total pension liability was 5.0 percent.

Changes in Employees' Net Pension Liability. Changes in the Employees' Pension net pension liability for the year ended June 30, 2014 were as follows:

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the City, calculated using the discount rate of 5.0%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is ½ percentage-point higher (5.5%) or 1 percentage-point higher (6.0%) than the current rate:

| | Discount | | Net Pension |
|-----------------------|----------|----|-------------|
| | Rate | - | Liability |
| Current discount rate | 5.00% | \$ | 286,758 |
| 1/2 % increase | 5.50% | | 277,870 |
| 1% increase | 6.00% | | 269,485 |

Pension Expense. For the year ended June 30, 2014, the City recognized pension income of \$37,567.

NOTE I-CONTINGENT LIABILITIES

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's Attorney the resolution of these matters will not have a material adverse effect on the financial condition of the government.

NOTE J-RISK MANAGEMENT

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The City has obtained insurance coverage through a commercial insurance company. In addition, the City has effectively managed risk through various employee education and prevention programs through the efforts and cooperation of its risk manager and department heads. All risk general liability management activities are accounted for in the General Fund. Expenditures and claims are recognized when probable that a loss has occurred and the amount of loss can be reasonably estimated.

The City Attorney estimates that the amount of actual or potential claims against the City as of June 30, 2014, will not materially affect the financial condition of the City. Therefore, the General Fund contains no provision for estimated claims. No claim has exceeded insurance coverage amounts in the past three fiscal years.

NOTE K - INTERFUND BALANCES AND TRANSFERS

The General Fund records a \$660,000 receivable from the Central Business District Fund for funds advanced for construction projects and records \$236,640 due to the Public Works/KDOT and Central Business District funds for past costs incurred by those funds for the General Fund.

The General Fund (\$182,154) and Central Business District Fund (\$562,388) transferred \$744,542 to the Debt Service Fund for payment of the City's debt. The General Fund transferred \$481,000 to the Central Business District Fund representing a .25 percent tax collected by the General Fund on behalf of the CBD. The General Fund transferred \$30,539 to the Police and Fire Pension Fund and \$387,000 to the CBD Fund.

NOTE L – SUBSEQUENT EVENTS

In October, 2013 the City received an approximate \$300,000 billing from Duke Energy regarding relocation of utility services relative to the Midway Business District renovation project which was done in 2008. After June 30, 2014, the City settled for the \$300,000 amount and an expenditure was accrued at June 30, 2014.

RANKIN, RANKIN & COMPANY Certified Public Accountants

Lookout Corporate Center 1717 Dixie Highway, Suite 600 Ft. Wright, Kentucky 41011

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and Council City of Ft. Thomas, Kentucky

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Ft. Thomas, Kentucky, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City of Ft. Thomas, Kentucky's basic financial statements and have issued our report thereon dated February 6, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Ft. Thomas, Kentucky's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Ft. Thomas, Kentucky's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Ft. Thomas, Kentucky's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Ft. Thomas, Kentucky's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Ft. Thomas, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as Finding 1.

City of Ft. Thomas, Kentucky's Response to Findings

The City of Ft. Thomas, Kentucky's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. City of Ft. Thomas, Kentucky's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Finding 1: Expenditures Exceeding Budget

Under KRS91A.030 the City is required to limit expenditures to those that are within the legally adopted budget, which is enacted at the department level. The Central Business District fund incurred expenditures in excess of the budget in the general services/recreations line item and the General Fund recreation line item exceeded the budget.

Recommendation: We recommend the City consider the following:

We recommend that the City be aware of its expenditures as compared to the legally adopted budget and amend the budget when necessary to avoid exceeding the budget.

City's Response:

The City will monitor its expenditures and amend the budget when necessary.

To the Mayor and Council City of Ft. Thomas, Kentucky Ft. Thomas, Kentucky

In planning and performing our audit of the financial statements of City of Ft. Thomas, Kentucky for the year ended June 30, 2014, we considered the City's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

Lookout Corporate Center

1717 Dixie Highway, Suite 600 Ft. Wright, Kentucky 41011

However, during our audit, we became aware of matters that are opportunities for strengthening internal controls and operating efficiency. This letter summarizes our comments and suggestions regarding those matters. This letter does not affect our report dated February 6, 2015 on the financial statements of the City of Ft. Thomas, Kentucky

Comprehensive General Ledger

In past years, the City has used elements of a general ledger system, primarily for recording cash activity during the year. At year end, that system was supplemented with spread sheet journal entries to complete the trial balance for the year. While adequate for arriving at the year end trial balance, (used for preparing the financial statements), we believe that utilizing the full capability of the general ledger system would add to greater efficiency and control over the reporting of various entries during and at the year end.
