INDEPENDENT AUDITORS' REPORT

Mayor and City Council
City of La Grange, Kentucky
La Grange, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of La Grange, Kentucky, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of La Grange, Kentucky, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension schedules on pages 3-10 and 41-48 respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City of La Grange, Kentucky's basic financial statements. The budgetary comparison other governmental funds and the combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison other governmental funds and the combining nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison other governmental funds and the combining nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

Prior-Year Comparative Information

We have previously audited the City's 2015 financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information in our report dated May 23, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 22, 2017, on our consideration of the City of La Grange, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of La Grange, Kentucky's internal control over financial reporting and compliance.

City of La Grange, Kentucky Management's Discussion and Analysis

Our discussion and analysis of the City of La Grange's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2016. Please read in conjunction with the auditors' report beginning on page 1 and the City's financial statements, which begin on page 11.

FINANCIAL HIGHLIGHTS

- The City's net position increased in both the governmental activities and the business-type activities. The net position of the governmental activities increased by \$2,241,631, or 59%, and the net position of the business-type activities increased by \$170,547, or 1%.
- In the City's governmental activities, revenues increased approximately \$351,209, or 5 percent, and expenses increased by \$336,662 or 8 percent. In the business-type activities, revenues increased by \$429,719, which is an increase of 12 percent, and expenses increased by \$148,887 or 4 percent.

OVERVIEW OF THIS ANNUAL REPORT

This annual report consists of the management's discussion and analysis report, the independent auditors' report, the basic financial statements of the City, and the independent auditors' report on compliance. The financial statements also include notes that explain in more detail some of the information in the financial statements.

The City's financial statements present two kinds of statements, each with a different snapshot of the City's finances. The focus is both the City as a whole (government-wide) and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the City's overall financial status. The fund financial statements focus on the individual funds of the City, reporting the City's operations in more detail than the government-wide statements. Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison (year to year or government to government) and enhance the City's accountability.

GOVERNMENT – WIDE FINANCIAL STATEMENTS

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. One of the most important questions asked about the City's finances is "Is the City as a whole better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Activities report information about the City's activities in a way that will help answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the net position of the City and the changes in them. One can think of the City's net position—the difference between assets and liabilities—as one way to measure financial health or financial position. Over time, increases or decreases in the City's net position are an indicator of whether its financial health or position is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, changes in property tax rates or valuation, infrastructure asset condition, and new or changed government legislation.

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

Governmental activities—Most of the City's basic services are reported here, including general government administration, police, streets, sanitation, public bus and parks. Property taxes, licenses and permits, and grants finance most of these activities.

Business-type activities—The City collects fees from customers to cover the costs of the services, which includes water and sewer and the Eagle Creek golf course.

FUND FINANCIAL STATEMENTS

The City has two kinds of funds:

Governmental Fund—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets, that can readily be converted to cash, flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statement that explains the relationship (or differences) between them.

Proprietary Fund—Services for which the City charges customers a fee are generally reported in proprietary funds.

NET POSITION

Our analysis begins with a summary of the City's Statement of Net Position, which is presented on Table A-1 followed by an explanation of the results. Changes in net position are presented in Table A-2, which is also followed by an explanation of the results.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected officials consider many factors when setting the fiscal year 2017 budget. Some of the factors are the local economy, expected grant money, and anticipated tax revenue.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide the citizens of the City, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Ms. Stephanie Cooper, City Clerk, at 307 West Jefferson Street, La Grange, KY 40031. The Utility Commission is located at 412 East Jefferson Street, La Grange, KY 40031.

CITY OF LA GRANGE, KENTUCKY
NOTES TO FINANCIAL STATEMENTS
 June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of La Grange, Kentucky (the City) operates under the City Council form of government and provides the following services as authorized by its charter: public safety, public works, recreation and community development. The accounting policies of the City conform to generally accepted accounting principles applicable to governmental units. The following is a summary of the more significant accounting policies.

A. Reporting Entity

The financial statements of the City include the funds, account groups and entities over which the Mayor and Council exercise significant oversight responsibility. Oversight responsibility, as defined by Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, was determined on the basis of the City's ability to significantly influence operation, select the governing body, and participate in fiscal management and the scope of public service. The Council has oversight responsibility for various boards and foundations included in the accompanying financial statements. The La Grange Public Properties Corporation and Utility Commission of the City of La Grange, Kentucky are blended component units that are subject to the City's oversight responsibility. Separately issued financial statements of the Utility Commission can be obtained by request at 203 S. Walnut Street, La Grange, KY, 40031 or by calling (502) 222-9325. The City is involved in a joint venture with Oldham County, Kentucky, in the Oldham-LaGrange Development Authority. See footnote 11.

B. Blended Component Units

Blended component units are separate entities that meet the component unit criteria described above and whose governing body is the same as, or designated by the City Council or the component unit provides services entirely to the City. These component units' funds are blended into those of the City's by appropriate activity type.

Component units that are blended into the reporting activity types of the City's report are presented below:

Component Unit	Brief Description/Inclusion Criteria	Reporting
City of La Grange Public Properties Corporation	The Corporation is legally separate from the City, but it is reported as if it were part of the City, the primary government, because its sole purpose is to finance the acquisition of City real estate and buildings.	Governmental Fund
Utility Commission of the City of La Grange, Kentucky	The Commission is operated by a five member board of commissioners which includes four City of La Grange, Kentucky, residents appointed by the Mayor and approved by the City Council. The fifth member of the board of commissioners is a member of the City Council appointed by and from the membership of the City Council. The Commission is an agency that the City Council created to supervise, control and maintain the waterworks and sewer system for the City.	Proprietary Fund Enterprise Fund

C. Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements include a statement of net position and the statement of activities. These statements display information about the City as a whole. The statements distinguish between governmental and business-type activities of the City. These financial statements include the financial activities of the City except for fiduciary activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support. The government-wide statement of activities reflects costs of government by function for governmental activities and business-type activities. Program revenues include charges paid by recipient for the goods or services offered by the program and grants or contributions that are restricted to the program. Revenues which are not classified as program revenues are presented as general revenues of the City.

Fund Financial Statements

Fund financial statements report detailed information about the City. The accounts of the City are organized on the basis of funds, each of which is considered to be a separate fiscal and accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of its assets, liabilities, reserves, fund balance, revenues and expenditures or expenses.

Governmental funds are those through which most governmental functions are financed. The governmental fund measurement focus is the determination of financial position and budgetary control over revenues and expenditures. Proprietary fund types are used to account for operations that are financed and operated in a manner similar to business enterprises - where intent of the governing body is that costs of providing services are to be financed or recovered primarily through user charges.

The following funds are used by the City of La Grange:

Governmental Funds

General Fund – The general operating fund of the City is used to account for all financial resources except those required to be accounted for in another fund. Most of the essential governmental services such as police, community services and general administration are reported in this fund.

Capital Project Fund – The Capital Project Fund is used to account for resources restricted for the acquisition or construction of specific capital projects or items.

C. Basis of Presentation (continued)

Governmental Funds (continued)

Parks Board Fund – Accounts for the activities of the City of La Grange Foundation, Inc., which was created as a non-profit corporation to receive donations for projects for the betterment of the City of La Grange and Oldham County.

Municipal Road Aid Fund – Special revenue fund that accounts for the money received from the Commonwealth of Kentucky under the gasoline tax distribution program. Amounts received are reserved for road maintenance.

ABC Fund – Accounts for the receipts and expenditures related to the regulation of sales of alcoholic beverages in the City.

Bus Fund – Accounts for the receipts and expenditures related to the operation of the City buses.

Proprietary Funds

Proprietary funds are used to account for the ongoing organizations and activities of the City, which are similar to those found in private business enterprises. The measurement focus is upon determination of net income, financial position, and changes in cash flows.

Enterprise funds are established to account for the acquisition, operations and maintenance of the City's facilities and services which are entirely or predominantly self-supported by user charges or where the City has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The accounts are maintained on the accrual basis of accounting. The City's enterprise operations include the following:

Utility Commission of the City of La Grange, Kentucky – Accounts for activities in providing water and sewer services to the residents of the City, the operations of which are financed by user charges.

Eagle Creek Golf Course – Accounts for activities in providing golfing facilities to the public and the management of the retail pro-shop.

D. Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the City as a whole. The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for individual funds.

Fund Financial Statements

The financial transactions of the City are recorded in individual funds. Their focus is on individual funds rather than reporting funds by type. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet.

All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A period of sixty (60) days is used for property tax revenues. Expenditures, other than interest on long-term debt, are recorded when the liability is incurred.

Proprietary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and expenses are recognized when they are incurred.

Operating revenues include charges for service and other income, operating expenses include direct costs and depreciation. All other revenues or expenses are treated as non-operating.

Permits, fines and forfeits, and miscellaneous revenues (except for investment earnings) are recorded as revenues when received because they are generally not measurable until actually received. Investment earnings are recorded when earned since they are measurable and available in all funds.

E. Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents consist of cash on hand, cash on deposit with banks, and certificates of deposit with an original maturity of less than three months (including amounts held in restricted asset accounts).

F. Investments

Investments are reported at fair value. Investments of the City consist of certificates of deposits with an original maturity of three months or greater.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Interfund Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

H. Supplies Inventory

Inventories in the proprietary funds consist of expendable supplies that are stated on a first-in, first-out method. They are reported at cost which is recorded as an expenditure at the time individual inventory items are used. Inventories of the special revenue funds are recorded as expenditures when purchased rather than when consumed.

I. Accounts Receivable

Governmental activities accounts receivable consists of property taxes, compensation taxes, occupational license fees, insurance premium taxes, franchise fees, ABC fees, bus fees, service revenues and grant funds which are disbursed on an expenditure-reimbursement plan.

Business-type activities extend credit to substantially all of their customers.

Accounts receivable are stated at face amount, less an allowance for doubtful accounts of \$67,829 in the general fund and \$7,498 in the proprietary funds, which approximates fair market value.

The City maintains allowances for doubtful accounts based on evaluation by management and percentages applied to the various aging periods of accounts receivable. Specific accounts deemed uncollectible are charged to the allowance upon evaluation by management. Evaluation factors include familiarity with the customer, credit history and the age of the unpaid bill. Property taxes not collected within sixty (60) days of year end are fully reserved.

J. Capital Assets and Depreciation

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of one thousand dollars. Improvements are capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Capital Assets and Depreciation (continued)

Transfers of capital assets between funds are recorded at the net book value of the transferred asset at the time of transfer.

All reported capital assets are depreciated with the exception of land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives for both general capital assets and proprietary fund assets:

Description	Years
Utility plant and distribution system	20-50
Buildings and improvements	10-40
Land improvements	10-40
Infrastructure	10-25
Machinery and equipment	3-15

K. Unearned Revenue

Unearned revenue represents grant revenues received but unearned. Revenues are recognized when eligible expenditures are incurred.

L. Compensated Absences

Accrued vacation pay vests as of January 1 and must be used by December 31 of each year. Unused vacation pay is payable upon termination of employment. The liability for these compensated absences is recorded as a current liability.

M. Long-Term Debt and Bond Issuance Costs

In the government-wide and proprietary financial statements, outstanding debt is reported as current and long-term liabilities. In accordance with GASB 65, bond issuance costs are expensed in the period incurred.

In the fund financial statements, governmental fund types recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

N. Fund Balances

In fund financial statements, the difference between the assets and liabilities of governmental funds is reported as fund balance. Fund balance is divided into nonspendable and spendable components, if applicable. The City further breaks down both nonspendable and spendable components into the following components:

Nonspendable – amounts that must be maintained intact legally or contractually.

Restricted – amounts constrained for a specific purpose by external parties, constitutional provisions or enabling legislation.

Committed – amounts that can be used only for specific purposes determined by a formal action of the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Council.

Assigned – for all governmental funds, other than the general fund, any remaining positive amounts not classified as nonspendable, restricted or committed. For the general fund, amounts constrained, by intent, to be used for a specific purpose by the City or the elected City official given authority to assign amounts.

Unassigned – for the general fund, amounts not classified as nonspendable, restricted, committed or assigned. For all other government funds, amounts expended in excess of resources that are nonspendable, restricted, committed or assigned.

For resources considered to be assigned, the City has designated the Mayor to carry the intent of the City Council.

It is the policy of the City to spend restricted funds first when both restricted and unrestricted funds are available. Once restricted funds are spent, the City will use committed funds first, assigned funds second and unassigned funds last.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the City.

As of June 30, 2016, the Bus Fund has a negative fund balance of \$19,362. Going forward the City intends to increase appropriations from the General Fund to the Bus Fund to eliminate the negative fund balance and to keep the City's buses operational.

O. Budgeting

The City follows the procedures established pursuant to Section 91A.030 of the Kentucky Revised Statutes in establishing the budgetary data reflected in the financial statements. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles.

Budgeted amounts in the financial statements are as adopted by ordinance of the City.

CITY OF LA GRANGE, KENTUCKY
NOTES TO FINANCIAL STATEMENTS
June 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. Other Accounting Policies

Interfund transactions are reflected as transfers. Transfers occur for various reasons related to the day to day operations of the funds and are reported as receivables and payables as appropriate and are subject to elimination upon consolidation and are referred to as either "due to/from other fund" in the fund financial statements. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Q. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees' Retirement System (CERS) and additions to/deductions from CERS' fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

R. Management's Review of Subsequent Events

The City has evaluated and considered the need to recognize or disclose subsequent events through June 22, 2017, which represents the date these financial statements were available to be issued. Subsequent events past this date, as they pertain to the fiscal year ended June 30, 2016, have not been evaluated by the City.

Bonds Payable – City of La Grange General Obligation Bonds of 2010

The City issued bonds dated March 1, 2010 in the amount of \$1,730,000. These bonds were used to pay off a previous bond issue from 2000. The bonds mature annually from March 1, 2010 to March 1, 2020, in various amounts from \$100,000 to \$210,000. Interest at 2-3.5% per annum is payable September 1 and March 1. Bonds maturing after March 1, 2011 are subject to early redemption provisions.

The bonds are payable from, and secured by, a pledge of gross revenues derived from the operation of the golf course. If the revenues from the golf course are not sufficient to cover the annual debt service, the City has agreed to levy and collect, each year that the bonds are outsourcing, a bond tax in an amount sufficient to provide for the full payment of the principal and interest of the bonds.

7. RETIREMENT PLAN

CERS

The City of La Grange is a participating employer of the County Employees' Retirement System (CERS). Under the provisions of Kentucky Revised Statute 61.645, the Board of Trustees of Kentucky Retirement Systems administers the CERS. The plan issues publicly available financial statements which may be downloaded from the Kentucky Retirement Systems website.

Plan Description – CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the System. The plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost-of-living (COLA) adjustments are provided at the discretion of state legislature.

Contributions – For the year ended June 30, 2016, plan members were required to contribute 5% of wages for non-hazardous job classifications and 8% of wages for hazardous job classifications. Employees hired after September 1, 2008 are required to contribute an additional 1% to cover the cost of medical insurance that is provided through CERS. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last proceeding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial basis adopted by the Board. For the year ended June 30, 2016, participating employers contributed 17.06% of each employee's wages for non-hazardous job classifications and 32.95% of each employee's wages for hazardous job classifications. The contribution rates are equal to the actuarially determined rate set by the Board. Administrative costs of Kentucky Retirement System are financed through employer contributions and investment earnings.

Plan members who began participating on, or after, January 1, 2014, were required to contribute to the Cash Balance Plan. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Plan members contribute 5% of wages to their own account for non-hazardous job classifications and 8% of wages to their own account for hazardous classifications. Plan members also contribute 1% to the health insurance fund. The employer contribution rate is set annually by the Board based on an actuarial valuation. The employer contributes a set percentage of each member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. Each member's account is credited with a 4% employer pay credit for non-hazardous members, and a 7.5% pay credit for hazardous members. The employer pay credit represents a portion of the employer contribution.

For the year ended June 30, 2016, the City contributed \$165,561, or 100% of the required contribution for non-hazardous job classifications, which was allocated \$120,531 to the CERS pension fund and \$45,030 to the CERS insurance fund. The City contributed \$239,305, or 100% of the required contribution for hazardous job classifications, which was allocated \$147,142 to the CERS pension fund and \$92,163 to the CERS insurance fund.

7. RETIREMENT PLAN (CONTINUED)

Benefits – CERS provides retirement, health insurance, death and disability benefits to Plan employees and beneficiaries. Employees are vested in the plan after five years' service. For retirement purposes, employees are grouped into three tiers based on hire date:

Tier 1	Participation date Unreduced retirement Reduced retirement	Before September 1, 2008 27 years service or 65 years old At least 5 years service and 55 years old or 25 years service and any age
Tier 2	Participation date Unreduced retirement Reduced retirement	September 1, 2008 - December 31, 2013 At least 5 years service and 65 years old or age 57+ and sum of service years plus age equal 87 At least 10 years service and 60 years old
Tier 3	Participation date Unreduced retirement Reduced retirement	After December 31, 2013 At least 5 years service and 65 years old or age 57+ and sum of service years plus age equal 87 Not available

Cost of living adjustments are provided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components. Participating employees become eligible to receive the health insurance benefit after at least 180 months of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death. The decedent's beneficiary will receive the higher of the normal death benefit and \$10,000 plus 25% of the decedent's monthly final rate of pay and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five years' service is required for nonservice-related disability benefits.

Pension Liabilities, Expense, Deferred Outflows of Resources and Deferred Inflows of Resources – At June 30, 2016, the City reported a liability for its proportionate share of the net pension liability as follows:

Total Net		
Pension Liability	Non-hazardous	Hazardous
<u>\$ 3,759,071</u>	<u>\$ 1,695,033</u>	<u>\$ 2,064,038</u>

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. The City's proportionate share at June 30, 2016 was as follows:

Non-hazardous	Hazardous
.020%	.134%

The proportionate share at June 30, 2016 relative to June 30, 2015 was substantially identical for non-hazardous and decreased for hazardous by .06%.

City contributions subsequent to the measurement date	<u>267,673</u>	<u>-</u>
Total	<u>\$ 707,173</u>	<u>\$ 26,268</u>

The \$267,673 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending June 30,	
2017	\$ 112,608
2018	112,608
2019	77,372

Actuarial Assumptions – The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Non-hazardous

Inflation	3.25%	
Salary increases	4.00%, average, including inflation	
Investment rate of return	7.50%, net of Plan investment expense, including inflation	

Hazardous

Inflation	3.25%	
Salary increases	4.00%, average, including inflation	
Investment rate of return	7.50%, net of Plan investment expense, including inflation	

Mortality rates were based on the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP- 2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2008 - June 30, 2013.

7. RETIREMENT PLAN (CONTINUED)

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. Several factors are considered in evaluating the long-term rate of return assumptions including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer time frame. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target allocation and best estimates of nominal real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Nominal Real Rate of Return
Combined Equity	44%	5.4%
Combined Fixed Income	19%	1.5%
Real Return (Diversified Inflation Strategies)	10%	3.5%
Real Estate	5%	4.5%
Absolute Return (Diversified Hedge Funds)	10%	4.25%
Private Equity	10%	8.5%
Cash Equivalent	<u>2%</u>	-.25%
Total	<u>100%</u>	

Discount Rate – The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 29 year amortization period of the unfunded actuarial accrued liability. The actuarial determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period. The discount rate does not use a municipal bond rate.

7. RETIREMENT PLAN (CONTINUED)

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate
 – The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

	Non-hazardous		Hazardous	
	Discount rate	City's proportionate share of net pension liability	Discount rate	City's proportionate share of net pension liability
1% decrease	6.50%	\$ 2,163,926	6.50%	\$ 2,642,034
Current discount rate	7.50%	\$ 1,695,033	7.50%	\$ 2,064,038
1% increase	8.50%	\$ 1,293,477	8.50%	\$ 1,585,149

Payable to the Pension Plan – At June 30, 2016, the City reported a payable of \$8,102 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2016. The payable includes both the pension and insurance contribution allocation.

8. OPERATING LEASE

On January 7, 2013, the golf course entered into an operating lease with PNC Equipment Finance, LLC to lease 58 golf carts. The lease terms call for 24 payments of \$8,526. The payments are made six months at a time from May through October. The future lease obligations at June 30, 2016, are as follows:

Fiscal Year	
2017	\$ <u>34,104</u>

Operating lease expense for the year ended June 30, 2016, totaled \$ 51,156.

9. PROPERTY TAX CALENDAR

Property taxes for fiscal year 2016 were levied in September 2015 on the assessed property located in the City as of the preceding January 1. The assessments are determined by the County Property Valuation Administrator in accordance with Kentucky Revised Statutes. The due date collection periods for all taxes exclusive of vehicle taxes are as follows:

Description	Due Date
1. Due date for payment	Upon receipt
2. Discount of 2%	November 15
3. Face value payment period	December 15
4. 10% penalty delinquent date	December 16

These taxes are collected by the City Clerk. Vehicle taxes are collected by the County Clerk of Oldham County and are due and collected in the birth month of the licensee.

10. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. In addition to its general liability insurance, the city also carries commercial insurance for all other risks of loss such as worker's compensation and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

11. INVESTMENT IN JOINT VENTURE – OLDHAM-LAGRANGE DEVELOPMENT AUTHORITY

Oldham-LaGrange Development Authority (OLDA) was formed as a non-profit, non-stock corporation as provided by the Local Industrial Development Authority Act under KRS 154.50. The City of La Grange, Kentucky and the County of Oldham, Kentucky formed the Development Authority under an interlocal Cooperation Agreement. The purpose of the Development Authority is to promote economic development and create jobs within the boundaries of the City and County by financing through the Government Authority the acquisition and development of property.

The City of La Grange issued General Obligation Lease Revenue Notes, 2005 Series A, 2005 Series B, 2005 Series C, and 2005 Series D dated July 1, 2005 for \$10,000,000 for the purchase of land and infrastructure improvements thereto, by way of the Development Authority. The proceeds were turned over to the Oldham-LaGrange Development Authority. The Lease Revenue Notes are to be paid with the proceeds from the sale and use of property managed by the Development Authority.

On December 1, 2008, OLDA, through the City of La Grange, issued \$5,215,000 of general obligation lease revenue refunding bonds. The bonds were issued to (1) purchase an escrow scheduled to mature at such times and in such amounts as are necessary and will be adequate, with investment or reinvestment thereof, to meet the currently scheduled interest requirements of the 2005 Series C bonds and (2) pay or refund in advance of maturity, the remaining principal, accrued interest and premium of the City of La Grange bonds, Series of 2005 A and B, dated August 3, 2005 and (3) pay the bond issuance expenses.

On January 21, 2010, the Oldham-LaGrange Development authority through the City of La Grange, issued \$7,555,000 of general obligation lease revenue refunding bonds. The bonds were issued to (1) purchase an escrow scheduled to mature at such times and in such amounts as are necessary and will be adequate, with investment or reinvestment thereof, to meet the currently scheduled interest requirements of the 2010 series bonds and (2) pay or refund in advance of maturity, the remaining principal, accrued interest and premium of the City of La Grange bonds, Series of 2005 C, dated August 3, 2005 and Series 2008 bonds dated December 1, 2008 and (3) pay the bond issuance expenses.

On May 25, 2012, OLDA, through the City, issued \$8,100,000 of 2012 Series A general obligation lease revenue refunding bonds to replace the City 2010 Series A general obligation lease refunding bonds. The bonds were issued to (1) purchase an escrow scheduled to mature at such times and in such amounts as are necessary and will be adequate, with investment or reinvestment thereof, to meet the currently scheduled interest requirements of the 2012 Series bonds and (2) pay or refund in advance of maturity, the remaining principal, accrued interest, and premium of the City 2010 Series A general obligation lease revenue refunding and (3) pay the bond issuance expenses.

On June 30, 2014, the City issued \$10,925,000 of 2014 First Series C general obligation revenue bonds to redeem both the 2012 Series A general obligation lease revenue refunding bonds and the 2005 Series D general obligation lease revenue notes. The 2012 Series A General Obligation Lease Revenue Refunding Bonds were redeemed in July 2014. The 2005 Series D General Obligation Revenue Notes were redeemed with funds placed in escrow on June 1, 2015. The 2014 First Series C bonds will be reported on the financial statements as a liability of the City and are scheduled to be paid by the City over a period of ten years. See footnote 5 for additional information regarding the 2014 First Series C General Obligation Revenue Bonds.

15. SUBSEQUENT EVENTS

Kentucky Bond Corporation Financing Program Revenue Bonds Series 2016D

On November 30, 2016, the City issued \$1,100,000 of general obligation revenue bonds through a pooled financing transaction with the Kentucky Bond Corporation. The proceeds were used to refund the lease agreement entered into on March 28, 2007 with the Kentucky Area Development Districts Financing Trusts. Payments on the Series 2016D revenue bonds are scheduled to be paid over a period of 11 years, with principal and interest payments beginning in February 2017. The new debt issue will decrease debt service payments by \$97,935 and has a net economic gain of \$79,607. The bonds have a net interest cost of 2.84% over the repayment term.

La Grange Utilities Commission

On January 25, 2015, authorized representatives of the Energy and Environment Cabinet identified multiple violations of KRS Chapter 224. The Commission is currently implementing a corrective action plan that includes a project with an estimated total cost of \$3.6 million which is roughly 17% complete as of the date of this report.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Mayor and City Council
City of La Grange, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of La Grange, Kentucky, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City of La Grange, Kentucky's basic financial statements and have issued our report thereon dated June 22, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of La Grange, Kentucky's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of La Grange, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of La Grange, Kentucky's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified a certain deficiency in internal control that we consider to be a material weakness and a certain deficiency we consider to be a significant deficiency.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency (2016-001) described in the accompanying schedule of findings and responses to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency (2016-002) described in the accompany schedule of findings and responses to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of La Grange, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The City of La Grange, Kentucky's Response to Findings

The City of La Grange, Kentucky's responses to the findings identified in our audit is described in the accompanying schedule of findings and responses. The City of La Grange, Kentucky's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CITY OF LA GRANGE, KENTUCKY
SCHEDULE OF FINDINGS AND RESPONSES
June 30, 2016

2016-001 *The City should have internal controls in place that enable it to accurately record all transactions including year-end accrual transactions.*

Criteria: The City is required to have internal controls in place that enable it to apply generally accepted accounting principles to its transactions. Specifically, this includes interfund transactions, payments-on-behalf of the City, accounting for property taxes and year-end accrual transactions.

Condition: Management was unable to prepare all year-end accruals and audit adjustments were needed for non-routine transactions.

Cause: The City executes basic and routine transactions throughout the year, however, the City does not apply generally accepted accounting principles to certain non-routine transactions recorded during the year and in making its year-end accruals.

Effect: Management relied on the auditor's year-end adjustments to bring the City's accounting records into compliance with generally accepted accounting principles. Management reviewed, approved and accepted responsibility for the adjusting journal entries prior to the issuance of the financial statements.

Recommendation: We recommend management review the costs and benefits involved to retain a consultant with the required expertise to advise the City during the year concerning non-routine transactions and to assist the City with its year-end close so that the City's accounting records will be in compliance with generally accepted accounting principles.

Management's Response: This is an ongoing finding. Management has determined that it is more cost effective to continue to rely on the auditor's adjustments to bring the City's accounting records into compliance with generally accepted accounting principles.

2016-002 *The City should have internal controls in place that enable it to prepare complete financial statements.*

Criteria: The City is required to have internal controls in place that enable it to prepare complete financial statements, including note disclosures, in compliance with generally accepted accounting principles.

Condition: Management was unable to prepare draft financial statements, including the related notes to the financial statements.

Cause: The City lacks personnel with the expertise to apply generally accepted accounting principles in preparing its financial statements including note disclosures and thus, does not have the internal control procedures required to draft the financial statements in conformity with generally accepted accounting principles.

Effect: Management engaged the auditor to prepare draft financial statements, including the related notes to the financial statements. Management reviewed, approved and accepted responsibility for the financial statements prior to their issuance.

Recommendation: We recommend management review the costs and benefits involved to retain a consultant with the required expertise to prepare the financial statements or review the financial statements as prepared by the auditor for compliance with generally accepted accounting principles.

Management's Response: This is an ongoing finding. Management has determined that it is more cost effective to continue to engage the auditor to draft the financial statements and related notes.
