### INDEPENDENT AUDITOR'S REPORT

To the Mayor and City Council City of Morgantown, Kentucky

### Report on the Audit of the Financial Statements

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Morgantown, Kentucky, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the City of Morgantown, Kentucky's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component unit, and each major fund of the City of Morgantown, Kentucky, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Morgantown, Kentucky and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Morgantown, Kentucky's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Morgantown, Kentucky's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Morgantown, Kentucky's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 30 through 32 and certain pension and OPEB information on pages 33 and 34 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The City of Morgantown, Kentucky has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 2, 2024, on our consideration of the City of Morgantown, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Morgantown, Kentucky's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Morgantown, Kentucky's internal control over financial reporting and compliance.

# CITY OF MORGANTOWN, KENTUCKY STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE – GOVERNMENTAL FUND (Continued) Year Ended June 30, 2023

### Net change in fund balances – total governmental funds

\$ (2,509,163)

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.

3,068,088

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued; whereas, these amounts are deferred and amortized in the statement of activities.

Amortization of debt premium 14,044
Principal payments 127,083

Some expenses reported in the statement of activities do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds:

 Pension expense
 (53,167)

 OPEB expense
 (83,213)

Change in net position of governmental activities

563,672

### **NOTE 1. SIGNIFICANT ACCOUNTING POLICIES**

The City of Morgantown, Kentucky, (the "City") operates under a mayor-council form of government and provides the following services authorized by its charter: public safety (police and fire department), highways and streets, recreational, planning and zoning, cemetery, industrial development, general administrative services, and utilities (water, sewer, and gas).

The financial statements of the City have been prepared in accordance with generally accepted accounting principles ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards, which along with subsequent GASB pronouncements (Statements and Interpretations) constitutes GAAP for governmental units. The more significant of the City's accounting policies are described below.

### **Reporting Entity**

In evaluating how to define the City for financial reporting purposes, all potential component units have been considered. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic - but not only - criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, and the ability to significantly influence operations and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the City is able to exercise oversight responsibilities.

Based upon the above criteria, the Morgantown City Tourism and Convention Commission (the "Tourism Commission") and the Industrial Holding Corporation (the "IHC") are included as blended component units of the City. The Tourism Commission was created by ordinance to account for monies derived from a restaurant transient tax. The monies are to be used to promote convention and tourist activity in Morgantown. The City appoints the Commissioners and has the ability to impose its will on the organization.

The Morgantown Utilities Commission (the "Utilities Commission") is included as a discretely presented component unit of the City. The Utilities Commission operates under Kentucky Statutes KRS 91A.350-400 and KRS 142.400-408. The Board of Directors are appointed by the Mayor through prescribed procedures as outlined in KRS 91A.360. The Utilities Commission provides gas, water, and sewer services in the City. The City has the authority to appoint the Utilities Commission's governing body and the ability to impose its will on the Utilities Commission. The Utilities Commission is separately audited, and a copy of the independent auditor's report can be obtained by writing to the Morgantown Utilities Commission at 1308 S. Main Street, Morgantown, KY 42261.

### **Government-Wide and Fund Financial Statements**

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the City as a whole. Individual funds are not displayed, but the statements distinguish governmental activities generally supported by taxes and the City's general revenues, which primarily rely on fees and charges for support.

### NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with distinct functional activity. Program revenues include: (1) charges for services which report fees, fines, and forfeitures, and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities, including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

Fund financial statements are provided for governmental funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented following each statement which briefly explains the adjustments necessary to transform the fund-based financial statements into the governmental column of the government-wide presentation.

The statement of net position presents assets and liabilities, with the difference reported as net position. Net position is reported in three categories:

- Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding debt that is related to the acquisition, construction, and improvement of capital assets. The outstanding debt is also offset by any unspent proceeds from such debt.
- Restricted net assets result from restrictions placed by external sources such as creditors, grantors, and contributors, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net assets consist of net position which does not meet the definition of the two preceding categories.

The statement of activities demonstrates the degree to which the direct expenses of a given function or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or program. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources, such as taxes and other items not properly included among program revenues, are reported instead as general revenues.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The City considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred.

### **NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Major governmental revenues sources susceptible to accrual include property taxes, franchise taxes (fees), and intergovernmental revenues. In general, other revenues are recognized when cash is received.

GASB No. 54 defines how fund balances of governmental funds are presented in the financial statements. Fund balances are classified as follows:

<u>Non-spendable</u> - Amounts that cannot be spent either because they are not in a spendable form or they are legally or contractually required to be maintained intact.

<u>Restricted</u> - Amounts that can be spent only for specific purposed city charter, city code, state or federal laws, or extremely imposed conditions by grantors or creditors.

<u>Committed</u> - Amounts that can be used only for specific purposes determined by a formal action by city council ordinance.

<u>Assigned</u> - Amounts that are designated by the Mayor for a specific purpose but are not spendable until a budget or ordinance is passed by City Council.

<u>Unassigned</u> - All amounts not included in other spendable classifications.

The activities from the Utilities Commission use the accrual basis of accounting, which is the same method of accounting used to reflect their discretely presented activity in the government-wide statements. Non-operating revenues such as interest income and other income not from the delivery of services are reported after income from operations.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as needed. It is the policy of the City to eliminate internal activity in the government-wide financial statements.

### **Fund Types and Major Funds**

The City reports the General Fund as its major governmental fund and the primary operating fund of the City. The General Fund was established to account for resources devoted to financing the general services that the City performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the City are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established. The General Fund is considered a major fund.

Special revenue funds are established to account for the proceeds of specific revenue sources other than special assessments, expendable trusts, or major capital projects that are legally restricted to expenditures for a specific purpose. The City has two special revenue funds, which account for specific revenues and expenditures of the Tourism Commission and the Industrial Holding Corporation.

The Tourism Commission special revenue fund is a major fund and reports revenues from a restaurant transient tax. The Industrial Holding Corporation special revenue fund is a major fund and reports revenues from property leases and interest income from financing property sales. The Industrial Holding Corporation fund holds title to various real estate properties in the City and is responsible for mortgage debt on the properties.

### **NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

### **Cash and Investments**

The City's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cost approximates fair value.

The City is authorized by statute to invest in: (1) obligations of the United States and of its agencies and instrumentalities; (2) bonds or certificates of indebtedness of this state and of its agencies and instrumentalities; (3) shares of any savings and loan association insured by an agency of the government of the United States up to the amount so insured; and (4) interest-bearing deposits in national or state banks chartered in Kentucky and insured by an agency of the government of the United Stated up to the amount so insured, and in larger amounts providing such banks shall pledge as security obligations of the United States government, its agencies and instrumentalities.

### **Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

### **Capital Assets and Depreciation**

The City's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. The City maintains infrastructure asset records consistent with all other capital assets. Donated assets are stated at fair value on the date donated. The City generally capitalizes assets with cost of \$500 or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized.

Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Construction interest is capitalized. Estimated useful lives for depreciable assets are as follows:

	Years
Buildings	40-50
Improvements, other than buildings	20-50
Utility Distribution System	20-50
Infrastructure	12-25
Equipment and Furnishings	5-10
Vehicles	2-25

For information describing capital assets, see Note 5.

### **Compensated Absences**

The City permits employees to carry forward unused vacation time from one calendar year to the next not to exceed forty (40) working days. Employees may accumulate sick leave throughout employment. Upon termination of employment, employees are paid for accumulated vacation and one half of accumulated sick leave computed at their hourly rate at the time of separation from service.

### **Long-term Obligations**

In the government-wide financial statements and component unit proprietary fund financial statements, long-term debt and obligations are reported as liabilities in the applicable governmental activities or component unit proprietary fund statement of net position. The governmental fund financial statements recognize the proceeds of debt as other financing sources of the current period.

### **NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

### **Property Tax**

Taxes are levied in September and are payable through December 31 of each year, becoming delinquent as of January 31. The City bills and collects its own property taxes. City property tax revenues are recognized when levied to the extent that they are both measurable and available.

The 2022 tax rate was \$0.093 per \$100 assessed valuation for real property and \$0.093 per \$100 assessed valuation for tangible property. The City is permitted by the State Constitution to levy taxes up to \$0.75 per \$100 assessed valuation; however, according to statutes, the City may not increase the tax rate on real property by more than four percent per year (exclusive of assessment growth) without obtaining consent through referendum.

Motor vehicle taxes are due and collected in the birth month of the vehicle's licensee. They are collected by the County Clerk of Butler County and remitted to the City monthly.

### **Estimates**

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities (and disclosure of contingent assets and liabilities) at the date of the financial statements and of reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### **Subsequent Events**

Management has evaluated subsequent events through February 2, 2024, the date financial statements were available to be issued.

### **NOTE 2. BUDGETARY INFORMATION**

The Mayor submits an annual budget to the City Council in accordance with the City Charter and Kentucky Revised Statutes. The budget is presented to the City Council for review, and public hearings are held to address priorities and the allocation of resources. In June, the City Council adopts the annual fiscal year budgets for City operating funds. Once approved, the City Council may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

The budget is prepared on a detailed line-item basis. Revenues are budgeted by source. Expenditures are budgeted by department and class. The Mayor is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter total expenditures of any fund must be approved by the City Council. Total expenditures for a fund legally may not exceed the total appropriations. The budget is usually amended near year end.

### NOTE 3. CASH, CASH EQUIVALENTS, AND CUSTODIAL CREDIT RISK

Under Kentucky Revised Statute 66.480, the City is allowed to invest in obligations of the U.S. Treasury and U.S. agencies, obligations of the Commonwealth of Kentucky and its agencies, insured savings and loans, and interest-bearing deposits of insured national or state banks.

Custodial credit risk is the risk that in an event of a bank failure, the City's deposits may not be returned to it. The City's deposit policy for custodial credit risk requires compliance with the provisions of state law. State law requires collateralization of all deposits with federal depository insurance; letters of credit issued by federal home loan banks; bonds, notes, letters of credit, or other obligations of the U.S. Treasury, U.S. agencies, or instrumentalities of the state of Kentucky; bonds of any city of the first, second, and third classes, county, school district, or educational institution of the state of Kentucky; or surety bonds having an aggregate current face value or current quoted market value at least equal to the amount of the deposits in excess of amounts insured by the FDIC.

Deposits are categorized to give an indication of the level of risk assumed by the City at fiscal year-end. The categories are described as follows:

- Category 1 insured
- Category 2 collateralized with securities held by the pledging financial institution's trust department or agent in the City's name
- Category 3 collateralized with securities held by the pledged financial institution in the institution's name
- Category 4 uninsured

At June 30, 2023, the book balance of the City's deposits was \$2,480,112, and the bank balances totaled \$2,632,827. The book balance of the Utilities Commission's deposits and certificates of deposit was \$770,251 and the bank balance was \$779,245.

Deposits at June 30, 2023, categorized by level of risk were:

	C	Category	C	ategory	ry Category		egory Category		Bank	Book
		1		2		3		4	Balance	Balance
Primary government	\$	609,344	\$ 2	2,023,483	\$	-0-	\$	-0-	\$ 2,632,827	\$ 2,480,112
Component unit		250,000		529,245		-0-		-0-	779,245	770,251
Total	\$	859,344	\$ 2	2,552,728	\$	-0-	\$	-0-	\$ 3,412,072	\$ 3,250,363

### **NOTE 4. NOTE RECEIVABLE**

The City of Morgantown agreed to loan Pride Plastics of Morgantown funds not to exceed \$150,000 for the expansion of their Morgantown operations. These funds are to be repaid over a ten-year period at 1.75% interest, consisting of 120 monthly payments. Repayment commenced when the final loan balance was determined. The total amount loaned by the City to the company was \$105,000. The balance of the loan as of June 30, 2023 was \$102,959. There were no repayments received in the current year or the preceding seven years. Because of the lack of payments, the City recorded an allowance for doubtful accounts of \$102,959.

### **NOTE 5. CAPITAL ASSETS**

The following is a summary of changes in capital assets for the fiscal year ended June 30, 2023:

### **Governmental Activities**

### **NOTE 6. LONG-TERM OBLIGATIONS**

The following is a summary of changes in long-term debt of the City for the year ended June 30, 2023:

	Balance <u>07-01-22</u>	Increases	<u>Decreases</u>	Balance <u>06-30-23</u>	Current <u>Portion</u>
General obligation lease (a)	3,132,917	-0-	(127,084)	3,005,833	130,000
Premium on lease (a)	<u>265,656</u>		(14,043)	251,613	
Total governmental activities	\$3,398,573	<u>\$ -0-</u>	<u>\$(141,127)</u>	\$3,257,446	\$ 130,000

### (a) General Obligation Lease – Kentucky Bond Corporation Series 2021B

On April 21, 2021, the city entered into a lease agreement with the Kentucky Bond Corporation to finance a capital project of significant renovation to the City park. Proceeds of the variable rate (3.00% to 3.75%) lease agreement totaled \$3,285,000. There was also a premium of \$280,870 associated with the lease, and it is amortized over the life of the lease.

Future minimum annual lease payments under this agreement at June 30, 2023 are as follows:

June 30,	Principal		Interest		Total
2024	\$ 130,000	\$	98,140	\$	228,140
2025	132,083		93,915		225,998
2026	137,083		89,622		226,705
2027	142,083		85,167		227,250
2028	147,083		80,549		227,632
2029 – 2033	810,417		327,792		1,138,209
2034 – 2038	952,500		187,283		1,139,783
2039 – 2041	 554,584		34,583	_	589,167
	\$ 3,005,833	<u>\$</u>	997,051	<u>\$</u>	4,002,884

The following is a summary of changes in long-term debt of the Utilities Commission for the year ended June 30, 2023:

Balance				E	Balance	C	urrent			
	07	/01/22	<u>Increases</u>			<u>Decreases</u> <u>06/30/2</u>			<u> P</u>	ortion
<b>Huntington National Bank</b>	\$	-0-	\$	72,500	\$	(15,664)	\$	56,836	\$	13,230

In August 2022, the Commission entered into a five-year capital lease agreement with Huntington National Bank for the acquisition of a vacuum excavator. The financed amount of the lease was \$72,500. The interest rate is 4.68%, and the lease is payable in five annual installments of \$15,947. The lease ends in September 2027.

### **NOTE 6. LONG-TERM OBLIGATIONS (Continued)**

The future principal and interest lease payments as of June 30, 2023 are as follows:

June 30,	Principal			Interest	Total		
2024	\$	13,230	\$	2,717	\$	15,947	
2025		13,862		2,085		15,947	
2026		14,525		1,422		15,947	
2027		15,219		728		15,947	
	\$	56,836	\$	6,952	\$	63,788	

### **NOTE 7. DEPRECIATION EXPENSE**

Depreciation expense was charged to functions/programs as follows:

Governmental a	activities
----------------	------------

General government	\$ 51,039
Police	42,967
Fire	22,401
Highways and streets	157,815
Recreational	162,233
Cemetery	1,075
Industrial Holding Corporation	8,440
	<u>\$ 445,970</u>
Component unit	
Utility Commission	<u>\$ 168,984</u>

### **NOTE 8. INTEREST EXPENSE**

Interest expense was charged as a direct expense to governmental activities as follows:

General government \$ 88,226

### NOTE 9. RISK MANAGEMENT – INSURANCE

The City and Utilities Commission are exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, employee injuries, and natural disasters. The City and Utilities Commission carry commercial insurance coverage for all risks of loss, including workers' compensation and natural disasters. Any settled claims have not exceeded this commercial coverage in the current year or any of the prior three years.

### **NOTE 10. PENSION PLAN**

### **Plan Description**

The City and Utilities Commission are participating employers of the County Employees' Retirement System ("CERS"). CERS is a cost-sharing, multiple-employer defined benefit pension plan that covers substantially all regular full-time employees (members) employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the plan. Under the provisions of Kentucky Revised Statute 61.645, the Board of Trustees of Kentucky Public Pensions Authority ("KPPA") administers the CERS. The plan issues publicly available financial statements on the KPPA website at http://kyret.ky.gov/.

### **NOTE 10. PENSION PLAN (Continued)**

The Plan is divided into both a pension plan and a health insurance fund plan (OPEB), and each plan is further subdivided based on non-hazardous and hazardous duty covered employee classifications. The City has both non-hazardous and hazardous employees, and the Utilities Commission has only non-hazardous employees.

### **Benefits Provided**

CERS provides for retirement, disability, and death benefits to plan members. Members are vested in the plan after five years' service credit. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost-of-living adjustments ("COLA") are provided at the discretion of state legislature. Senate Bill 2 of 2013 eliminated all future COLAs unless state legislature so authorizes on a biennial basis and either (i) the system is over 100% funded or (ii) the state legislature appropriates sufficient funds to pay the increased liability for the COLA. For retirement purposes, employees are grouped into three tiers based on hire date. Tier 1 includes plan members whose participation began on or after September 1, 2008 but before January 1, 2014, and Tier 3 includes plan members whose participation began on or after January 1, 2014.

Tier 1 non-hazardous members are eligible to retire with an unreduced retirement benefit at age 65 with four years of service credit or after 27 years of service credit regardless of age. Benefits are determined by a benefit formula calculation based on final compensation multiplied by a benefit factor multiplied by years of service. Tier 1 final compensation is the average of the five highest years' earnings, the benefit factor is 2.20% for members participating prior to August 1, 2004, and 2.00% for members participating on or after August 1, 2004 and before September 1, 2008.

Reduced benefits for early retirement are available at age 55 with five years' service credit or at age 57 based on the Rule of 87 – sum of service years plus age equal to 87. Final compensation for Tier 2 benefit formula calculation is the average of the last complete five years' earnings, and the benefit factor is an increasing percentage based on service at retirement plus 2.00% for each year of service over 30. Reduced benefits for early retirement are available at age 60 with 10 years of service. Tier 3 non-hazardous members are eligible to retire with an unreduced retirement benefit at age 65 with five years' service credit or at age 57 based on the Rule of 87. Tier 3 members are not eligible for reduced retirement benefits. Tier 3 is a hybrid cash balance plan. When a member is eligible to retire, the benefit is calculated based on the member's accumulated account balance. A member earns service credit for each month contributing to the plan. Upon retirement, the hypothetical account, which includes member contributions, employer contributions, and interest credits, can be withdrawn in a lump sum or annuitized into a single life annuity option.

Tier 1 hazardous members are eligible to retire with an unreduced retirement benefit at age 55 with five years of service credit or after 20 years of service credit regardless of age. Benefits are determined by the benefit formula detailed above. The calculation is based on an average of the three highest years' earnings, a 2.50% benefit factor, and years of service. Reduced benefits for early retirement are available at age 50 with 15 years of service credit. Tier 2 hazardous members are eligible to retire at any age with 25 years of service or at age 60 with 5 years of service credit. The benefit formula calculation is based on an average of the three highest complete years' earnings, an increasing percent benefit factor based on service at retirement, and years of service. Tier 3 hazardous members are also eligible to retire at any age with 25 years of service or at age 60 with 5 years of service. Tier 3 members are not eligible for reduced retirement benefits.

### **NOTE 10. PENSION PLAN (Continued)**

Death benefits are provided for both death after retirement and death prior to retirement. Members receiving a monthly benefit based on at least four years of creditable service are eligible for a \$5,000 death benefit. Beneficiaries of deceased members are eligible for a monthly benefit if the member was (i) eligible for retirement at the time of death or, (ii) under the age of 55 with at least 60 months of service credit and currently working for a participating agency at the time of death or, (iii) no longer working for a participating agency but at the time of death had at least 144 months of service credit. If the beneficiary of a deceased active member is not eligible for a monthly benefit, the beneficiary will receive a lump sum payment of the member's contributions and any accumulated interest.

Members participating before August 1, 2004 may retire on account of disability provided the member has at least 60 months of service credit and is not eligible for an unreduced benefit. Additional service credit may be added for computation of benefits under the benefit formula. Members participating on or after August 1, 2004 but before January 1, 2014 may retire on account of disability provided the member has at least 60 months of service credit. Benefits are computed as the higher of 20% of the final rate of pay or the amount calculated under the benefit formula based upon actual service. Members participating on or after January 1, 2014 may retire on account of disability provided the member has at least 60 months of service credit. The hypothetical account, which includes member contributions, employer contributions, and interest credits, can be withdrawn as a lump sum or an annuity equal to the larger of 20% of the member's monthly final rate of pay or the annuitized hypothetical account into a single life annuity option. Members disabled as a result of a single duty-related injury or act of violence related to their job may be eligible for special benefits.

### **CERS Contributions**

Employee contribution rates are set by statutes governing the Kentucky Retirement System and may only be changed by the Kentucky General Assembly. Participating employers are required to contribute at an actuarially determined rate. Per Kentucky Revised Statutes Section 61.565(3), normal contribution and actuarially accrued liability contribution rates shall be determined by the Board of Trustees on the basis of annual actuarial valuation last preceding the July 1 of a new biennium.

The Board may amend contribution rates as of July of the second year of a biennium if it determines on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with the actuarial basis adopted by the Board. The normal contribution rate (the percentage computed of employee creditable compensation) shall be determined by the entry age normal cost funding method. The actuarially accrued liability shall be determined by actuarial method consistent with the methods prescribed for determining the normal contribution rate. The actuarially accrued liability contribution shall be computed by amortizing the total unfunded actuarially accrued liability over a period of 30 years using the level-percentage-of-payroll amortization method. Administrative costs of CERS are financed through employer contributions and investment earnings.

Plan members participating in CERS on or before August 31, 2008 (Tier 1), with non-hazardous and hazardous duty positions, were required to contribute 5% and 8%, respectively, of their annual creditable compensation. For plan members who began participating on or after September 1, 2008 but before January 1, 2014 (Tier 2), with non-hazardous and hazardous duty positions, contribution rates were 6% and 9%, respectively, of annual creditable compensation. The additional 1% is deposited to an account created for the payment of health insurance benefits under 26 USC Section 401(h) in the Pension Fund (Kentucky Administrative Regulation 105 KAR 1:420E). Plan members participating in CERS on or after January 1, 2014 (Tier 3) were required to contribute to the hybrid cash balance plan. Plan members and employers contribute a set percentage of creditable compensation into the member's account. Members contribute 5% (non-hazardous) and 8% (hazardous) of their annual creditable compensation and 1% to the health insurance fund, which is not credited to the member's account and is not refundable. Employers contribute 4% (non-hazardous) and 7.5% (hazardous) of creditable compensation into the member's hypothetical account.

### **NOTE 10. PENSION PLAN (Continued)**

For the year ended June 30, 2023, the City contributed 26.79% non-hazardous (23.40% for the pension fund and 3.39% for insurance) and 49.59% hazardous (42.81% for the pension fund and 6.78% for insurance) of each employee's creditable compensation to CERS, in accordance with its actuarially determined contribution rate. The City's employer contributions to CERS for pension benefits were \$293,912 (\$109,696 non-hazardous and \$184,216 hazardous) for the year ended June 30, 2023.

### Pension Liabilities, Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources

At June 30, 2023, the City reported a liability of \$2,345,048 as its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 and rolled-forward using generally accepted actuarial principles. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2022, the City's proportionate share was 0.011535% for non-hazardous and 0.049522% for hazardous.

For the year ended June 30, 2023, the City recognized pension expense of \$53,167 in addition to its pension fund contributions of \$293,912. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	(	Deferred Outflows of	Deferred Inflows of		
		Resources	Resources		
Difference between expected and actual experience	\$	44,218	\$ 7,426		
Changes of assumptions		-0-	-0-		
Difference between projected and actual earnings on plan investments Changes in proportion and differences between employer		282,037	225,755		
contributions and proportionate share of contributions		150,195	8,818		
Company contributions subsequent to the measurement date		293,912	 -0-		
	\$	770,362	\$ 241,999		

The \$293,912 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024.

Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending June 30,		
2024	\$	66,640
2025		64,590
2026		32,438
2027		70,783
	¢	22/ /51

### **NOTE 10. PENSION PLAN (Continued)**

### **Actuarial Assumptions**

The total pension liability, net pension liability, and sensitivity information as of June 30, 2022, were based on an actuarial valuation date of June 30, 2021. The total pension liability was rolled forward from the valuation date to the measurement period ending June 30, 2022, using generally accepted actuarial principles.

The Board of Trustees adopted new actuarial assumptions for the period ended June 30, 2021. These assumptions are documented in the report titled "Kentucky Retirement Systems 2018 Actuarial Experience Study for the Period Ending June 30, 2020". The total pension liability as of June 30, 2022, was determined using these updated assumptions. The assumptions are:

Inflation 2.30%

Salary increases 3.30% to 10.30%

Payroll growth rate 2.00% Investment rate of return 6.25%

The mortality table used for active members was a Pub-2010 General Mortality table for the non-hazardous system projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. The mortality table used for healthy (non-disabled) retired members was a system specific mortality table based on mortality experience from 2013 – 2018, projected with the ultimate rate from the MP-2014 mortality improvement scale using a base year of 2019. The mortality table used for the disabled members was PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.

The long-term expected rate of return was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the table below.

		Long-term Expected
Acces Class	Target	Real Rate
Asset Class	Allocation	of Return
Public equity	50.00%	4.45%
Private equity	10.00%	10.15%
Core fixed income	10.00%	0.28%
Specialty credit	10.00%	2.28%
Cash	0.00%	-0.91%
Real estate	7.00%	3.67%
Real return	13.00%	4.07%
Total	100.00%	

### **Discount Rate**

The discount rate used to measure the total pension liability was 6.25% for the year ended June 30, 2021. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the City will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the KPPA Board of Trustees as required to be paid by state statute.

### **NOTE 10. PENSION PLAN (Continued)**

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 6.25%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25%) or 1-percentage-point higher (7.25%) than the current rate:

	1	1% Decrease (5.25%)		Current Rate (6.25%)		1% Increase (7.25%)	
Non-hazardous	\$	1,042,278	\$	833,905	\$	661,563	
Hazardous		1,882,376		1,511,143		1,208,796	
Total	\$	2,924,654	\$	2,345,048	\$	1,870,359	

### Payable to the Pension Plan

At June 30, 2023, the City reported a payable of \$53,549 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2023.

### NOTE 11. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Employees of the City are provided hospital and medical insurance through the Kentucky Retirement Systems' Insurance Fund (Insurance Fund), a cost-sharing, multiple-employer defined benefit OPEB plan. The Insurance Fund is administered by the Board of Trustees of the Kentucky Retirement Systems (KRS), pursuant to Kentucky Revised Statute Section 61.645 and covers substantially all regular full-time City employees (members). KRS issues publicly available financial statements on the KRS website at <a href="http://kyret.ky.gov/">http://kyret.ky.gov/</a>.

### **Benefits Provided**

The Insurance Fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. As a result of House Bill 290 (2004 Kentucky General Assembly), medical insurance benefits are calculated differently for members who began participating on or after July 1, 2003. Once members reach a minimum vesting period of 10 years, non-hazardous employees whose participation began on or after July 1, 2003, earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Hazardous employees whose participation began on or after July 1, 2003, earn \$15 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Upon death of a hazardous employee, the employee's spouse receives \$10 per month for insurance benefits for each year of the deceased employee's earned hazardous service. This dollar amount is subject to adjustment annually, which is currently 1.5% based upon Kentucky Revised Statutes. The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgement, the welfare of the Commonwealth so demands.

### NOTE 11. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

### **Contributions**

The contribution requirements of the participating employers are established and may be amended by the KPPA Board of Trustees. The City's contractually required contribution rate for the year ended June 30, 2023 was 3.39% (non-hazardous) and 6.78% (hazardous) of covered payroll. Contributions to the Insurance Fund were \$45,067 (\$15,892 non-hazardous and \$29,175 hazardous) for the year ended June 30, 2023. Employees that entered the plan prior to September 1, 2008, are not required to contribute to the Insurance Fund. Employees that entered the plan after September 1, 2008, are required to contribute 1% of their annual creditable compensation, which is deposited to an account created for the payment of health insurance benefits under 26 USC Section 401(h) in the Pension Fund (see Kentucky Administrative Regulation 105 KAR 1:420E).

The City's proportion of the collective net OPEB liability and OPEB expense was determined using the employers' actual contributions for fiscal year 2022. This method is expected to be reflective of the employers' long-term contribution effort. At June 30, 2023, the City's proportion was 0.011533% (non-hazardous) and 0.049497% (hazardous).

### **Net OPEB Liability**

At June 30, 2023, the City reported a liability of \$649,226 for its proportionate share of the net OPEB liability. The City's net OPEB liability was measured as of June 30, 2022 and was based on an actuarial valuation date as of June 30, 2021. The net OPEB liability was rolled-forward from the valuation date to the plan's fiscal year ending June 30, 2022, using generally accepted actuarial principles.

### **Actuarial Assumptions**

The total OPEB liability in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.30% Payroll growth rate 2.00%

Salary increases 3.30% to 10.30%

Investment rate of return 6.25%

Healthcare cost trend rates (Pre-65) Initial trend starting at 6.40% at January 1, 2022, and gradually

decreasing to ultimate trend rate of 4.05% over a period of 14 years.

Healthcare cost trend rates (Post-65) Initial trend starting at 6.30% at January 1, 2023, and gradually

decreasing to ultimate trend rate of 4.05% over a period of 13 years.

The mortality table used for active members was a Pub-2010 General Mortality table for the non-hazardous system projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. The mortality table used for healthy (non-disabled) retired members was a system specific mortality table based on mortality experience from 2013 – 2018, projected with the ultimate rate from the MP-2014 mortality improvement scale using a base year of 2019. The mortality table used for the disabled member was PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.

### NOTE 11. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

The long-term expected rate of return was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the table below.

		Long-Term
	Target	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return
Public equity	50.00%	4.45%
Private equity	10.00%	10.15%
Core fixed income	10.00%	0.28%
Specialty credit	10.00%	2.28%
Cash	0.00%	-0.91%
Real estate	7.00%	3.67%
Real return	13.00%	4.07%
Total	100.00%	

### **Discount Rate**

The discount rate used to measure the total OPEB liability was 5.70% for non-hazardous employees. The discount rate used to measure the total OPEB liability was 5.61% for hazardous employees. The discount rate is based on the expected rate of return on OPEB plan investments of 6.25% and a municipal bond rate of 3.69% as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 28, 2022. Based on the state assumptions and the projection of cash flows as of each fiscal year ending, the plan's fiduciary net position and future contributions were projected to be sufficient to finance future benefit payments of current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the retirement system.

However, the cost associated with the implicit employer subsidy was not included in the calculation of the retirement plan's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the retirement plan's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The target asset allocation and best estimates of arithmetic nominal real rates of return for each major asset class are summarized in the KPPA financial report.

### Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the collective net OPEB liability calculated using the discount rate of 5.70% (non-hazardous) and 5.61% (hazardous), as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.70% and 4.61%) or 1-percentage-point higher (6.70% or 6.61%) than the current rate:

	1% Decrease			urrent Rate	1% Increase		
Non-hazardous	\$	304,289	\$	227,618	\$	164,237	
Hazardous		585,812		421,608		288,244	
Total	\$	890,101	\$	649,226	\$	452,481	

### NOTE 11. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

### Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the City's proportionate share of the collective net OPEB liability as well as what the City's proportionate share of the collective net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rate:

	1% Decrease			urrent Rate	1% Increase		
Non-hazardous	\$	169,229	\$	227,618	\$	297,732	
Hazardous		294,404		421,608		576,664	
Total	\$	463,633	\$	649,226	\$	874,396	

### OPEB Expense, Deferred Outflows of Resources - OPEB, and Deferred Inflows of Resources - OPEB

At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$	32,228	\$ 77,168
Changes of assumptions		106,378	102,207
Difference between projected and actual earnings on plan investments Changes in proportion and differences between employer		130,524	105,897
contributions and proportionate share of contributions		48,173	11,884
City contributions subsequent to the measurement date	_	45,067	 -0-
	\$	362,370	\$ 297,156

The \$45,067 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Year ending June 30,	
2024	\$ 13,284
2025	5,344
2026	(12,267)
2027	20,337
2028	 (6,551)
	\$ 20,147

### **NOTE 12. PRIOR PERIOD ADJUSTMENT**

A miscalculation resulting in an overstated amount retirement payable at June 30, 2022 and overstated retirement expenses during the year ended June 30, 2022 was discovered in the current year. Accordingly, an adjustment of \$26,796 was made during the year ended June 30, 2023 to decrease the retirement payable, and a corresponding entry was made to increase the previously reported net position and the fund balance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and the City Council City of Morgantown, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Morgantown, Kentucky as of and for the year ended June 30, 2023 and the related notes to the financial statements, and have issued our report thereon dated February 2, 2024.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Morgantown, Kentucky's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Morgantown, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Morgantown, Kentucky's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Morgantown, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Hensley & Throneberry, CPAs February 2, 2024
