Independent Auditor's Report

Report on the Financial Statements

We have audited the accompanying financial statements of the Carter County Public Health Taxing District which comprise the Statement of Assets, Liabilities, and Fund Balance – Regulatory Basis as of and for the year ended June 30, 2020, and the related Statement of Revenues, Expenditures, and Changes in Fund Balance – Regulatory Basis, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the *Administrative Reference* established by the Commonwealth of Kentucky, Cabinet for Health and Family Services, Department for Public Health, Division of Administration and Financial Management as described in Note 2. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 2, the financial statements are prepared by the Carter County Public Health Taxing District, on the basis of the financial reporting provisions of the *Administrative Reference*, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the Commonwealth of Kentucky.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 2 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Carter County Public Health Taxing District as of June 30, 2020, and the respective changes in financial position for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and fund balance of the Carter County Public Health Taxing District, as of June 30, 2020, and the respective revenues and expenditures for the year then ended, in accordance with the financial reporting provisions of the *Administrative Reference* as described in Note 2.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 3, 2020, on our consideration of the Carter County Public Health District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Carter County Public Health Taxing District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Carter County Public Health Taxing District's internal control over financial reporting and compliance.

Respectfully submitted,

Carter County Public Health Taxing District
Notes to the Financial Statements
June 30, 2020

Note 1. Nature of the District

The Carter County Public Health Taxing District (District) was created pursuant to Kentucky Revised Statute (KRS) 212.720. The District is responsible for requesting, with the approval of the Cabinet for Health and Family Services, that the Carter County Fiscal Court impose an ad valorem tax in an amount that the Board of Health deems sufficient to meet Carter County's public health needs. The tax rate may not exceed ten cents per \$100 of assessed value. The District then acts as a trustee over the public health tax fund. The District is restricted to expending public health tax money for the operation and maintenance of the Carter County Health Department (Department). As such, the District's fund balance on the Statement of Assets, Liabilities, and Fund Balance, is shown as restricted.

Note 2. Summary of Significant Accounting Policies

The District prepares its financial statements in accordance with the financial reporting provisions of the *Administrative Reference* established by the Commonwealth of Kentucky, Cabinet for Health and Family Services, Department for Public Health, Division of Administration and Financial Management which is regulatory basis of accounting. This basis of accounting and financial reporting differs from generally accepted accounting principles in several areas. Accounts receivable for revenue earned but not received, and accounts payable for expenses incurred, but unpaid, are not recorded. Property, plant, and equipment are not capitalized and the related depreciation expense is not recorded.

The District receives funds from, based on remittances to, the Carter County Sheriff, the Carter County Clerk's office, and the Commonwealth of Kentucky.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Carter County Board of Health (Board) makes the determination as to when to use restricted or unrestricted funds when an expenditure is incurred for purposes for which both restricted and unrestricted funds are available.

Note 3. Related Party

The District shares a common board membership with the Department. For fiscal year 2020, the Department received \$352,652 of local tax appropriations from the District.

Note 4. Cash

The District maintains its deposits with a depository institution insured by the Federal Deposit Insurance Corporation. At June 30, 2020, the District's deposits were fully covered by federal depository insurance or by collateral held by the depository institution.

Note 5. Coronavirus

In March 2020, the outbreak of Covid-19 (coronavirus) was recognized as a pandemic by the World Health Organization, and the outbreak has become widespread in the United States. The outbreak has had a notable impact on general economic conditions with many unknown effects. The District continues to closely monitor

(Continued)

Note 5. Coronavirus *(Continued)*

the impact of the coronavirus outbreak. The extent to which the coronavirus outbreak will impact its operations or financial results is still uncertain; however, management believes that the District will remain stable throughout the duration of the pandemic.

Note 6. Tax Levy

On August 20, 2019, the Board passed a resolution recording the fiscal year 2020 health tax rate at 6.0 cents per \$100 of assessed valuation on real property, personal property, and motor vehicles.

The required minimum local support level is equivalent to 1.8 cents per \$100 of assessed property valuation. The Board has met this requirement as set by the Department for Public Health for the year ended June 30, 2020.

Note 8. Subsequent Events

The District has evaluated subsequent events through December 3, 2020, the date which the financial statements were available to be issued. The only subsequent event noted by management was the sale of two properties owned by the District.

Independent Auditor's Report on Internal Control over Financial
Reporting and on Compliance and Other Matters Based on an
Audit of the Financial Statements Performed in Accordance
with *Government Auditing Standards*

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Carter County Public Health Taxing District as of and for the year ended June 30, 2020, and related notes to the financial statements, which collectively comprise the Carter County Public Health Taxing District's basic financial statements, and have issued our report thereon dated December 3, 2020. Our report contains an unmodified opinion on the regulatory basis of accounting in accordance with the *Administrative Reference*.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Carter County Public Health Taxing District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Carter County Public Health Taxing District's internal control. Accordingly, we do not express an opinion on the effectiveness of Carter County Public Health Taxing District's internal control.

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material *weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Carter County Public Health Taxing District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express

Performed in Accordance with *Government Auditing Standards*
(Continued)**

Compliance and Other Matters (Continued)

such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
