INDEPENDENT AUDITOR'S REPORT

To the Chairman and Board Members Crescent-Villa Fire Authority

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Crescent-Villa Fire Authority, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Crescent-Villa Fire Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Crescent-Villa Fire Authority, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Crescent-Villa Fire Authority and to meet other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Crescent-Villa Fire Authority's ability to continue as a growing concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but it is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosure in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Crescent-Villa Fire Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Crescent-Villa Fire Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 7-11 and page 24 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in

the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 16, 2024, on our consideration of the Crescent-Villa Fire Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Crescent-Villa Fire Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Crescent-Villa Fire Authority's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Our discussion and analysis of Crescent-Villa Fire Authority's financial performance provides an overview of the Fire Authority's financial activities for the fiscal year ended June 30, 2024. Please read it in conjunction with the Fire Authority's basic financial statements, which are on pages 13 through 16.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Fire Authority as a whole and present a view of the Fire Authority's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Fire Authority's operations in more detail than the government-wide statements by providing information about the Fire Authority's most financially significant funds.

Financial Highlights

- The ending cash balance for the Fire Authority was \$771,336
- Expenditures exceeded revenues by \$3,355,354
- New equipment was purchased at a cost of \$167,040
- Firehouse expenditures were \$3,299,573

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the Fire Authority's basic financial statements. The Fire Authority's basic financial statements comprise three components: 1) government –wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Fire Authority's finances, in a manner similar to private-sector business.

The statement of net position presents information on all of the Fire Authority's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Fire Authority is improving or deteriorating.

The statement of activities presents information showing how much the Fire Authority's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are

reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the Fire Authority that are principally supported by intergovernmental revenues (governmental activities). The governmental activity of the Fire Authority is primarily police safety. Fixed assets are also supported by intergovernmental revenues.

Reporting the Fire Authority's Most Significant Funds

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide detailed information about the most significant funds. The Board establishes funds to help control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain grants and other money. The Fire Authority has one main set of funds-governmental.

 Governmental funds – All of the Fire Authority's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The modified accrual basis allows certain revenues to be recognized before actually received. However, some revenues are undeterminable in nature, therefore cannot be recognized until actually received. The governmental fund statements provide a detailed short-term view of the Fire Authority's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Fire Authority's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the adjustments columns of the financial statements.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17 through 24 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the Fire Authority, assets exceeded liabilities by \$3,953,407 as of June 30, 2024.

A large portion of the Fire Authority's net assets reflects its investment in capital assets (e.g., fire trucks, ambulances, radio equipment, and other equipment) with related debt.

These capital assets are used to provide services to citizens, and consequently, are not available for future spending.

The Fire Authority's financial position is the product of several financial transactions including the net results of activities, the acquisition and disposal of capital assets, and the depreciation of capital assets.

0001

.....

Net Position for the period ending June 30, 2023 and 2024:

	2024	ē	2023
Current assets	\$ 928,854	\$	4,626,336
Capital assets, net of accumulated depreciation	8,907,585	3	5,629,143
Total assets	9,836,439	2	10,255,479
Long-term liabilities	5,230,228		5,465,252
Other liabilities	652,804		999,805
Total liabilities	5,883,032		6,465,057
Net position			
Investment in capital assets	8,907,585		5,629,143
Unrestricted	(4,954,178)		(1,838,721)
Total Net Position	\$ 3,953,407	\$	3,790,422

At the end of the current fiscal year, the Fire Authority is able to report a positive balance in net position. The same held true for the prior fiscal year.

Governmental Activities

The following represents a summary of the Fire Authority's revenues and expenses for the fiscal years ended June 30, 2024 and 2023:

	2024		2023
Revenues:			
Intergovernmental	\$ 1,438,942	\$	3,152,050
Grants	16,971		30,215
Charges for services	368,851		365,271
Interest Income	77,177		120,154
Gain on disposal of assets			5.
Miscellaneous income	6,670		4,230
Total revenues	1,908,611		3,671,920
Expenditures:

Excess of revenues over expenditures	(3,355,354)		(2,228,595)
Other Financing Sources (Uses)			
Bonds Issued			÷.
Premium on bond sale			÷.
Cost of issuance discount			
Total Other financing sources and uses	52 10		<u> </u>
Net Change in fund balances	(3,355,354)		(2,228,595)
Fund Balance, beginning	4,153,858	ä	6,382,453
Fund Balance, ending	\$ 798,504	\$	4,153,858

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The Crescent-Villa Fire Authority was created by an interlocal agreement between Villa Hills and Crescent Springs and those two cities continue to provide roughly 76% of the Authority's operating funding. The remainder comes from insurance billing and miscellaneous grants.

A budget is presented to Villa Hills and Crescent Springs very early in every calendar year. When the CVFA budget is approved by these funding sources, the billing rate is set for both communities based on that budget. This process has been completed for the fiscal year 2024-2025.

In fiscal year 2023-2024, the Authority made the decision to add full-time employees. On the Chief's recommendation, the original number of full-time employees was determined to be 8 (4 Paramedic/Firefighters and 4 EMT/Firefighters). The remaining shifts will be manned by the part-time employees currently employed. The full-time salaries were determined by meeting the competition for the limited number of qualified personnel. In addition, the Authority determined that medical benefits would be offered to all full-time employees. These employees could accept a \$500/month stipend in lieu of this benefit. The Authority decided to refuse the State CERS Plan and, in its place, install a deferred comp match limited to 5%. These changes pushed the city contributions to the rate indicated above.

The financial burden of adding full-time employees (and benefits) will be borne by both cities and included in their 2024-2025 budgets. Both cities have passed their respective budget ordinance. The Authority also approached the County requesting that the rate billed to unincorporated areas be raised as well. The County granted that request and the real estate taxes on the structures located in the unincorporated CVFA service area will be increased in the 2024 billing.

The unincorporated areas of Kenton County, in our service district but outside of the two participating Cities, are billed by Kenton County on the normal annual property tax bills. This change was effective with the tax bills mailed in 2017.

The final portion of funding is generated by billing for EMT services rendered to insurance companies and customers outside of our service area. Our billing rates for these services are controlled by the federal government and the insurance carriers. The EMT billings have been increasing in the last two years and, as of 7/1/24, the Authority voted to increase squad billing rates per the recommendation of our billing contractor.

Costs are increasing for the Authority both in payroll expense and for the medications required to be carried on the ambulances. Additionally, as of June 30, 2020, the Authority increased the budget to add paramedic staff to allow for both ambulances to have a paramedic onboard 24 hours per day, 7 days per week. An acute shortage of qualified paramedics has resulted in increased overtime. As stated above, this issue was addressed by adding full-time staff.

In fiscal year 2019-2020, the CVFA became concerned that the existing firehouse was not sufficient to conduct fire and EMT services safely. An engineering study was done to determine if the existing building could continue to be used to provide these services and, if not, could parts of the existing building be used in the future.

The results of the engineering study confirmed that the building needed to be replaced and that none of the existing structure could be economically used in the future. As a result, CVFA requested that the cities increase their annual budget for the firehouse by a total of \$50,000.00 to be used for design and legal expenses. The initial design indicated that \$5.3M would be needed for the base building. Based on that study, the Authority engaged KLC Bond Corporation to provide \$6M in bond funding.

When the actual bids were opened at a special meeting of the Authority on February 10, 2022, the actual price came in at \$7.5M excluding upgrades. The cities were asked to commit an additional \$2.5M to the project (\$1M from Crescent Spring and \$1.5 M from Villa Hills) which they agreed to. A new interlocal agreement was enacted by both Councils in this regard. Any funds remaining from the additional \$2.5M will be returned

to the cities pro-rata when the building is complete. The old building was demolished in fiscal 2023-2024 and the new building will be functionally complete in fiscal 2024-2025.

CONTACTING THE FIRE AUTHORITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the Fire Authority's finances and to show the Fire Authority's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Fire Authority's Office at the 777 Overlook Drive, Crescent Springs, KY 41017.

NOTE A – THE ENTITY

The Crescent-Villa Fire Authority was created by an intergovernmental cooperative agreement between the City of Crescent Springs, Kentucky and the City of Villa Hills, Kentucky. The Fire Authority was initially created to provide fire protection and assistance to the citizens of the jurisdictional areas of the appropriate cities. The basic operations of the Fire Authority are financed through contributions by the cities of Crescent Springs and Villa Hills, Kentucky and other revenues for services rendered. In the Statements of Revenues, Expenditures and Changes in Fund Balances, these operations are reflected in the General Fund.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Fire Authority have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Fire Authority's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements, including Statement No. 34, Basic Financial Statements. The following is a summary of significant accounting policies.

Date of Management's Review

Subsequent events were evaluated through September 16, 2024, which is the date the financial statements were available to be issued.

Financial Reporting Entity

The Crescent-Villa Fire Authority is a governmental unit governed by a nine member board of directors, of which three are appointed by the Mayor of Crescent Springs and four are appointed by the Mayor of Villa Hills, and two are elected by the Crescent Springs Volunteer Fire Department, Inc. As required by generally accepted accounting principles, these financial statements present the general government.

Government-wide Financial Statements

Government-wide financial statements (i.e., the statement of net position and the statement of net changes in net position) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. The Fire Authority has no business-type activities or blended or discretely presented component units.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicant who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as another financing source. Amounts

paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

The government reports the following funds of the financial reporting entity: The general fund is the government's primary operating fund. It accounts for all financial resources of the general government.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, related of the cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Assets, liabilities and net position or equity

Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with an initial maturity date within one year of the date acquired.

The Fire Authority is authorized by state statute to invest in:

- 1. Obligations of the United States and of its agencies and instrumentalities;
- 2. Obligations and contracts for future delivery or purchases of obligations backed by the full faith and credit of the United States or a United States government agency.
- 3. Obligations of any corporation of the United States government.
- 4. Certificates of deposit issued by or other interest-bearing accounts of any bank or savings and loan institution which are insured by the Federal Deposit Insurance Corporation or similar entity or which are collateralized, to the extent uninsured, by any obligation permitted by Section 41.240(4) of the Kentucky Revised Statutes.
- 5. Uncollateralized certificates of deposit issued by any bank or savings and loan institution rated in one of these highest categories by a nationally recognized rating agency.
- 6. Bankers' acceptances for banks rated in one of the highest categories by a nationally recognized rating agency.

- 7. Commercial paper rated in the highest category by a nationally recognized rating agency.
- 8. Bonds or certificates of indebtedness of this state and of its agencies and instrumentalities;
- 9. Securities issued by a state or local government or any instrumentality or agency thereof, in the United States, and rated in one of the three highest categories by a nationally recognized rating agency.
- 10. Shares of mutual funds, each of which shall have the following characteristics:
 - a) The mutual fund shall be an open-end diversified investment company registered under the Federal Investment Company Act of 1940, as amended;
 - b) The management company of the investment company shall have been in operation for at least five (5) years; and
 - c) All of the securities in the mutual fund shall be eligible investments under this section.

Capital Assets

Capital assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Capital assets used in operations are depreciated over their estimated useful lives using the straightline method in the government-wide financial statements. Depreciation is charged as an expense against operations and accumulated depreciation is reported on the respective balance sheet. The range of lives used for depreciation purposes for each capital asset class are as follows:

Equipment	3-5 years
Improvements	10 years
Vehicles	7-20 years

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.

Fund Equity

In the fund financial statements, government funds report components of fund balance for amounts that are nonspendable, restricted, assigned or unassigned. Nonspendable fund balances arise when resources cannot be spent because of their form and because resources must be maintained intact. Restricted fund balances arise when constraints placed on the use of resources are either externally imposed or imposed by law. Assigned fund balances are those that are constrained by the government's intent to be used for specific purposes, but are neither restricted or committed. Unassigned fund balance is the residual classification for the General Fund. The classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the General Fund.

Required Supplementary Information Budgetary Policies

All budgets are presented on the modified accrual basis of accounting. Accordingly, the accompanying Budgetary Comparison Schedules present actual expenditures in accordance with the accounting principles generally accepted in the U.S. on a basis consistent with the legally adopted budgets.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported revenues and expenditures. Actual results could differ from those estimates.

Restricted Revenues

When there are restricted and unrestricted revenues in a program, the City's policy is the restricted revenues are expended first.

NOTE C – DEPOSITS

As of June 30, 2024, the Fire Authority held no investments.

Custodial credit risk – deposits. For deposits, this is the risk that in the event of bank failure, the Fire Authority's deposits will not be returned. The Fire Authority maintains deposits with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC). As allowed by law, the depository bank should pledge securities along with the FDIC insurance at least equal to the amount of deposit at all times. As of June 30, 2024, the Fire Authority's deposits are entirely insured and/or collateralized with securities held by the financial institutions on their behalf and the FDIC insurance. The \$235,725 temporary construction loan account is held by BNY Mellon in the Goldman FS TRSY ADMIN 524 account which is invested solely in a US Treasury money market account.

NOTE D – CAPITAL ASSETS AND DEPRECIATION

The following is a summary of changes in capital assets for the year ended June 30, 2024.

	_	June 30, 2023	Additions		Retirements		June 30, 2024
Capital Assets:							
Contruction in Progress	\$	4,644,617	\$ 3,299,573	\$	-	\$	7,944,190
Equipment		1,146,188	167,040		-		1,313,228
Improvements		38,571	-		-		38,571
Vehicles		2,521,517	 -				2,521,517
Subtotal	-	8,350,893	3,466,613		-		11,817,506
Accumulated Depreciation:							
Equipment		1,008,038	48,500		-		1,056,538
Improvements		36,902	835		-		37,737
Vehicles		1,676,810	138,836			_	1,815,646
Subtotal		2,721,750	188,171				2,909,921
Net Capital Assets		5,629,143	3,278,442	0			8,907,585

Depreciation was charged to functions as follows:

Governmental Activities:

Public Safety	\$.	188,171
Total governmental activities depreciation expense	\$.	188,171

NOTE E – LAND

The land that the current firehouse sits on was owned by The Crescent Springs Volunteer Fire Department, Inc, a Kentucky Non-Profit Corporation. As part of obtaining funding for the construction of the new firehouse, the Fire Authority had requested the land be deeded to them so that the new firehouse would be on land owned by them so there would be no complications as to obtaining the loan and appropriate insurance coverage in the future. The Volunteer Fire Department agreed to this request. It was sold for \$1.00 and other good and valuable consideration to the Fire Authority on June 3, 2021. The land and current firehouse were listed at a value of \$1,538,000 in the deed at that time. Since it was impossible to separate the value of the land vs the current firehouse the land is not recorded on the balance sheet and offsetting it by a donation or contribution to the Fire Authority. The current firehouse will be razed upon the completion of the new firehouse.

NOTE F – LONG TERM DEBT

Typhoon Truck Loan

In June 2016, the Fire Authority entered into a loan agreement for the acquisition of a Typhoon Pumper Truck. The original loan amount on the truck was \$300,000. The vehicle being financed provides the collateral for the loan. The loan bears interest at 2.9% and the final payment is due

June 2026. The loan is amortized over 15 years with a balloon payment due in 10 years on the final payment date. The remaining payments are as follows:

Year					
Ended					
June 30,		Principal	_	Interest	Total
2025		19,166		5,589	24,755
2026	Ş .	143,627	÷	4,907	148,534
	\$	162,793	\$	10,496 \$	173,289

Bonds Payable

In April 2021 the Fire Authority entered into a bond agreement with the Kentucky League of Cities Bond Corporation to finance building a new firehouse in the amount of \$6,000,000 with a coupon rate of 3.0%. The bonds are payable over the period from June 2021 through January 2047.

The following is a schedule of future debt service requirements:

Year Ended		Interest &	
June 30,	Principal	Other Expense	Total
2025	169,167	169,303	338,470
2026	177,083	163,805	340,888
2027	182,083	158,050	340,133
2028	187,083	152,132	339,216
2029	192,083	146,052	338,135
Thereafter	4,278,752	1,492,859	5,771,611
\$	5,186,252	5 2,282,201 \$	7,468,453

2021 Ambulance Loan

Veee

In December 2021, the Fire Authority entered into a loan agreement for the acquisition of a 2021 Ambulance. The original loan amount on the vehicle was \$225,000. The vehicle being financed provides the collateral for the loan. The loan bears interest at 1.7% and the final payment is due December 2026. The loan is amortized over 5 years. The remaining payments are as follows:

Year Ended June 30. Principal Interest Total 2025 45,371 1,601 46,972 2026 46,148 823 46,971 2027 23,369 116 23,485 \$ 114,888 \$ 2,540 \$ 117,428

Changes in General Long-Term Liabilities

During the year ended June 30, 2024, the following changes occurred in liabilities reported in the general long-term debt account group:

		June 30, 2023		Additions	Retirements	June 30, 2024		Amounts Due Within 1 Year
Typhoon Truck	\$	182,621	\$	-	\$ 19,828	\$ 162,793	\$	19,166
Bonds		5,348,334			162,083	5,186,251		169,167
2021 Ambulance	~	159,495	_		 44,607	 114,888	_	45,371
	\$	5,690,450	\$	-	\$ 226,518	\$ 5,463,932	\$	233,704

NOTE G – CREDIT RISK/ECONOMIC DEPENDENCY

The Fire Authority provides fire protection to residents and businesses within the Kentucky cities of Crescent Springs and Villa Hills. The county collects the service reimbursement from businesses and individual residences that are in nearby unincorporated areas and remits them to the Fire Authority to provide fire protection. The Fire Authority receives approximately 77.7% of its funding from Crescent Springs and Villa Hills based on actual 2023-2024 total revenues.

NOTE H-CONTINGENT LIABILITIES

There are no current lawsuits pending against the Fire Authority.

NOTE I-RISK MANAGEMENT

The Fire Authority is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The Fire Authority has obtained insurance coverage. In addition, the Fire Authority has effectively managed risk through various employee education and prevention programs through the efforts and cooperation of its risk manager and department heads. All risk general liability management activities are accounted for in the General Fund. Expenditures and claims are recognized when probable that a loss has occurred and the amount of loss can be reasonably estimated.

The Fire Authority Attorney estimates that the amount of actual or potential claims against the Fire Authority as of June 30, 2024, will not materially affect the financial condition of the Fire Authority. Therefore, the General Fund contains no provision for estimated claims. No claim has exceeded insurance coverage amounts in the past three fiscal years.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To The Chairman and Board Members Crescent-Villa Fire Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Crescent-Villa Fire Authority, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Crescent-Villa Fire Authority's basic financial statements, and have issued our report thereon dated September 16, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Crescent-Villa Fire Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Crescent-Villa Fire Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Crescent-Villa Fire Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items that we consider to be material weaknesses.

This page left blank intentionally.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Crescent-Villa Fire Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questions costs.

Crescent-Villa Fire Authority's Response to Findings

Government Auding Standards requires the auditor to perform limited procedures on the Crescent-Villa Fire Authority's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Crescent-Villa Fire Authority's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CRESCENT-VILLA FIRE AUTHORITY SCHEDULE OF FINDINGS AND RESPONSES June 30, 2024

Finding 1: Lack of Segregation of Duties

The Authority is responsible for maintaining an adequate system of internal controls over financial activity. The Authority is a small unit with limited personnel that usually hinders the ability to provide various segregating of duties. The Authority Treasurer is involved in all accounting functions, such as preparing daily deposits, processing accounts payable, preparing bank reconciliations and recording journal entries. However, certain oversight is used to lessen risk in these areas, such as a Board Member reviews and initials the bank reconciliation; the Treasurer is not involved in payroll preparation and the Chief reviews and approves the payroll; the Chief reviews and approves payment of accounts payable; and checks over \$2,500 require two signatures.

Recommendation: We recommend the Authority consider the following:

(1) The Board and Fire Chief provides as much oversight as possible, such as reviewing disbursement documentation, signing checks and otherwise overseeing financial activity. We recommend continuing these oversight functions to minimize risk.

Authority's Response:

The Authority is a small unit with one administrative employee, thus limiting the possibility of segregation of duties. The Authority does however believe its use of Board Members and the Fire Chief in oversight and approval limits the lack of segregation of duties to minimal risk. The monthly cash disbursements report is distributed to all board and finance committee member for review.
