INDEPENDENT AUDITORS' REPORT

To the Mayor and Commissioners City of Paris, Kentucky

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Paris, Kentucky, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the City of Paris, Kentucky's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Paris, Kentucky, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Paris, Kentucky and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Paris, Kentucky's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Phone: 859-231-1800 • Fax: 859-422-1800 www.rfhcpas.com

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the City of Paris, Kentucky's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Paris, Kentucky's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and OPEB schedules, and budgetary comparison information on pages 4-17 and 48-59 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Paris, Kentucky's basic financial statements. The accompanying combining nonmajor fund financial statements, the schedule of operating expenses – utility fund, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the schedule of operating expenses – utility fund, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 19, 2024, on our consideration of the City of Paris, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Paris, Kentucky's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Paris, Kentucky's internal control over financial reporting and compliance.

RFH, PLLC Lexington, Kentucky February 19, 2024

CITY OF PARIS, KENTUCKY MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis of the City of Paris (the City) presents a discussion and analysis of the City's financial performance for the fiscal year ended June 30, 2023. It is supplementary information required by the Governmental Accounting Standards Board (GASB) and is intended to provide a readable explanation of the information within the basic financial statements. It should be read in conjunction with the financial statements immediately following the analysis.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government - Wide Highlights

- Total assets plus deferred outflows of resources of the Primary Government exceeded total liabilities and deferred inflows of resources by approximately \$8.27 million at the close of fiscal year 2023. This amount includes a net investment in capital assets of \$14.34 million and an overall deficit in unrestricted net position of approximately \$8.61 million.
- Governmental Activities' net position was \$6.47 million at the end of fiscal year 2023. This amount includes a net investment in capital assets of \$6.77 million and an overall deficit in unrestricted net position of approximately \$436 thousand. The net investment in capital assets comprises 104.67% of total net position.
- Business-Type Activities' net position was \$1.80 million at the end of fiscal year 2023. This amount includes a net investment in capital assets of \$7.57 million and an overall deficit in unrestricted net position of approximately \$8.18 million. The net investment in capital assets comprises 419.86% of total net position.

Fund Highlights

- As of June 30, 2023, the City's governmental funds reported combined ending fund balances of \$12.38 million, an increase of \$1.28 million compared to the previous fiscal year. Of this amount, \$134 thousand is restricted for various projects: public works, public safety, and capital projects.
- The General Fund, the primary operating fund of the City, held unassigned fund balances of \$12.32 million or 122.49% of general fund expenditures.

The General Fund's cash and cash equivalents balance decreased approximately \$271 thousand compared to the previous fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

Three key elements comprise the basic financial statements, including:

- Government-Wide Financial Statements
- Fund Financial Statements
- Notes to the Financial Statements

A. Government-Wide Financial Statements

The Government-Wide Financial Statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. These statements report financial information, except for fiduciary activities, and provide both short-term and long-term information about the City's entire financial position and assist in the assessment of the City's economic condition at the end of the fiscal year. The statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. They take into account all revenues and expenses of the fiscal year regardless of when cash is received or paid. The Government-Wide Financial Statements include two statements: the Statement of Net Position and the Statement of Activities.

The Statement of Net Position reflects the financial position of the City at fiscal year ended June 30, 2023. Accordingly, the City's net position, the difference between assets (what the citizens own) plus deferred outflows of resources and liabilities (what the citizens owe) plus deferred inflows of resources, is one way to determine the financial condition of the City. Over time, increases or decreases in net position are one indicator of whether the financial health of the City is improving or deteriorating. However, additional factors such as changes in the City's revenue structure, its tax base, and its level of assets held, should be considered in order to assess thoroughly the overall financial condition of the City.

The *Statement of Activities* reflects the City's revenues and expenses, as well as other transactions that increase or decrease net position. Program revenues are offset by program expenses in order to provide better information regarding program costs financed by general government revenues.

The Government-Wide Financial Statements divide the City's activities into two types:

Governmental Activities – The activities in this section are mostly supported by taxes and
intergovernmental revenues (federal and state grants), namely licenses and permits,
property taxes, and charges for services. Most services normally associated with local
government fall into these categories: police, fire, streets, public works, parks, and general
administration.

 Business-Type Activities – These activities normally are intended to recover all or a significant portion of costs through user fees and charges for goods and services provided by the City. The Business-Type Activities of the City include the operations of various Enterprise Funds, including electric, water, sanitary sewer services, landfill and disposal costs.

B. Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The *Fund Financial Statements* report the operations of the City in greater detail than the *Government-Wide Financial Statements* by providing information about the City's most significant funds. Local ordinance or bond covenants may require the creation of some funds; others may be created at the discretion of the Administration for management and fiscal control of financial resources. All funds of the City can be divided into two types of funds: Governmental Funds and Proprietary Funds.

• Governmental funds – Governmental funds are used to account for essentially the same functions reported as Governmental Activities in the Government-Wide Financial Statements. However, unlike the Government-Wide Financial Statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year.

Most of the basic services performed by the City are reported in the governmental funds' category. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. Because the focus of governmental funds is narrower than that of the *Government-Wide Financial Statements*, it is useful to compare the information presented for governmental funds with similar information presented for Governmental Activities in the *Government-Wide Financial Statements*. By doing so, readers may better understand the long-term impact of the City's near-term funding decisions. The governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and Governmental Activities. The following funds are used by the City:

- **General Fund** the general operating fund of the City is used to account for all financial resources except those required to be accounted for in another fund. Most of the essential governmental services such as police and fire protection, community services, and general administration are reported in this fund.
- **Special Revenue Funds** The special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are restricted by law to be expended for specific purposes. The following special revenue funds are maintained by the City:

Municipal Road Aid Fund – A special revenue fund used to account for state municipal road aid.

Debt Service Fund – The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

• *Proprietary funds* – When the City charges a fee for services which is intended to cover the cost of providing those services – whether to outside customers or other units of the City – those services are generally reported in the proprietary funds' category.

The proprietary funds are reported in the same way that all activities are reported in the *Government-Wide Financial Statements*, but the fund statements provide more detail. The Government considers the Utility Fund as its major proprietary fund. The subcategories of the proprietary funds include enterprise funds and internal service funds.

Enterprise funds are used to report the same functions presented as Business-Type Activities in the Government-Wide Financial Statements.

Utility Fund – The Utility Fund accounts for the electric, water, sewer and garbage disposal and incinerator services provided to residents of the City and surrounding areas, the operations of which are financed by user charges.

C. Notes to the Financial Statements

The notes to the financial statements provide information that is essential to a full understanding of the data provided in the *Government-Wide* and *Fund Financial Statements*. They are an integral part of the financial statements and focus on the primary government and its activities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Analysis of Net Position

Net position serves as a useful indicator of the City's financial position. In Table 1 below, the City's combined net position (Governmental and Business-Type Activities) totaled \$8.27 million as of June 30, 2023, an increase of \$2.63 million from the previous year.

The largest proportion of the City's net position, \$14.34 million, is invested in capital assets (e.g. land, infrastructures, buildings and improvements, and machinery and equipment), minus any related debt, which is still outstanding and used to acquire those assets. The City uses these capital assets to provide services to its citizens. As such, these assets are not available for future spending.

Table 2 indicates that the net position of Governmental Activities totaled approximately \$6.47 million, or 30.3% of total assets, an increase of \$1.82 million over the previous year. Of this total, \$6.77 million is invested in capital assets (e.g. land, infrastructures, buildings and improvements, and machinery and equipment), minus any related debt, which is still outstanding and used to acquire those assets.

Current assets exceeded current liabilities by approximately \$12.13 million at the end of fiscal year 2023.

Unrestricted		(8,176)		(7,648)	-	(528)			
Total net position	\$	1,803	\$	1,002	\$	801			

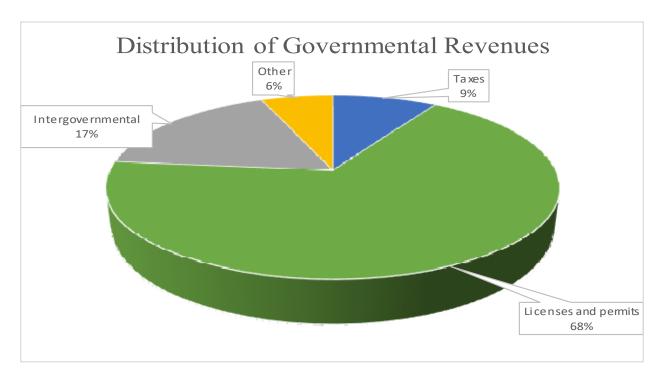

Table 3 indicates that the net position of Business-Type Activities totaled approximately \$1.80 million or 11.6% of total assets, an increase of \$801 thousand over the previous year. Of this total, \$7.57 million is invested in capital assets, minus related debt which is still outstanding and used to acquire those assets. The City uses these capital assets in the same way as the capital assets held by Governmental Activities.

Current liabilities exceed current assets by approximately \$2.52 million at the end of the fiscal year. Compared to the prior fiscal year when current assets exceeded current liabilities by approximately \$287 thousand, this was an overall decrease of approximately \$2.81 million. Current liabilities include a \$2.5 million revenue anticipation bond maturing during fiscal year 2024 that the City is currently issuing long-term debt to restructure.

Governmental Activities

As indicated in Chart 1, the City funds its Governmental Activities from revenue received from four significant categories. A clear majority, 68%, of the City's revenue is provided through licenses and permits. This category includes fees placed on employee withholdings, business returns, insurance premiums, and franchise fees. Property taxes comprise 9% of governmental revenues. Federal and State grant funding represents 17% of governmental revenue. The remaining other category represents miscellaneous revenues collected by the City.

Chart 1

As indicated in Chart 2, expenditures related to public safety for police and fire represent 34% and 23%, respectively, of total expenditures of the City's Governmental Activities.

Expenditures for police totaled approximately \$3.72 million (Table 4) for fiscal year 2023, an increase of \$723 thousand compared to the previous fiscal year. Expenditures for fire totaled approximately \$2.63 million (Table 4) for fiscal year 2023, an increase of \$251 thousand compared to the previous fiscal year.

Salary and wage costs, including benefits, for police totaled \$3.05 million for fiscal year 2023 or approximately 82% of total police expenditures for 2023.

Salary and wage costs, including benefits, for fire totaled \$2.0 million for fiscal year 2023 or approximately 76% of total fire expenditures for 2023.

Total program expenses	_	10,318	_	9,053	_	9,754	_	11,263	_	20,072	_	20,316
Net change in net position	\$_	1,824	\$_	2,513	\$_	801	\$_	355	\$_	2,625	\$_	2,868

As indicated by Table 4, revenues from Governmental Activities totaled \$12.14 million, which was an increase of \$576 thousand or 5%, from the previous year. Licenses and permits totaled \$8.05 million, representing 66.3% of total revenues. As stated earlier, this category includes employee withholdings in the form of an occupational license fee (OLF). This fee is comprised of an assessment of 1.50% on the total wages received by individuals employed in the City of Paris and an assessment of 1.50% on the net profits of businesses operating in the City of Paris. Licenses and permits increased by \$136 thousand from the previous year. Property taxes increased by \$75 thousand.

As noted on Table 4, total expense of Governmental Activities was \$10.32 million, an increase of \$1.27 million from the previous fiscal year.

Business-Type Activities

Also indicated by Table 4, revenues from Business-Type Activities decreased \$1.06 million from the previous fiscal year. Prior year revenues included \$1.60 million in non-recurring grants for infrastructure improvements. Fees for utility services increased by \$619 thousand from the previous year. Continued stabilization in overall electric costs as well as implementing new rates for water and sewer is a key factor in this increase for 2023 compared to 2022.

Consistent with a decrease in overall revenues, total expenses for Business-Type Activities decreased \$1.51 million compared to the previous fiscal year. Non-recurring infrastructure costs associated with grant funding of \$1.60 million is a main factor for decreased expenditures.

BUDGETARY HIGHLIGHTS

Over the course of the year, the Commission revises the budget from time to time; thus, exercising one of the primary duties of the Commission as guardian of the City's funds. Supplemental appropriations are approved to reflect actual beginning fund balances and to re-appropriate funds for capital projects. As the year progresses and actual revenue collections and budgetary experience is known, amendments are processed to reflect the actual results and revised expectations of future revenue and expenditures.

For fiscal year 2023, General Fund revenues totaled \$11.72 million, an increase of 4.0% from the previous fiscal year. Total revenues were \$1.53 million above the budgeted amount. The increase in actual revenue is the result of continued growth in the local and U.S. economies, which affected both business returns and franchise fees.

General fund expenditures of the City totaled \$10.06 million, an increase of \$706 thousand over the previous fiscal year. Expenditures were \$416 thousand below the final budgeted amount.

The City's financial commitment to support Emergency Medical Services within the City of Paris and Bourbon County increased 3.75% to \$415 thousand compared to the previous fiscal year. In addition, the City's financial commitment to support Paris-Bourbon County E-911 services increased 2.70% compared to the previous fiscal year for a total of \$228 thousand. The City's continued financial commitment to Community Partners equals approximately 13% of the City's overall budget including EMS and E911.

NEXT YEAR'S BUDGET

The City's fiscal year 2024 budget, for all funds combined, net of interfund transfers, is \$32.0 million. In fiscal year 2024, the City took the stance that tax rates and service fees should remain virtually the same from previous fiscal years. In fiscal year 2024 and subsequent years the City is making a commitment to invest in additional infrastructure projects including a new recycling and transfer station estimated to cost \$4.2 million and improvements at the water plant estimated to cost \$3.28 million. The City continues to seek cost savings by ensuring major expenditures are vetted through competitive bid process, and ensuring employees understand management's philosophy responsible for fiscal management as well providing competitive and cost-effective health benefits for all participants.

REQUEST FOR INFORMATION

This financial report is designed to provide the citizens of the City, taxpayers, customers, and investors and creditors with a general overview of the City's finances, and to show the City's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the City Manager at 525 High Street, Paris, Kentucky 40361 or by telephone at (859) 987-2110.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Paris, Kentucky (the City) operates under the City Manager form of government and provides the following services as authorized by its charter: public safety, public works, recreation and community development. The accounting policies of the City of Paris conform to generally accepted accounting principles applicable to governmental units. The following is a summary of the more significant accounting policies.

A. Reporting Entity

The financial statements of the City of Paris, Kentucky include the funds, account groups and entities over which the Mayor and Commission exercise significant oversight responsibility. Oversight responsibility, as defined by Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, was determined on the basis of the City's ability to significantly influence operations, select the governing body, participate in fiscal management and the scope of public service. The only entity included in the financial statements is the Paris, Kentucky Public Properties Corporation.

The following entities have been excluded from the financial statements because they do not meet the criteria described above:

- 1. Paris-Bourbon County Community Development Agency
- 2. Paris-Bourbon County Emergency Medical Services
- 3. Paris Independent Schools
- 4. Paris-Bourbon County E-911
- 5. Paris-Bourbon County Tourism Commission
- 6. Paris-Bourbon County Economic Development Authority

B. Basis of Presentation

Government-wide Financial Statements

The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements display information about the City as a whole. The statements distinguish between governmental and business-type activities of the City. These financial statements include the financial activities of the City except for fiduciary activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support. The government-wide statement of activities reflects costs of government by function for governmental activities and business-type activities. Program revenues include charges paid by recipients for the goods or services offered by the program and grants or contributions that are restricted to the program. Revenues which are not classified as program revenues are presented as general revenues of the City.

Fund Financial Statements

Fund financial statements report detailed information about the City. The accounts of the City are organized on the basis of funds, each of which is considered to be a separate fiscal and accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of its assets, liabilities, reserves, fund balance or net position, revenues and expenditures or expenses.

Governmental funds are those through which most governmental functions are financed. The governmental fund measurement focus is upon determination of financial position and budgetary control over revenues and expenditures. Proprietary fund types are used to account for operations that are financed and operated in a manner similar to business enterprises - where intent of the governing body is that costs of providing services are to be financed or recovered primarily through user charges.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

The following funds are used by the City of Paris:

Governmental Funds

General Fund - The general operating fund of the City is used to account for all financial resources except those required to be accounted for in another fund. Most of the essential governmental services such as police and fire protection, community services and general administration are reported in this fund.

Special Revenue Funds - The special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are restricted by law to be expended for specific purposes. The following special revenue funds are maintained by the City:

Municipal Road Aid Fund - A special revenue fund used to account for state municipal road aid.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Proprietary Funds

Proprietary funds (enterprise funds) are used to account for the ongoing organizations and activities of the City which are similar to those found in private business enterprises. The measurement focus is upon determination of net income, financial position, and changes in cash flows.

Enterprise funds are established to account for the acquisition, operations and maintenance of the City's facilities and services which are entirely or predominantly self-supported by user charges or where the City has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The accounts are maintained on the accrual basis of accounting.

Utility Fund - The Utility Fund accounts for the electric, water, sewer, and garbage disposal and incinerator services provided to residents of the City and surrounding areas, the operations of which are financed by user charges.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the City as a whole. The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for individual funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Fund Financial Statements

The financial transactions of the City are recorded in individual funds. Their focus is on individual funds rather than reporting funds by type. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet.

All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than interest on long-term debt, are recorded when the liability is incurred.

Proprietary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and expenses are recognized when they are incurred. Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

Permits, fines and forfeits, and miscellaneous revenues (except for investment earnings) are recorded as revenues when received because they are generally not measurable until actually received. Investment earnings are recorded when earned since they are measurable and available in all funds.

D. Fund Balance

In fund financial statements, the difference between the assets and liabilities of governmental funds is reported as fund balance. Fund balance is divided into nonspendable and spendable components, if applicable. The City further breaks down both nonspendable and spendable components into the following components:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts constrained for a specific purpose by external parties, constitutional provisions or enabling legislation.

Committed – amounts constrained for a specific purpose by the City using its highest level of decision making authority. The City Commission is the highest level of decision making authority for the City of Paris.

Assigned – for all governmental funds, other than the General Fund, any remaining positive amounts not classified as nonspendable, restricted or committed. For the General Fund, amounts constrained, by intent, to be used for a specific purpose by the City or the elected City official given authority to assign amounts.

Unassigned – for the General Fund, amounts not classified as nonspendable, restricted, committed or assigned. For all other governmental funds, amounts expended in excess of resources that are nonspendable, restricted, committed or assigned.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Fund Balance (Continued)

For resources considered to be committed, the City issues an ordinance that can be changed with another corresponding ordinance.

For resources considered to be assigned, the City has designated the City Manager to carry the intent of the City Commission.

It is the policy of the City to spend restricted funds first when both restricted and unrestricted funds are available. Once restricted funds are spent, the City will use committed funds first, assigned funds second and unassigned funds last.

E. Budgeting

The City follows the procedures established pursuant to Section 91A.030 of the Kentucky Revised Statutes in establishing the budgetary data reflected in the financial statements. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles. Budgeted amounts in the financial statements are as adopted by ordinance of the City.

The City estimates the expenses the General Fund paid or incurred on behalf of the Utility Fund. Total estimated expenses reimbursed to the General Fund from the Utility Fund amounted to \$222,000 for the year ended June 30, 2023. In the fund financial statements, these reimbursements are recorded as "Intergovernmental" revenue in the General Fund and "Utility administration" expense in the Utility Fund.

F. Cash and Cash Equivalents

The City considers all cash, and certificates of deposit maturing in 90 days or less when purchased, both restricted and unrestricted, as cash and cash equivalents for purposes of the Statement of Cash Flows.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure (i.e., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Capital assets acquired are recorded at cost or estimated cost. Depreciation of capital assets is provided over the estimated useful lives of the respective assets using the straight-line basis. The estimated useful lives are as follows:

30-50 years
20-50 years
10-40 years
3-20 years

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees' Retirement System (CERS) and additions to/deductions from CERS' fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

I. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County Employees' Retirement System (CERS) and additions to/deductions from CERS' fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

J. Compensated Absences

Full-time employees of the City may accumulate sick leave at the rate of eight hours per month. Fire department employees assigned to 24-hour shifts may accumulate twelve hours per month. Sick days are allowed to be accumulated and carried over to a maximum of 520 work hours at the beginning of the calendar year. Fire department employees can carry a maximum of 720 work hours at the beginning of the calendar year. The City has a policy that employees must complete a minimum of five years of service to be eligible for a payout. Employees must have an accrual balance higher than 420 total hours to be eligible for a payout. At the end of the calendar year, employees with a balance higher than 420 hours may cash out up to a maximum of 80 hours at a 4 to 1 ratio of their current hourly rate. Upon resignation in good standing or retirement from the City, an employee may cash out all the remaining accrued sick hours at a 3 to 1 ratio of their current hourly rate.

New employees of the City may accumulate vacation leave on the first day of the month following six months of employment. There is no maximum accrual for vacation leave. Employees who resign in good standing or retire are eligible to receive payment for unused vacation days.

The City accrues compensated absences for employees who meet the minimum years of service and hourly accrual balance requirements for sick leave. The City also accrues compensated absences for employees who have met the probationary period for vacation leave.

K. Interfund balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due from/to other funds". These amounts are eliminated in the governmental and business-type activities columns of the statements of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Other Accounting Policies

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the City.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

M. Leases

The City follows Governmental Accounting Standards Board (GASB) Statement No. 87, Leases. GASB Statement No. 87 enhances the relevance and consistency of information on the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

N. Change in Accounting Policy

Effective July 1, 2022, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 96, Subscription-based Information Technology Arrangements. GASB Statement No. 96 requires recognition of a right-to-use subscription asset – an intangible asset – and a corresponding subscription liability for subscription-based information technology arrangements (SBITAs) that were previously classified as operating expenses. It establishes uniform guidance for SBITA accounting based on the foundational principle that SBITAs are financings of the right to use vendor-provided information technology assets. Government entities are required to recognize a subscription liability and an intangible right-to-use subscription asset. These changes had no effect on the beginning net position of the City.

O. Management's Review of Subsequent Events

The City has evaluated and considered the need to recognize or disclose subsequent events through February 19, 2024, which represents the date that these financial statements were available to be issued. Subsequent events past this date, as they pertain to the fiscal year ended June 30, 2023, have not been evaluated by the City.

2. CASH AND INVESTMENTS

KRS 66.480 authorizes the City to invest in the following, including but not limited to, obligations of the United States and of its agencies and instrumentalities, obligations and contracts for future delivery or purchase of obligations backed by the full faith and credit of the United States, obligations of any corporation of the United States government, bonds or certificates of indebtedness of this state, and certificates of deposit issued by or other interest-bearing accounts of any bank or savings and loan institution which have a physical presence in Kentucky and are insured by the Federal Deposit Insurance Corporation (FDIC) or which are collateralized, to the extent uninsured, by any obligation permitted by KRS 41.240(4). The Statute also authorizes investment in mutual funds, exchange traded funds, individual equity securities and high-quality corporate bonds that are managed by a professional investment manager and subject to additional requirements outlined in KRS 66.480.

2. CASH AND INVESTMENTS (CONTINUED)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City does not have a policy regarding interest rate risk.

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk beyond that specified in KRS 66.480.

The City's deposits and investments at June 30, 2023 were fully covered by federal depository insurance or by collateral held by the custodial banks in the City's name. The book balances of the City's deposits were \$13,060,352 and the bank balances were \$13,524,275. Bank balances of \$663,646 were covered by FDIC insurance, and \$12,860,629 by collateral held by the custodial banks.

3. ACCOUNTS RECEIVABLE

Receivables at year end of the City's major individual funds and nonmajor funds in the aggregate including the applicablenallowances for uncollectible accounts, are as follows:

Governmental activities	Ge	neral Fund	Nonma	ajor Funds	Total
Licenses and permits Intergovernmental Other	\$	1,613,657 682,702 311,222	\$	- 18,875 -	\$ 1,613,657 701,577 311,222
Total receivables	\$	2,607,581	\$	18,875	\$ 2,626,456
Business-type activities	U	tility Fund			
Charges for service, net Other	\$	729,122 24,164			
Gross receivable Less allowance for uncollectible		753,286 (40,100)			
Total receivables, net	\$	713,186			

4. LEASE RECEIVABLE AND DEFERRED INFLOW OF RESOURCES

Governmental activities

Effective July 1, 2022, the City entered into a two-year lease agreement with the Commonwealth of Kentucky, Cabinet for Health and Family Services, to lease out space in the City's municipal building. Upon entering into the lease, the City recognized both a lease receivable and a deferred inflow of resources related to the lease agreement totaling \$189,685. The City calculated the present value of future lease payments based on a discount rate of 3.25%. The balance of both the lease receivable and the deferred inflow of resources as of June 30, 2023, totaled \$27,341.

The present value of expected future minimum lease payments is as follows:

Fiscal Year	Principal	Interest	Total
2024	\$ 27,341	\$ 889	\$ 28,230

4. LEASE RECEIVABLE AND DEFERRED INFLOW OF RESOURCES (CONTINUED)

The deferred inflow of resources will be recognized over the term of the lease agreement as lease revenue. During 2023, the City recognized \$27,887 of interest revenue and \$162,344 of lease revenue from the lease agreement.

Business-type activities

On September 1, 2020, the City entered into a five-year lease agreement with New Cingular Wireless PCS, LLC to lease out space on the City's water tower for the company to mount antennas and other equipment and related devices. Upon adoption of GASB 87, the City recognized both a lease receivable and a deferred inflow of resources related to the lease agreement totaling \$118,627 in the Utility Fund. The City calculated the present value of future lease payments based on a discount rate of 3.25%. The balance of both the lease receivable and the deferred inflow of resources as of June 30, 2023, totaled \$118,627.

On March 9, 2021, the City entered into a five-year lease agreement with T-Mobile Central, LLC to lease out space on the City's water tower for the company to mount antennas and other equipment and related devices. Upon adoption of GASB 87, the City recognized both a lease receivable and a deferred inflow of resources related to the lease agreement totaling \$118,628 in the Utility Fund. The City calculated the present value of future lease payments based on a discount rate of 3.25%. The balance of both the lease receivable and the deferred inflow of resources as of June 30, 2023, totaled \$62,462.

The present value of expected future minimum lease payments is as follows:

Fiscal Year	Principal	Interest	Total
2024 2025	\$ 116,990 <u>64,099</u>	\$ 10,883 2,083	\$ 127,873 66,182
Total	<u>\$ 181,089</u>	<u>\$ 12,996</u>	\$ 194,055

The deferred inflows of resources will be recognized over the term of the lease agreements as lease revenue. During 2023, the City recognized \$2,967 of interest revenue and \$28,839 of lease revenue from the lease agreements.

5. CAPITAL ASSETS

A summary of capital asset activity during the year ended June 30, 2023 is as follows:

Governmental activities	Balance July 1, 2022	Additions	Deletions	Balance June 30, 2023
Capital assets not being depreciated:	July 1, 2022	Additions	Deletions	Julie 30, 2023

7. CONDUIT DEBT

The City is the issuer of certain industrial revenue bonds issued in order to promote the local construction of production facilities. The facilities, which are constructed from the bond proceeds, are leased to the industrial companies for an amount required to annually service the debt. The lessee assumes ownership of the facilities at the completion of all lease payments required to fully service the debt. The lease payments are remitted directly to the trustee (bank) with whom the facilities are mortgaged. These bonds constitute a limited obligation of the City payable solely from the revenues and receipts derived from the lease agreement. Accordingly, the assets and liabilities relating to these bonds are not recorded on the books of the City. The amount of bonds outstanding at June 30, 2023 is not readily available.

8. SBITA LIABILITIES

Governmental activities

Effective April 1, 2022, the City entered into a SBITA for budgeting software. The agreement calls for annual payments of \$5,425 over a period of 3 years. Upon adoption of GASB 96, the City recognized a subscription liability and a subscription asset related to the agreement totaling \$14,172. The City calculated the present value of future payments based on an incremental borrowing rate of 7.25%. The balance of the SBITA liability as of June 30, 2023 totaled \$9,774.

Annual requirements to maturity for all governmental long-term SBITA obligations are as follows:

Fiscal Year	I	Pri	incipal	In	terest		Total
2024 2025	9	B	4,716 5,058	\$	709 367	\$	5,425 5,425
Total	9	5	9,774	\$	1,076	\$	10,850

9. RETIREMENT PLAN

The City of Paris is a participating employer of the County Employees' Retirement System (CERS). Under the provisions of Kentucky Revised Statute 61.645, the Board of Trustees of Kentucky Public Pensions Authority administers the CERS. The plan issues publicly available financial statements which may be downloaded from the Kentucky Public Pensions Authority website.

Plan Description – CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the System. The plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost-of-living (COLA) adjustments are provided at the discretion of state legislature.

Contributions - For the year ended June 30, 2023, plan members were required to contribute 5% of wages for non-hazardous job classifications and 8% of wages for hazardous job classifications. Employees hired after September 1, 2008, are required to contribute an additional 1% to cover the cost of medical insurance that is provided through CERS. Participating employers are required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last proceeding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial basis adopted by the Board. For the year ended June 30. 2023, participating employers contributed 26.79% of each employee's wages for non-hazardous job classifications and 49.59% of each employee's wages for hazardous job classifications. The contributions are allocated to both the pension and insurance trusts. The insurance trust is more fully described in Note 10. Plan members contributed 23.40% to the pension trust for non-hazardous job classifications and 42.81% to the pension trust for hazardous job classifications. The contribution rates are equal to the actuarially determined rate set by the Board. Administrative costs of Kentucky Public Pensions Authority are financed through employer contributions and investment earnings.

Plan members who began participating on, or after, January 1, 2014, are required to contribute to the Cash Balance Plan. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Plan members contribute 5% of wages to their own account for non-hazardous job classifications and 8% of wages to their own account for hazardous classifications. Plan members also contribute 1% to the health insurance fund. The employer contribution rate is set annually by the Board based on an actuarial valuation. The employer contributes a set percentage of each member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. Each member's account is credited with a 4% employer pay credit for non-hazardous members, and a 7.5% pay credit for hazardous members. The employer pay credit represents a portion of the employer contribution.

For the year ended June 30, 2023, the City contributed \$1,465,432, or 100% of the required contribution for non-hazardous job classifications, which was allocated \$1,279,997 to the CERS pension fund and \$185,435 to the CERS insurance fund. The City contributed \$612,226, or 100% of the required contribution for hazardous job classifications, which was allocated \$528,522 to the CERS pension fund and \$83,704 to the CERS insurance fund.

Benefits – CERS provides retirement, health insurance, death and disability benefits to Plan employees and beneficiaries. Employees are vested in the plan after five years' service.

9. RETIREMENT PLAN (CONTINUED)

For retirement purposes, employees are grouped into three tiers based on hire date:

Tier 1 Participation date Before September 1, 2008

Unreduced retirement 27 years service or 65 years old and 4 years service

25 years service and any age

Tier 2 Participation date September 1, 2008 - December 31, 2013

Unreduced retirement At least 5 years service and 65 years old or

age 57+ with sum of service years plus age equal to 87+

Tier 3 Participation date After December 31, 2013

Unreduced retirement At least 5 years service and 65 years old or

age 57+ with sum of service years plus age equal to 87+

Reduced retirement Not available

Cost of living adjustments are provided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components. Participating employees become eligible to receive the health insurance benefit after at least 180 months of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death. The decedent's beneficiary will receive the higher of the normal death benefit and \$10,000 plus 25% of the decedent's monthly final rate of pay and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five years' service is required for nonservice-related disability benefits.

Pension Liabilities, Expense, Deferred Outflows of Resources and Deferred Inflows of Resources – At June 30, 2023, the City reported a liability for its proportionate share of the net pension liability as follows:

Total Net

Pension Liability Non-hazardous Hazardous

\$ 18,338,837 \$ 13,000,007 \$ 5,338,830

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021, and rolled forward using generally accepted actuarial procedures. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. The City's proportionate share at June 30, 2022, was as follows:

Non-hazardous Hazardous 0.1798% 0.1750%

The proportionate share at June 30, 2022, increased 0.0027% for non-hazardous and 0.0067% for hazardous compared to the proportionate share as of June 30, 2021.

9. RETIREMENT PLAN (CONTINUED)

For the year ended June 30, 2023, the City recognized pension expense of \$1,706,807. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Οι	itflows of	Deferred Inflows of Resources		
\$	166,973	\$	115,771	
	-		-	
	456,585		-	
	569,961		298,754	
	1,808,518			
\$	3,002,037	\$	414,525	
	Oi Re	456,585 569,961 1,808,518	Outflows of Resources Re \$ 166,973 \$ - 456,585 569,961 1,808,518	

The \$1,808,518 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending June 30,

2024	\$ 231,810
2025	\$ 108,664
2026	\$ (73,881)
2027	\$ 512,401

Actuarial Assumptions – The total pension liabilities in the June 30, 2022, actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurement:

Non-hazardous

Inflation	2 30%

Salary increases 3.30% to 10.30%, varies by service, including inflation 6.25%, net of Plan investment expense, including inflation

Hazardous

Inflation 2.30%

Salary increases 3.55 to 19.05%, varies by service, including inflation 6.25%, net of Plan investment expense, including inflation

Mortality rates were based on the Pub-2010 General Mortality Table projected with the ultimate rates from the MP-2014 Mortality Improvement Scale using a base year of 2010. The Mortality Table used for healthy retired members was a system-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 Mortality Improvement Scale using a base year of 2020. The Mortality Table used for disabled members was PUB-2010 Disabled Mortality Table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from MP-2014 Mortality Improvement Scale using a base year of 2010.

9. RETIREMENT PLAN (CONTINUED)

The actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the period July 1, 2013 - June 30, 2018. The total pension liability was rolled-forward from the valuation date (June 30, 2021) to the plan's fiscal year ending June 30, 2022.

The long-term expected rate of return was determined by using a building-block method in which best estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Equity	60.00%	
Public Equity	50.00%	4.45%
Private Equity	10.00%	10.15%
Fixed Income	20.00%	
Core Bonds	10.00%	0.28%
Specialty Credit/High Yield	10.00%	2.28%
Cash	0.00%	-0.91%
Inflation Protected	20.00%	
Real Estate	7.00%	3.67%
Real Return	13.00%	4.07%
Total	100.00%	4.28%
Long term inflation assumpt	2.30%	
Expected nominal return for	6.58%	

Discount Rate — The discount rate used to measure the total pension liability was 6.25%. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the closed 30-year amortization period of the unfunded actuarial accrued liability. The actuarial determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period. The discount rate does not use a municipal bond rate.

9. RETIREMENT PLAN (CONTINUED)

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 6.25%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25%) or 1-percentage-point higher (7.25%) than the current rate:

	Non-h	zardous	На	za	rdous	
	City's proportionate share of net					City's proportionate share of net
	Discount rate	F	pension liability	Discount rate		pension liability
1% decrease	5.25%	\$	16,248,396	5.25%	\$	6,650,386
Current discount rate	6.25%	\$	13,000,007	6.25%	\$	5,338,830
1% increase	7.25%	\$	10,313,320	7.25%	\$	4,270,648

Payable to the Pension Plan – At June 30, 2023, the City reported a payable of \$201,656 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2023. The payable includes both the pension and insurance contribution allocation.

10. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Plan Description – As more fully described in Note 9, the City of Paris participates in the County Employees' Retirement System (CERS). CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the System. In addition to retirement benefits, the plan provides for health insurance benefits to plan members (other postemployment benefits or OPEB). OPEB benefits may be extended to beneficiaries of plan members under certain circumstances.

Contributions – As more fully described in Note 9, plan members contribute to CERS for non-hazardous and hazardous job classifications. For the year ending June 30, 2023, the employer's contribution was 3.39% to the insurance trust for non-hazardous job classifications and 6.78% to the insurance trust for hazardous job classifications. Employees hired after September 1, 2008, are required to contribute an additional 1% to cover the cost of medical insurance that is provided through CERS. Participating employers are required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last proceeding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial basis adopted by the Board. The contribution rates are equal to the actuarially determined rate set by the Board. Administrative costs of Kentucky Public Pensions Authority are financed through employer contributions and investment earnings.

For the year ended June 30, 2023, the City contributed \$185,435, or 100% of the required contribution for non-hazardous job classifications, and \$83,704, or 100% of the required contribution for hazardous job classifications.

10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONTINUED)

Benefits – CERS provides health insurance benefits to Plan employees and beneficiaries.

For retirement purposes, employees are grouped into three tiers based on hire date:

Tier 1	Participation date Insurance eligibility Benefit	Before July 1, 2003 10 years of service credit required Set percentage of single coverage health insurance based on service credit accrued at retirement
Tier 1	Participation date Insurance eligibility Benefit	Before September 1, 2008, but after July 1, 2003 10 years of service credit required Set dollar amount based on service credit accrued, increased annually
Tier 2	Participation date Insurance eligibility Benefit	After September 1, 2008, and before December 31, 2013 15 years of service credit required Set dollar amount based on service credit accrued, increased annually
Tier 3	Participation date Insurance eligibility Benefit	After December 31, 2013 15 years of service credit required Set dollar amount based on service credit accrued, increased annually

OPEB Liabilities, Expense, Deferred Outflows of Resources and Deferred Inflows of Resources – At June 30, 2023, the City reported a liability for its proportionate share of the net OPEB liability as follows:

-	Total Net				
OP	EB Liability	Nor	n-hazardous	Н	azardous
\$	5,038,083	\$	3,548,437	\$	1,489,646

The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2021, and rolled forward using generally accepted actuarial procedures. The City's proportion of the net OPEB liability was based on a projection of the City's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating entities, actuarially determined. The City's proportionate share at June 30, 2022, was as follows:

Non-hazardous	Hazardous
0.1798%	0.1749%

The proportionate share at June 30, 2022, increased 0.0027% for non-hazardous and 0.0066% for hazardous compared to the proportionate share as of June 30, 2021.

10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONTINUED)

For the year ended June 30, 2023, the City recognized OPEB expense of \$683,148. At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Ou	tflows of	Deferred Inflows of Resources		
\$	390,094	\$	901,964	
	809,875		718,749	
	198,393		-	
	219,130		176,366	
	413,326			
\$	2,030,818	\$	1,797,079	
	Ou Re	809,875 198,393 219,130 413,326	Outflows of Resources R \$ 390,094 \$ 809,875 198,393 219,130	

The \$413,326 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2024. This includes adjustments of \$127,935 for the nonhazardous implicit subsidy and \$16,251 for the hazardous implicit subsidy, which are required to be recognized as deferred outflows of resources. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in expense as follows:

Year ending June 30,

2024	\$ 4,725
2025	\$ 11,229
2026	\$ (220,417)
2027	\$ 63,516
2028	\$ (38,640)

Actuarial Assumptions – The total OPEB liability in the June 30, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Non-hazardous

Inflation	2.30%
Salary increases	3.30 to 10.30%, varies by service, including inflation
Investment rate of return	6.25%, net of Plan investment expense, including inflation
Healthcare trend	·
Pre – 65:	Initial trend starting at 6.20% at January 1, 2024, and
	gradually decreasing to an ultimate trend rate of 4.05%
	over a period of 13 years.
Post – 65:	Initial trend starting at 9.00% at January 1, 2024, then
	gradually decreasing to an ultimate trend rate of 4.05%
	over a period of 13 years.

10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONTINUED)

Hazardous

Inflation 2.30%

Salary increases 3.55 to 19.05%, varies by service, including inflation 6.25%, net of Plan investment expense, including inflation

Healthcare trend

Pre – 65: Initial trend starting at 6.20% at January 1, 2024, and gradually decreasing to an ultimate trend rate of 4.05%

over a period of 13 years.

Post – 65: Initial trend starting at 9.00% at January 1, 2024, then

gradually decreasing to an ultimate trend rate of 4.05%

over a period of 13 years.

Mortality rates were based on the Pub-2010 General Mortality Table projected with the ultimate rates from the MP-2014 Mortality Improvement Scale using a base year of 2010. The Mortality Table used for healthy retired members was a system-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 Mortality Improvement Scale using a base year of 2019. The Mortality Table used for disabled members was PUB-2010 Disabled Mortality Table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from MP-2014 Mortality Improvement Scale using a base year of 2010.

The actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the period July 1, 2013 - June 30, 2018. The total OPEB liability was rolled-forward from the valuation date (June 30, 2021) to the plan's fiscal year ending June 30, 2022.

The long-term expected rate of return was determined by using a building-block method in which best estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the following table:

		Long-Term
	Target	Expected
Asset Class	Allocation	Real Rate of Return
Equity	60.00%	
Public Equity	50.00%	4.45%
Private Equity	10.00%	10.15%
Fixed Income	20.00%	
Core Bonds	10.00%	0.28%
Specialty Credit/High Yield	10.00%	2.28%
Cash	0.00%	-0.91%
Inflation Protected	20.00%	
Real Estate	7.00%	3.67%
Real Return	13.00%	4.07%
Total	100.00%	4.28%
Long term inflation assumption		2.30%
Expected nominal return for portfolio		6.58%

10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (CONTINUED)

Discount Rate – The discount rate used to measure the total OPEB liability was 5.70% and 5.61% for non-hazardous and hazardous classifications, respectively. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 24-year amortization period of the unfunded actuarial accrued liability. The discount rate determination used an expected rate of return of 6.25%, and a municipal bond rate of 3.69%, as reported in Fidelity Index's "20 –Year Municipal GO AA Index." However, the cost associated with the implicit employer subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate – The following presents the City's proportionate share of the net OPEB liability calculated using the discount rate as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Non-h	Non-hazardous			zar	dous
	D		City's proportionate share of net	.		City's proportionate share of net
	Discount rate		OPEB liability	Discount rate		OPEB liability
1% decrease	4.70%	\$	4,743,694	4.61%	\$	2,069,818
Current discount rate	5.70%	\$	3,548,437	5.61%	\$	1,489,646
1% increase	6.70%	\$	2,560,357	6.61%	\$	1,018,437

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate – The following presents the City's proportionate share of the net OPEB liability calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Non-haz	ardous	Hazardous			
		City's proportionate share of net OPEB liability	City's proportionate share of net OPEB liability			
1% decrease	\$	2,638,184	\$	1,040,201		
Current trend rate	\$	3,548,437	\$	1,489,646		
1% increase	\$	4,641,479	\$	2,037,495		

OPEB plan fiduciary net position – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report.

11. PROPERTY TAX CALENDAR

Property taxes for fiscal year 2023 were levied on the assessed valuation of property located in Bourbon County as of January 1, 2022 lien date. The due date and collection periods for all taxes exclusive of vehicle taxes are as follows:

Description Per K.R.S. 134.020

Due date for payment of taxes	Upon receipt
Face value amount payment date	December 31
3. Delinquent date, 10% penalty, 12% interest	January 1

Vehicle taxes are collected by the County Clerk of Bourbon County and are due and collected in the birth month of the vehicle's licensee.

12. RISK MANAGEMENT

The City of Paris is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. In addition to its general liability insurance, the City also carries commercial insurance for all other risks of loss such as worker's compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years. The City is also exposed to a certain amount of risk related to agencies jointly supported by the City and County. In the event of an economic crisis, jointly supported agencies could require additional contributions to continue operations.

13. RESTATEMENT OF NET POSITION

Beginning net position in the Utility Fund has been restated, as it was discovered during the current year audit that customers were overbilled in fiscal year 2022 due to certain rates being incorrectly input into the utility billing system. The effect of this restatement on beginning net position is outlined below:

Utility Fund / Business-type Activities

Net position - beginning of year	\$ 1,270,569
Restatement	 (268,116)
Net position - beginning of year, as restated	\$ 1,002,453

14. SUBSEQUENT EVENT

On December 4, 2023, the Board of Trustees of the County Employees' Retirement System (CERS) approved the City's application to reclassify certain positions within the fire and police departments from non-hazardous to hazardous duty positions. On January 9, 2024, the City Commission approved Municipal Order 2024-4, formally designating these positions as hazardous duty positions for the purposes of retirement coverage effective January 1, 2024. The City estimates the initial, one-year cost associated with this change will range from \$580,000 to \$600,000. The annual increase in cost after the year of implementation is dependent on contribution rates set by the Board of Trustees of the KPPA, but should be similar with the first year.

CITY OF PARIS, KENTUCKY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2023

1. GENERAL INFORMATION

Contributions

Contractually required employer contributions reported on the Schedule of Pension Contributions exclude the portion of contributions paid to CERS but allocated to the insurance fund of the CERS. The insurance contributions are reported on the Schedule of OPEB Contributions.

Payroll

The City's covered payroll reported on the Proportionate Share of the Net Pension Liability and the Proportionate Share of the Net OPEB Liability Schedules is one year prior to the City's fiscal year payroll as reported on the Schedule of Contributions for Pension and OPEB.

2. CHANGES OF ASSUMPTIONS

June 30, 2022 - Pension and OPEB - Hazardous and Nonhazardous

The following change in assumptions was made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2022, for OPEB:

• The initial healthcare trend rate for pre-65 was changed from 6.30% to 6.40%.

There were no changes in assumptions made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2022, for pension.

June 30, 2021 - Pension and OPEB - Hazardous and Nonhazardous

The following change in assumptions was made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2021, for OPEB:

• The initial healthcare trend rate for pre-65 was changed from 6.40% to 6.30%. The initial healthcare trend rate for post-65 was changed from 2.90% to 6.30%.

There were no changes in assumptions made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2021, for pension.

June 30, 2020 - Pension and OPEB - Hazardous and Nonhazardous

The following change in assumptions was made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2020, for OPEB:

• The initial healthcare trend rate for pre-65 was changed from 7% to 6.40%, which gradually decreases to an ultimate trend rate of 4.05% over a period of 14 years. The initial healthcare trend rate for post-65 was changed from 5% to 2.90%, which increases to 6.30% in 2023 and then gradually decreases to an ultimate trend rate of 4.05% over a period of 14 years..

There were no changes in assumptions made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2020, for pension.

CITY OF PARIS, KENTUCKY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2023

2. CHANGES OF ASSUMPTIONS (CONTINUED)

June 30, 2019 - Pension and OPEB - Hazardous and Nonhazardous

The following changes in assumptions were made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2019, for both pension and OPEB:

• The assumed rate of salary increases was increased from 3.05% to 3.3% to 10.3% on average for non-hazardous and 3.05% to 3.55% to 19.05% on average for hazardous.

June 30, 2018 - Pension and OPEB - Hazardous and Nonhazardous

There were no changes in assumptions made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2018, for either pension or OPEB.

June 30, 2017 - Pension and OPEB - Hazardous and Nonhazardous

The following changes in assumptions were made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2017, for both pension and OPEB:

- The assumed rate of return was decreased from 7.5% to 6.25%.
- The assumed rate of inflation was reduced from 3.25% to 2.3%.
- Payroll growth assumption was reduced from 4% to 2%

June 30, 2016 - Pension and OPEB - Hazardous and Nonhazardous

There were no changes in assumptions made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2016, for either pension or OPEB.

June 30, 2015 – Pension – Hazardous and Nonhazardous

The following changes in assumptions were made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2015:

- The assumed rate of return was decreased from 7.75% to 7.5%.
- The assumed rate of inflation was reduced from 3.5% to 3.25%.
- The assumed rate of wage inflation was reduced from 1% to .75%.
- Payroll growth assumption was reduced from 4.5% to 4%.
- Mortality rates were based on the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).
- For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females).
- For Disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.
- The assumed rates of retirement, withdrawal, and disability were updated to reflect experience more accurately.

June 30, 2014 - Pension - Hazardous and Nonhazardous

There were no changes in assumptions made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2014.

CITY OF PARIS, KENTUCKY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2023

2. CHANGES OF ASSUMPTIONS (CONTINUED)

June 30, 2013 - Pension - Hazardous and Nonhazardous

The following assumptions were made by the Kentucky Legislature and reflected in the initial valuation performed as of June 30, 2013:

- The assumed rate of return was 7.75%.
- The assumed rate of inflation was 3.5%.
- The assumed rate of wage inflation was 1%.
- Payroll growth assumption was 4.5%.
- Mortality rates were based on the 1983 Group Annuity Mortality Table for all retired members and beneficiaries as of June 30, 2006. The 1994 Group Annuity Mortality Table was used for all other members.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and Commissioners City of Paris, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Paris, Kentucky, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the City of Paris, Kentucky's basic financial statements and have issued our report thereon dated February 19, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Paris, Kentucky's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Paris, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Pairs, Kentucky's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2023-001 and 2023-002, that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Paris, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Phone: 859-231-1800 • Fax: 859-422-1800 www.rfhcpas.com

City of Paris, Kentucky's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City of Paris, Kentucky's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City of Paris, Kentucky's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with this communication is not suitable for any other purpose Government Auditing Standards in considering the entity's internal control and compliance. Accordingly,

RFH, PLLC Lexington, Kentucky February 19, 2024

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Mayor and Commissioners City of Paris, Kentucky

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Paris, Kentucky's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City of Paris, Kentucky's major federal programs for the year ended June 30, 2023. The City of Paris, Kentucky's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City of Paris, Kentucky complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City of Paris, Kentucky and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City of Paris, Kentucky's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City of Paris, Kentucky's federal programs.

Phone: 859-231-1800 • Fax: 859-422-1800 www.rfhcpas.com

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City of Paris, Kentucky's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City of Paris, Kentucky's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
 design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the City of Paris, Kentucky's compliance with the
 compliance requirements referred to above and performing such other procedures as we
 considered necessary in the circumstances.
- Obtain an understanding of the City of Paris, Kentucky's internal control over compliance relevant
 to the audit in order to design audit procedures that are appropriate in the circumstances and to
 test and report on internal control over compliance in accordance with the Uniform Guidance, but
 not for the purpose of expressing an opinion on the effectiveness of the City of Paris, Kentucky's
 internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

RFH, PLLC Lexington, Kentucky February 19, 2024

CITY OF PARIS, KENTUCKY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS for the year ended June 30, 2023

GRANTOR/PROGRAM TITLE	Federal AL Number	Pass/Through Contract Number	Total Federal Expenditures
U.S. Department of the Treasury (TREAS) Passed through Kentucky Department of Local Government COVID-19 - Coronavirus State and Local Fiscal Recovery Funds	21.027	KY0227	\$ 1,295,961
Total U.S. Department of the Treasury			\$ 1,295,961
U.S. Department of Housing and Urban Development (HUD) Passed through Kentucky Department of Local Government			
Community Development Block Grant	14.228	20C-201	\$ 30,016
Total U.S. Department of Housing and Urban Development			\$ 30,016
Total federal awards expended			\$ 1,325,977

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Paris, Kentucky and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles*, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in, or used in the preparation of, the basic financials statements may differ from these numbers.

Note 2 - The City of Paris, Kentucky did not pass through any funds to subrecipients.

Note 3 - Indirect Cost Rates

The City of Paris, Kentucky did not elect to use the 10 percent de minimis cost rate as allowed under the Uniform Guidance.

Note 4 - Passthrough grantor numbers are presented when available.

CITY OF PARIS, KENTUCKY SCHEDULE OF FINDINGS AND QUESTIONED COSTS for the year ended June 30, 2023

II. FINDINGS RELATED TO FINANCIAL STATEMENTS

2023-001 - Material Weakness - Audit Adjustments (Recurring)

Criteria:

Management of the City of Paris (the City) is responsible for establishing and maintaining effective internal controls over the financial reporting process of the City.

Condition:

During the course of our audit, we identified misstatements that were not identified by the City's internal controls over financial reporting. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A deficiency in operation exists when a properly designed control does not operate as designed. In this case, the internal controls over the preparation and review of the City's financial statements did not operate as designed, and we consider this a material weakness.

Cause:

The City did not have properly operating internal controls in place over the financial reporting process and did not prepare year-end adjustments related to fixed assets, accounts payable, accrued liabilities, and interfund activity until the audit was already underway. The City did not have properly operating internal controls in place over the monthly reconciliation process for accounts payable, accrued liabilities, and interfund activity and did not reconcile year-end balances until the audit had commenced. The City also did not have properly operating internal controls in place to adequately track capital asset activity during the year.

Effect:

Field work on the audit began on December 11, 2023, and it was evident year-end account balances had not been fully adjusted at that point. The City's CPA was able to provide adjustments throughout the audit to correct account balances. However, between the commencement of the audit field work and completion, there were a total of 59 adjustments posted to get to the final figures presented in the audited financials. Management has a listing of these adjustments and has approved all adjustments.

Recommendation:

We recommend that the City continue to work towards strengthening its internal controls over financial reporting throughout the year and prior to the commencement of audit work. We recommend that the City continue to enhance its internal controls over financial reporting with steps such as management review of monthly account reconciliations and listings, improved analysis of the financials compared to prior years, and improved internal communication, particularly as it relates to tracking and recording of payables and the financial closeout process. We recommend specifically that accounts payable, accrued liabilities, and interfund activity be reconciled each month to the financial database. An individual other than the preparer of these reconciliations should review all reconciliations to ensure these are completed within 30 days after month end. Upon completion, the reviewer should initial and date the reconciliation. Additionally, we recommend that additions to capital assets be appropriately recorded as such when acquired.

Response:

The City concurs with this finding and has been working toward, and further agrees to continue to work towards, additional period-end reconciliations and reporting prior to the performance of the audit. Internal communication as well as staff training will continue related to receivables, payables, and accrued liabilities. In some areas, checklists have been established and, in many areas, additional reviews have been added to the process. In addition, for fiscal year 2024 a new Financial Coordinator position was added to the budget with the position being filled in December 2023 to assist with working towards more timely and complete reviews.

CITY OF PARIS, KENTUCKY SCHEDULE OF FINDINGS AND QUESTIONED COSTS for the year ended June 30, 2023

II. FINDINGS RELATED TO FINANCIAL STATEMENTS (CONTINUED)

2023-002 - Material Weakness - Controls over Utility Billing (Recurring)

Criteria:

The City should have effective internal controls, including appropriate segregation of duties with independent checks and secondary reviews, over the utility billing process.

Condition:

Beginning in fiscal year 2022, revisions were made on how the City calculates its Power Cost Adjustment (PCA) related to electric utility bills, which led to monthly over and under charging on utility bills for both fiscal years 2022 and 2023. The results of these errors required a \$268,116 restatement of net position in the current year for overbillings that occurred during fiscal year 2022, as a result of the PCA being incorrectly entered into the utility billing system. The overbillings related to PCA for fiscal year 2023 were corrected with adjustments already posted to customers' bills prior to June 30, 2023.

Cause:

The City does not have effective internal controls in place over the utility billing process to permit billing errors to be caught prior to the bills being sent to customers.

Effect:

As a result of the incorrectly input rates discovered during the audit, the City will have to recalculate bills and issue credits/refunds to customers.

Recommendation:

We recommend the City work to strengthen its internal controls over the utility billing process by improving segregation of duties, specifically by implementing a secondary review of utility bills, including the underlying inputs and calculations, prior to mailing to customers.

Response.

The City concurs with this finding that beginning in fiscal year 2022 the change in PCA methodology and subsequent input errors resulted in net overbillings to electric utility customers. Since the December 2022 incident, the City implemented enhanced reviews of the billing process, including a secondary review of the inputted billing rates as well as a secondary review and sign off of the PCA calculation. Increased stability of staff has also allowed the auditing of items and additional reporting to be reviewed related to billing.
